About this Prospectus

This Prospectus relates to the offer by Macquarie Group Limited ABN 94 122 169 279 (“MGL”) of Macquarie Group Capital Notes 4 (“MCN4”) to raise \$750 million with the ability to raise more or less (the “Offer”).

This Prospectus is dated 5 March 2019 and a copy was lodged with the Australian Securities and Investments Commission (“ASIC”) on that date pursuant to section 713(1) of the Corporations Act 2001 (Cth) (“Corporations Act”) (as modified by the ASIC Corporations (Regulatory Capital Securities) Instrument 2016/71). This is a replacement prospectus which replaces the Prospectus dated and lodged with ASIC on 25 February 2019 (“Original Prospectus”). This Prospectus expires 13 months after that date and no MCN4 will be issued on the basis of this Prospectus after that expiry date.

Neither ASIC nor ASX Limited (“ASX”) take any responsibility for the contents of this Prospectus or for the merits of investing in MCN4.

Documents relevant to the Offer

In addition to this Prospectus, the following documents are relevant to the Offer and can be obtained from www.MCN4Offer.com.au:

- the MCN4 Terms (see Appendix A to this Prospectus);
- the Trust Deed (see section 6.1); and
- the MGL Constitution.

Status of MCN4

MCN4 are fully paid, unsecured, subordinated, non-cumulative, mandatorily convertible notes.

MCN4 are not deposit liabilities and are not protected accounts of Macquarie Bank Limited ABN 46 008 583 542 (“MBL”) under the Banking Act 1959 (Cth) (“Banking Act”) and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. MGL is not an authorised deposit-taking institution (“ADI”) for the purposes of the Banking Act and its obligations do not represent deposits or other liabilities of MBL. The investment performance of MCN4 is not guaranteed by MGL, MBL or any other member of the Macquarie Group.

Claims in respect of MCN4 are subordinated in a winding up of MGL so as to rank after all creditors, equally with the holders of certain preference shares and other equal ranking instruments and ahead only of holders of Ordinary Shares. Further, if MGL is in financial difficulty some or all MCN4 may be required to be Exchanged into Ordinary Shares or Written-Off. If Exchange occurs, you would be in the position of a holder of Ordinary Shares and those shares may be worth significantly less than your investment in MCN4. If an MCN4 is Written-Off you lose all of your investment in the MCN4.

MCN4 are unsecured notes for the purposes of section 283BH of the Corporations Act.

MCN4 are issued by MGL under the MCN4 Terms and the Trust Deed and holders of MCN4 have no claim on MGL except as provided in the MCN4 Terms and the Trust Deed.

Investments in securities such as MCN4 are subject to risks which could affect their performance, including loss of investment and income. The market price of MCN4 or any particular rate of return is not guaranteed by MGL or any other member of the Macquarie Group.

You can find this guidance by searching “hybrid securities” at www.moneysmart.gov.au. MGL is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules. The terms of the MCN4 are complex and derived from the detailed capital requirements which the Australian Prudential Regulation Authority (“APRA”) applies to these instruments. The Trustee is obliged to take action to enforce the MCN4 Terms only if conditions in the Trust Deed are met, including that it is directed by MCN4 Holders, its liability is limited and it is indemnified to its satisfaction. AET Corporate Trust Pty Limited (ACN 106 424 088) changed its name on 8 November 2018 to Sargon CT Pty Ltd (ACN 106 424 088). Topic	Summary	Further information
1.1.7. Why is MGL issuing MCN4?	<ul style="list-style-type: none"> As at the Issue Date, MCN4 will constitute eligible regulatory capital of Macquarie Group in a manner which satisfies APRA's regulatory capital requirements. The MCN4 and MGL's other regulatory capital instruments and equity capital provide a buffer which protects Senior Creditors against losses that may be incurred by the Macquarie Group. The net proceeds of the Offer will be used for general corporate purposes. 	Section 2.9
1.2. Key features of MCN4		
1.2.1. Do MCN4 have a maturity date?	<ul style="list-style-type: none"> MCN4 are perpetual and do not have a fixed maturity date and, if MCN4 are not Exchanged, Redeemed or Written-Off, they could remain on issue indefinitely and the Issue Price may not be repaid. MCN4 will Exchange into Ordinary Shares on 10 September 2029, subject to certain Exchange Conditions being satisfied, unless they are Exchanged, Redeemed or Written-Off earlier. If the Exchange Conditions have not been satisfied on the above date then MCN4 will Exchange on the next Distribution Payment Date on which the Exchange Conditions are satisfied, unless they are Exchanged, Redeemed or Written-Off earlier. 	Sections 2.2 to 2.8
1.2.2. What Distributions are payable?	<ul style="list-style-type: none"> Distributions are scheduled to be paid quarterly in arrears commencing on 11 June 2019¹ until all MCN4 are Exchanged, Redeemed or Written-Off, subject to the Payment Conditions – see below. The Distribution Rate is based on the Reference Rate plus the Margin, adjusted for franking. The Margin is 4.15% which was determined under a Bookbuild. Distributions on MCN4 are discretionary, which means MGL can decide not to pay them. Distributions can also only be paid if certain Payment Conditions are met (including that MGL is able to pay Distributions without breaching APRA's capital adequacy requirements or becoming insolvent). Distributions are non-cumulative, which means that if a Distribution is not paid on a Distribution Payment Date then MGL has no obligation to pay the Distribution at any later date. Failure to pay a Distribution is not an event of default. Unless a Distribution is paid in full within 10 Business Days of the Distribution Payment Date, in most circumstances MGL is restricted from paying any dividends or returning capital on Ordinary Shares until the next Distribution Payment Date. 	Section 2.1
1.2.3. Will Distributions be franked?	<ul style="list-style-type: none"> Distributions on MCN4 are frankable. Distributions are expected to be franked at the same rate as dividends on Ordinary Shares. MGL currently franks dividends on Ordinary Shares at 45%. The level of franking may vary over time and Distributions may be partially, fully or not franked. A higher Franking Rate for a Distribution will result in a lower Distribution Rate and a lower cash Distribution, reflecting the value of the franking credit attached to the Distribution. If Distributions are franked, the value and availability of franking credits to an MCN4 Holder will depend on that MCN4 Holder's particular circumstances. The availability of franking credits is not guaranteed. The Australian Labor Party has announced a proposal that certain individuals and superannuation funds will no longer be entitled to receive a refund of franking credits received to the extent that they exceed their tax payable. The proposal would apply from 1 July 2019. The proposal and the final form this takes remain contingent on the Australian Labor Party being elected into government and the proposal being enacted into law. If the proposal is implemented MCN4 Holders will not be entitled to any adjustment to the amount of any Distributions. The implementation of the proposal will also not give rise to a Tax Event and accordingly will not trigger an entitlement for MGL to Exchange, Resell or Redeem MCN4. Implementation of the proposed changes may adversely affect the returns you receive on your MCN4 and the market price and/or liquidity of MCN4 may also be adversely impacted. 	Sections 2.1.3, 2.1.4, 4.1.3, 4.1.7, 4.1.8, 4.1.22 and 5

1. Due to the Business Day convention, the first Distribution Payment Date is deferred from 10 June 2019 to 11 June 2019.

Topic	Summary	Further information
1.2.4. When will the Issue Price be repaid?	<ul style="list-style-type: none"> • MGL has no obligation to return the Issue Price on any fixed date, therefore capital invested by MCN4 Holders may never be returned. • Whether and when the capital invested by MCN4 Holders may be returned will depend on what happens to MCN4. What may happen to MCN4 is uncertain and depends on a number of factors, including whether: <ul style="list-style-type: none"> • the Exchange Conditions are satisfied in respect of a Relevant Mandatory Exchange Date; • a Non-Viability Event, Acquisition Event, Regulatory Event or Tax Event occurs; • MGL elects for an Optional Exchange, Redemption or Resale to occur; and • APRA approval is given when it is required under the MCN4 Terms. • MCN4 Holders will have no right to request that MGL Exchange, Redeem or Resell any MCN4. • If a Non-Viability Event occurs MCN4 will be Exchanged for Ordinary Shares or Written-Off if Exchange does not occur for any reason. If MCN4 are Written-Off, the relevant MCN4 Holders' rights will be terminated and they will not receive any return of capital invested. 	Sections 2.2 to 2.8
1.2.5. Will MCN4 be Redeemed?	<ul style="list-style-type: none"> • If APRA gives prior written approval, MGL has a right, but not an obligation, to Redeem all or some MCN4: <ul style="list-style-type: none"> • on 10 September 2026, 10 March 2027 or 10 September 2027; or • if a Tax Event or Regulatory Event occurs. • Redemption cannot occur unless MCN4 are replaced with securities forming part of Eligible Capital of the same or better quality from APRA's perspective or APRA is satisfied that MGL's capital position is sufficient after Redemption. • If MCN4 are Redeemed MCN4 Holders will receive \$100 for each MCN4 Redeemed and, if the Payment Conditions are met, a Distribution for the period since the last Distribution Payment Date to the Redemption Date. 	Section 2.5
1.2.6. Will MCN4 be Resold?	<ul style="list-style-type: none"> • If APRA gives prior written approval, MGL has a right, but not an obligation, to Resell all or some MCN4 in the same limited circumstances as when Redemption may occur. • If a Resale occurs, the relevant MCN4 will be mandatorily sold to one or more nominated third parties. MCN4 Holders will receive a cash amount of \$100 for each MCN4 Resold and, if the Payment Conditions are met, a Distribution for the period since the last Distribution Payment Date to the Resale Date. 	Section 2.6

Topic	Summary	Further information
1.2.7. Will MCN4 be Exchanged for Ordinary Shares?	<p>MCN4 may be Exchanged for Ordinary Shares in the following circumstances:</p> <ul style="list-style-type: none"> • Mandatory Exchange: All MCN4 are scheduled to be Exchanged on 10 September 2029, unless the Exchange Conditions relevant to that date are not met (in which case, Exchange will be deferred until the first quarterly Distribution Payment Date where the Exchange Conditions relevant to that date are met). The Exchange Conditions (where applicable) are intended to ensure that MCN4 Holders will receive approximately \$101 worth of Ordinary Shares per MCN4 on Exchange (based on the VWAP during the 20 ASX Trading Days before the Relevant Mandatory Exchange Date) and that the Ordinary Shares are capable of being sold on ASX. • Exchange at MGL's option: MGL may also choose to Exchange all or some MCN4 on 10 September 2026, 10 March 2027 or 10 September 2027 if there has been a Tax Event or Regulatory Event, provided certain conditions are met. • Acquisition Event: MGL will be required to Exchange all MCN4 for Ordinary Shares if an Acquisition Event occurs (broadly, a change of control of MGL by takeover bid, scheme of arrangement or otherwise), provided certain conditions are met. • Non-Viability Event: MGL will be required to immediately Exchange all or some MCN4 for Ordinary Shares (or, if Exchange has not occurred for any reason within 5 Business Days, Write-Off all or some MCN4) if a Non-Viability Event occurs. Exchange under these circumstances is not subject to any conditions. 	Sections 2.3, 2.4, 2.7 and 2.8
1.2.8. What will MCN4 Holders receive on Exchange?	<ul style="list-style-type: none"> • If Exchange occurs as a result of Mandatory Exchange, or at MGL's option, MCN4 Holders will receive approximately \$101 worth of Ordinary Shares per MCN4, but those shares may be worth more or less than \$101 by the time they are issued. • If Exchange occurs as a result of an Acquisition Event, MCN4 Holders should receive approximately \$101 worth of Ordinary Shares per MCN4, except in limited circumstances where the Directors determine that it is in the best interests of MCN4 Holders as a whole for Exchange to proceed, notwithstanding that MCN4 Holders will receive less than \$101 worth of Ordinary Shares. Similarly to Mandatory Exchange or Exchange at MGL's option, those shares may be worth more or less than \$101 by the time they are issued. • The number of Ordinary Shares to be received by each MCN4 Holder in respect of its aggregate holding of the MCN4 will also be rounded down to the nearest whole number. • See below for what MCN4 Holders receive on Exchange as a result of a Non-Viability Event. 	Sections 2.3 and 2.4
1.2.9. What will MCN4 Holders receive on Exchange on a Non-Viability Event?	<ul style="list-style-type: none"> • MGL is required to immediately Exchange MCN4 into Ordinary Shares where a Non-Viability Event occurs. MCN4 Holders will not receive prior notice of the Exchange. • Broadly, a Non-Viability Event occurs if APRA has notified the Issuer in writing that (1) Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable or (2) APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable. As at the date of this Prospectus, APRA has not provided guidance as to how it would determine non-viability. • Exchange on account of a Non-Viability Event is not subject to any conditions. As a result, MCN4 Holders may receive less, or significantly less, than the Issue Price per MCN4 and an MCN4 Holder may suffer loss as a consequence. 	Section 2.7

Topic	Summary	Further information
1.2.10. What happens if Exchange following a Non-Viability Event does not occur?	<ul style="list-style-type: none"> • If, for any reason, MCN4 that are required to be Exchanged on account of a Non-Viability Trigger Event have not been Exchanged, within 5 Business Days of the Non-Viability Event, they will never be Exchanged and must be Written-Off. • If a Write-Off of an MCN4 occurs, the MCN4 Holder's rights under that MCN4 (including to payment of the Liquidation Amount and Distributions) are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date and MCN4 Holders will suffer a total loss of their investment in that MCN4 as a consequence. 	Section 2.7

1.2.11. Summary of certain events that may occur during the term of MCN4

The diagram and table below summarises certain events that may occur while MCN4 are on issue and what MCN4 Holders may receive if those events occur. If none of these events occur, MCN4 could remain on issue indefinitely and the Issue Price will not be repaid.

There are certain other events that could occur while MCN4 are on issue which may result in MCN4 being Exchanged, Redeemed, Resold or Written Off. These are summarised in the table on the next page.

1. Please see the Glossary for full definitions.

2. MCN4 Holders should not expect that APRA's approval will be given for any Redemption or Resale.

3. The Exchange Conditions applicable to a Mandatory Exchange differ from those applicable to a Tax Event, Regulatory Event, Acquisition Event or an Optional Exchange. See sections 2.3, 2.4, 2.7 and 2.8.

4. If Exchange (other than on account of a Non-Viability Event), Redemption or Resale occurs on a day that is not a scheduled quarterly Distribution Payment Date, MCN4 Holders which are being Exchanged, Redeemed or Resold will also receive a Distribution in respect of those MCN4 for the period from the immediately preceding Distribution Payment Date to the date on which the Exchange, Redemption or Resale occurs (provided the Directors have decided to pay the Distribution and the other Payment Conditions are met).

5. The value of Ordinary Shares is determined over a period of ASX Trading Days immediately prior to Exchange (generally the period is 20 ASX Trading Days, with 5 ASX Trading Days for Non-Viability Exchange). At the time they are issued, the value of Ordinary Shares received on Exchange may be more or less than \$101.

6. May be less if Directors determine that Exchange is in the best interests of MCN4 Holders as a whole, notwithstanding that MCN4 Holders will suffer loss, or that the Ordinary Shares may not be listed. See section 2.8.

7. Whilst APRA approval is not required for an Exchange due to a Non-Viability Event, APRA must determine that a Non-Viability Event has occurred.

8. MCN4 are perpetual and, if the Exchange Conditions are never met, Exchange may never occur and MCN4 may remain on issue indefinitely. Unless Redeemed, Exchanged or Written-Off earlier, MCN4 will be mandatorily Exchanged on 10 September 2029 provided the Exchange Conditions are met, or on the next Distribution Payment Date on which the Exchange Conditions are satisfied.

1.2.12. Ranking of MCN4 in a Winding Up of MGL

- In a Winding Up of MGL, MCN4 will rank ahead of Ordinary Shares, equally with Equal Ranking Obligations, but behind all Senior Creditors of MGL. The table below illustrates this ranking, if the MCN4 have not been Exchanged or Written Off.
- However, any return on MCN4 may be adversely affected or reduced to zero if a Non-Viability Event occurs. If APRA determines that a Non-Viability Event occurs, some or all of the MCN4 are required to be Exchanged or, if that does not occur, Written-Off. Where an Exchange occurs, the MCN4 Holders will become holders of Ordinary Shares (ranking equally with other Ordinary Shares). If MCN4 are Written Off, the MCN4 Holders will have no claim at all on MGL (even though Ordinary Shares will still be on issue).

Section 2.10

Ranking	Illustrative examples	
Higher	Preferred and secured debt	Liabilities preferred by law including employee entitlements and secured creditors.
	Unsubordinated and unsecured debt	Unsubordinated and unsecured bonds and notes, trade and general creditors.
	Subordinated and unsecured debt	Subordinated and unsecured debt obligations.
	Preference shares and equal ranking securities	Equal Ranking Obligations and MCN4 (if a Non-Viability Event has not occurred). Where MCN4 are Exchanged for Ordinary Shares, MCN4 Holders have the claims of holders of Ordinary Shares. If, following a Non-Viability Event MCN4 are Written-Off, MCN4 Holders have no claim at all on MGL, and they are likely to be worse off than holders of Ordinary Shares.
	Lower	Ordinary shares

- MGL is the non-operating holding company of the Macquarie Group and its assets are largely investments in and claims on entities in the Macquarie Group which may rank behind depositors and other creditors of those entities.
- If Exchange occurs, MCN4 Holders will become holders of Ordinary Shares and their claims in respect of those Ordinary Shares rank equally with other holders of Ordinary Shares. Those shares may be worth significantly less than the Issue Price of MCN4.

1.2.13. MCN4 are not guaranteed

- MCN4 are not guaranteed by any member of the Macquarie Group and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction, or by any other person.
- MCN4 are not deposit liabilities or protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act.

Clause 1.2 of the MCN4 Terms

1.2.14. MCN4 are not secured

- MCN4 are not secured in any way against any asset of MGL or the Macquarie Group.

<h3>1.3. What are the key risks of investing in MCN4?</h3>		
<p>There are risks associated with an investment in MCN4, many of which are outside the control of MGL. These risks include those in this section 1.3 and section 4 and other matters referred to in this Prospectus.</p>		
<p>Before applying for MCN4, you should consider whether MCN4 are a suitable investment for you. MCN4 are a complex investment and may be difficult to understand, even for experienced investors.</p>		
<p>A summary of the key risks associated with an investment in MGL and the Macquarie Group generally are described in section 4.2.</p>		
<p>1.3.1. Market Price and Liquidity of MCN4</p>	<ul style="list-style-type: none"> • The market price of MCN4 may go up or down and there is no guarantee MCN4 will trade at or above their Issue Price. For example, the market price of MCN4 may decline if better rates of return are available on other securities. • The market price of MCN4 may also be significantly impacted by the market price for Ordinary Shares. • There may be no liquid market for MCN4. • MCN4 Holders who wish to sell their MCN4 may be unable to do so at a price acceptable to them, or at all. 	<p>Section 4.1.3</p>
<p>1.3.2. Market price and liquidity of Ordinary Shares</p>	<ul style="list-style-type: none"> • If MCN4 are Exchanged into Ordinary Shares, the value of those Ordinary Shares is determined over a period of up to 20 ASX Trading Days immediately prior to Exchange. At the time they are issued, the price at which the Ordinary Shares received by MCN4 Holders can be sold may be more or less than the anticipated \$101. • Additionally, in various circumstances the market price of Ordinary Shares may determine whether Exchange can occur. This will affect when Exchange occurs (and may mean that Exchange never occurs). • The market price for Ordinary Shares will vary due to many factors including the availability and rates of return on other securities, investor perceptions of the Macquarie Group's financial position and performance and general economic and market conditions. • The market for Ordinary Shares may be less liquid than other securities and may not be liquid at all, so that MCN4 Holders may be unable to sell the Ordinary Shares they may receive for an acceptable price, or at all. 	<p>Section 4.1.4</p>
<p>1.3.3. Distributions may not be paid</p>	<ul style="list-style-type: none"> • MGL has absolute discretion to determine whether or not to pay Distributions. • Furthermore, a Distribution can only be paid if the Payment Conditions are met, including that MGL is able to pay the Distribution without MGL breaching APRA's capital adequacy requirements or becoming insolvent. This means that there is a risk that Distributions may not be paid. • Distributions are non-cumulative. Accordingly, if a Distribution is not paid for any reason, MCN4 Holders will have no rights to receive that Distribution in the future. 	<p>Section 4.1.5</p>
<p>1.3.4. Changes in Distribution Rate</p>	<ul style="list-style-type: none"> • The Distribution Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Reference Rate. • A higher Franking Rate for a Distribution will result in a lower Distribution Rate and a lower cash Distribution, reflecting the value of the franking credit attached to the Distribution. • There is a risk that the Distribution Rate may become less attractive when compared to the rates of return available on comparable securities or investments. 	<p>Section 4.1.6</p>

Topic	Summary	Further information
1.3.5. Level of franking	<ul style="list-style-type: none"> The level of franking of Distributions on MCN4 is affected by the level of MGL's available franking credits and distributable profits. MGL's level of franking credits may be affected by a wide range of factors, including its business performance, the jurisdictions in which the Macquarie Group makes profits and pays tax and the amount of other frankable distributions. MGL's distributable profits may also be affected by a wide range of factors including its level of earnings and other distributions it makes. The value and availability of franking credits to an MCN4 Holder will depend on that MCN4 Holder's particular circumstances. The Australian Labor Party has announced a proposal that certain individuals and superannuation funds will no longer be entitled to receive a refund of franking credits received to the extent that they exceed their tax payable. The proposal would apply from 1 July 2019. The proposal and the final form this takes remain contingent on the Australian Labor Party being elected into government and the proposal being enacted into law. If the proposal is implemented MCN4 Holders will not be entitled to any adjustment to the amount of any Distributions. The implementation of the proposal will also not give rise to a Tax Event and accordingly will not trigger an entitlement for MGL to Exchange, Resell or Redeem MCN4. Implementation of the proposed changes may adversely affect the returns you receive on your MCN4 and the market price and/or liquidity of MCN4 may also be adversely impacted. 	Sections 4.1.3, 4.1.7, 4.1.8 and 4.1.22
1.3.6. MCN4 are perpetual and may never be Exchanged, Redeemed or Resold	<ul style="list-style-type: none"> MCN4 are a perpetual instrument but will Exchange for Ordinary Shares on 10 September 2029 if they are still on issue and the Exchange Conditions are satisfied. If the Exchange Conditions are not met on this date MCN4 will Exchange on the next subsequent Distribution Payment Date on which the Exchange Conditions are met. There is a risk that the Exchange will not occur on any of these dates and may never occur because these Exchange Conditions cannot be satisfied. 	Section 4.1.11
1.3.7. MGL has rights for Exchange, Redemption or Resale at its election	<ul style="list-style-type: none"> MGL may elect to Exchange, Redeem or arrange a Resale of all or some MCN4 in certain circumstances, subject to a number of conditions, including prior written approval from APRA when required under the MCN4 Terms. Where required, APRA's approval is at the complete discretion of APRA and may or may not be granted. The choice to elect the Exchange, Redemption or Resale of all or some MCN4 is entirely at MGL's discretion and MCN4 Holders have no right to either request or alter the timing of any Exchange, Redemption or Resale. It is uncertain whether and when Exchange, Redemption or Resale may occur. The timing of any Exchange, Redemption or Resale may not suit MCN4 Holders. 	Sections 4.1.10 and 4.1.13
1.3.8. Losses due to an Acquisition Event	<ul style="list-style-type: none"> If an Acquisition Event occurs, and the Directors determine it is in the best interests of MCN4 Holders, Exchange may occur even though MCN4 Holders would receive less (and possibly significantly less) than \$101 worth of Ordinary Shares or even though those Ordinary Shares are unlisted and MCN4 Holders may suffer a loss as a result. 	Section 4.1.14
1.3.9. Losses due to a Non-Viability Event	<ul style="list-style-type: none"> If Exchange occurs following a Non-Viability Event, MCN4 Holders may receive significantly less than \$101 worth of Ordinary Shares per MCN4 and may receive unlisted Ordinary Shares. If, for any reason, an MCN4 which is required to be Exchanged is not Exchanged within 5 Business Days of the Non-Viability Event then that MCN4 will be Written-Off (in which case the MCN4 Holders' rights under the relevant MCN4 will be immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date). In these circumstances, MCN4 Holders will suffer a total loss of their investment in that MCN4. 	Sections 4.1.15 and 4.1.16

1.3.10. Restrictions on rights and ranking in a Winding Up of MGL	<ul style="list-style-type: none"> MCN4 are not deposit liabilities or protected accounts of MBL or MGL or any other member of the Macquarie Group and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction or by any other person. The investment performance of MCN4 is not guaranteed by MGL, MBL or any other member of the Macquarie Group. In the event of a Winding Up of MGL, MCN4 Holders will rank behind all Senior Creditors, equally with Equal Ranking Obligations and ahead of Ordinary Shares. Any return in a Winding Up of MGL may be adversely affected if a Non-Viability Event occurs. If this happens some or all MCN4 will be required to be Exchanged or, if Exchange has not occurred within 5 Business Days of the Non-Viability Event, Written-Off. If an MCN4 is Exchanged, the MCN4 Holder will become a holder of Ordinary Shares and those shares may be worth significantly less than their investment in MCN4. If an MCN4 is Written-Off, the MCN4 Holder will suffer a total loss of their investment in that MCN4. If there is a shortfall of funds on a Winding Up of MGL, MCN4 Holders will lose some or all of their investment in that MCN4. 	Sections 4.1.1 and 4.1.18

1.4. Comparison between MCN4 and other investments

Topic	Summary	Further information
2.1. Distributions	<p>MCN4 are expected to pay quarterly Distributions commencing on 11 June 2019¹ which are expected to be 45% franked initially, but may not be franked, or may be franked to a different level in the future. A Distribution will be paid subject to the Payment Conditions, including MGL's discretion.</p> <p>The Distribution Rate is a floating rate (i.e. it will fluctuate), and is equal to the sum of the Reference Rate plus the Margin, adjusted for the Tax Rate and the Franking Rate.</p> <p>Distributions are non-cumulative.</p>	
2.1.1. What are Distributions?	<ul style="list-style-type: none"> • Distributions on MCN4 are discretionary, non-cumulative floating rate payments. • Distributions are scheduled to be paid quarterly in arrears commencing on 11 June 2019¹, subject to the Payment Conditions – see below. • The Distribution Payment Dates are 10 March, 10 June, 10 September, 10 December each year. • Distributions are expected to be franked at the same rate as dividends on Ordinary Shares. MGL currently franks dividends on Ordinary Shares at 45%. The level of franking may vary over time and Distributions may be partially, fully or not franked. 	Clause 2 of the MCN4 Terms
2.1.2. What are the Payment Conditions?	<ul style="list-style-type: none"> • Distributions may not always be paid. The payment of each Distribution will be made unless: <ul style="list-style-type: none"> • MGL, in its absolute discretion, determines that the Distribution is not payable to MCN4 Holders; • payment of the Distribution would result in MGL breaching APRA's capital adequacy requirements applicable to it; • payment of the Distribution would result in MGL becoming, or being likely to become, insolvent for the purposes of the Corporations Act; or • APRA objects to the payment of the Distribution. <p>These conditions are referred to in this Prospectus as the “Payment Conditions”.</p> <ul style="list-style-type: none"> • Failure to pay a Distribution when scheduled will not constitute an event of default and MCN4 Holders have no claim or entitlement in respect of non-payment or any right to receive that Distribution at any later time. 2.1.3. How will the Distribution Rate be calculated?	<ul style="list-style-type: none"> • The Distribution Rate is calculated using the following formula: Distribution Rate = (Reference Rate + Margin) x Franking Adjustment Factor where: <ul style="list-style-type: none"> • Reference Rate means, the Reference Rate on the first day of that Distribution Period – see section 2.1.5; • Margin is 4.15% and was set by way of Bookbuild and was announced to the market on 27 February 2019. • Franking Adjustment Factor = $\frac{(1-T)}{1 - [T \times (1-F)]}$ <p>where:</p> <ul style="list-style-type: none"> • T is the Tax Rate; and • F is the Franking Rate 	Clause 2.1 of the MCN4 Terms

2.1.3. How will the Distribution Rate be calculated? (continued)	<ul style="list-style-type: none"> Due to the effect of the Franking Adjustment Factor, the Distribution Rate will be lower if franking applies to a Distribution. For example, assuming the Reference Rate for the first Distribution Period is 1.8706% per annum, the Margin is 4.15% per annum and using the Macquarie Group's current franking rate of 45%, then the Distribution Rate for that Distribution Period would be calculated as follows: <table border="1" style="margin-left: 40px; margin-top: 10px;"> <thead> <tr> <th colspan="2" style="text-align: right;">Partially franked Distribution</th> </tr> </thead> <tbody> <tr> <td style="text-align: right;">(1) Reference Rate</td> <td style="text-align: right;">1.8706%</td> </tr> <tr> <td style="text-align: right;">(2) Margin</td> <td style="text-align: right;">4.15%</td> </tr> <tr> <td style="text-align: right;">(3) = (1) + (2)</td> <td style="text-align: right;">6.0206%</td> </tr> <tr> <td style="text-align: right;">(4) Tax Rate</td> <td style="text-align: right;">30%</td> </tr> <tr> <td style="text-align: right;">(5) Franking Rate</td> <td style="text-align: right;">45%</td> </tr> <tr> <td style="text-align: right;">(6) Franking Adjustment Factor (per formula above)</td> <td style="text-align: right;">83.8323%</td> </tr> <tr> <td style="text-align: right;">(7) Distribution Rate = (3)x(6)</td> <td style="text-align: right;">5.0472%</td> </tr> </tbody> </table>	Partially franked Distribution		(1) Reference Rate	1.8706%	(2) Margin	4.15%	(3) = (1) + (2)	6.0206%	(4) Tax Rate	30%	(5) Franking Rate	45%	(6) Franking Adjustment Factor (per formula above)	83.8323%	(7) Distribution Rate = (3)x(6)	5.0472%	Clause 2.1 of the MCN4 Terms

2.1.4. What is the impact of Franking credits?	<ul style="list-style-type: none"> Distributions are expected to be franked at the same rate as Ordinary Shares. MGL currently franks dividends on Ordinary Shares at 45%. The level of franking may vary over time and Distributions may be partially, fully or not franked. MGL's ability to frank dividends on Ordinary Shares and Distributions on MCN4 is affected by its level of available franking credits and distributable profits. MGL's level of franking credits may be affected by a wide range of factors, including its business performance, the jurisdictions in which the Macquarie Group makes profits and pays tax, the applicable Australian corporate tax rate and the amount of other frankable distributions. MGL's distributable profits may also be impacted by a wide range of factors, including its level of earnings and other distributions it makes. See section 4.1.7. A higher Franking Rate for a Distribution will result in a lower Distribution Rate and a lower cash Distribution, reflecting the value of the franking credit attached to the Distribution. MCN4 Holders should be aware that the potential value of any franking credit does not accrue at the same time as the receipt of any cash Distribution. MCN4 Holders should also be aware that the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund after the end of the income year, will depend on the individual tax position of each MCN4 Holder and the tax rules that apply at the time of each distribution. The laws relating to the availability of franking may change. The Australian Labor Party has announced a proposal that certain individuals and superannuation funds will no longer be entitled to receive a refund of franking credits received to the extent that they exceed their tax payable. The proposal would apply from 1 July 2019. The proposal and the final form this takes remain contingent on the Australian Labor Party being elected into government and the proposal being enacted into law. If the proposal is implemented MCN4 Holders will not be entitled to any adjustment to the amount of any Distributions. The implementation of the proposal will also not give rise to a Tax Event and accordingly will not trigger an entitlement for MGL to Exchange, Resell or Redeem MCN4. Implementation of the proposed changes may adversely affect the returns you receive on your MCN4 and the market price and/or liquidity of MCN4 may also be adversely impacted. MCN4 Holders should refer to the Australian taxation summary in section 5.1 and seek professional advice in relation to their tax position. -------	---------	---------------------

2.1.4. What is the impact of Franking credits? (continued)

- If the Distribution is fully or partially franked, the franking credits attached to a Distribution (expressed as a percentage of the Issue Price) will be equal to:

Sections 4.1.3, 4.1.7, 4.1.8, 4.1.22 and 5

$$\frac{\text{Distribution Rate} \times \text{Tax Rate} \times \text{Franking Rate}}{(1 - \text{Tax Rate})}$$

- The amount of franking credits attached to a Distribution will be notified to MCN4 Holders in Distribution notices shortly after a Distribution is paid. Taking the example in section 2.1.3, the amount of franking credits (expressed as a percentage) would be calculated as:

	Partially franked Distribution
Distribution Rate	5.0472%
Tax Rate	30%
Franking Rate	45%
Franking credit rate (per formula above)	0.9734%

2.1.5. What is the Reference Rate?

- The Reference Rate means, for a Distribution Period, the rate designated “BBSW” in respect of prime bank eligible securities having a tenor closest to the Distribution Period which rate ASX (or its successor as administrator of that rate) publishes through information vendors at approximately 10:30am on the first day of that Distribution Period.
- The rate is administered by ASX and is published on various information services (e.g. Thomson Reuters page BBSW).
- The rate changes to reflect supply and demand in the cash and currency markets and provides a reference for the pricing, rate setting and valuation of Australian dollar financial securities.
- The graph below illustrates the movement in the Reference Rate over the last 10 years. The rate on 1 March 2019 was 1.8706% per annum.
- If MGL determines that BBSW has been affected by a “Reference Rate Disruption Event”, MGL may select an alternative reference rate that it considers appropriate and make other related changes to the Terms (subject, in each case, to APRA’s prior written approval).
- Broadly, a “Reference Rate Disruption Event” occurs where BBSW is not published by the usual time, there is an obvious error in the rate, or BBSW has been discontinued or has ceased to be generally accepted in the Australian market for securities such as MCN4. MGL is required to act in good faith and in a commercially reasonable manner in selecting an alternative reference rate, and may consult with sources that it considers appropriate, but may otherwise exercise its discretion.

Clause 2.1 of the MCN4 Terms

- The above graph is for illustrative purposes only and does not indicate, guarantee or forecast the actual Reference Rate. The actual Reference Rate for the first and subsequent Distribution Periods may be higher or lower than the rates in the above graph.

2.1.6. How will the Distribution be calculated for each Distribution Payment Date?	<ul style="list-style-type: none"> Distributions scheduled to be paid on each Distribution Payment Date on each MCN4 will be calculated using the following formula: $\frac{\\$100 \times \text{Distribution Rate} \times N}{365}$ where: <ul style="list-style-type: none"> Distribution Rate means the rate (expressed as a percentage per annum) calculated as set out in section 2.1.3; and N means the number of days in the Distribution Period. 2.2.1. Do MCN4 have a maturity date? (continued)	<ul style="list-style-type: none"> MGL must also Exchange all MCN4 following an Acquisition Event except in certain circumstances. If Exchange occurs following these events, MCN4 Holders would generally³ receive Ordinary Shares worth approximately \$101 (determined on the basis of the Exchange calculations described in section 2.3.4 below) although by the time of Exchange the market value of the Ordinary Shares received may be more or less than \$101 when they are issued or at any time after that. MGL must Exchange some or all (depending on the circumstances) MCN4 for Ordinary Shares on the occurrence of a Non-Viability Event: <ul style="list-style-type: none"> This Exchange is not subject to the Exchange Conditions. Importantly, MGL may only elect to Redeem or Resell MCN4 with APRA's prior written approval. MCN4 Holders should not expect that APRA's approval, if requested, will be given.</p>	Section 2.5

2.3. Mandatory Exchange

MGL must Exchange MCN4 into Ordinary Shares on 10 September 2029 (if the MCN4 have not been Redeemed, Exchanged or Written-Off beforehand) provided that certain Exchange Conditions are satisfied.

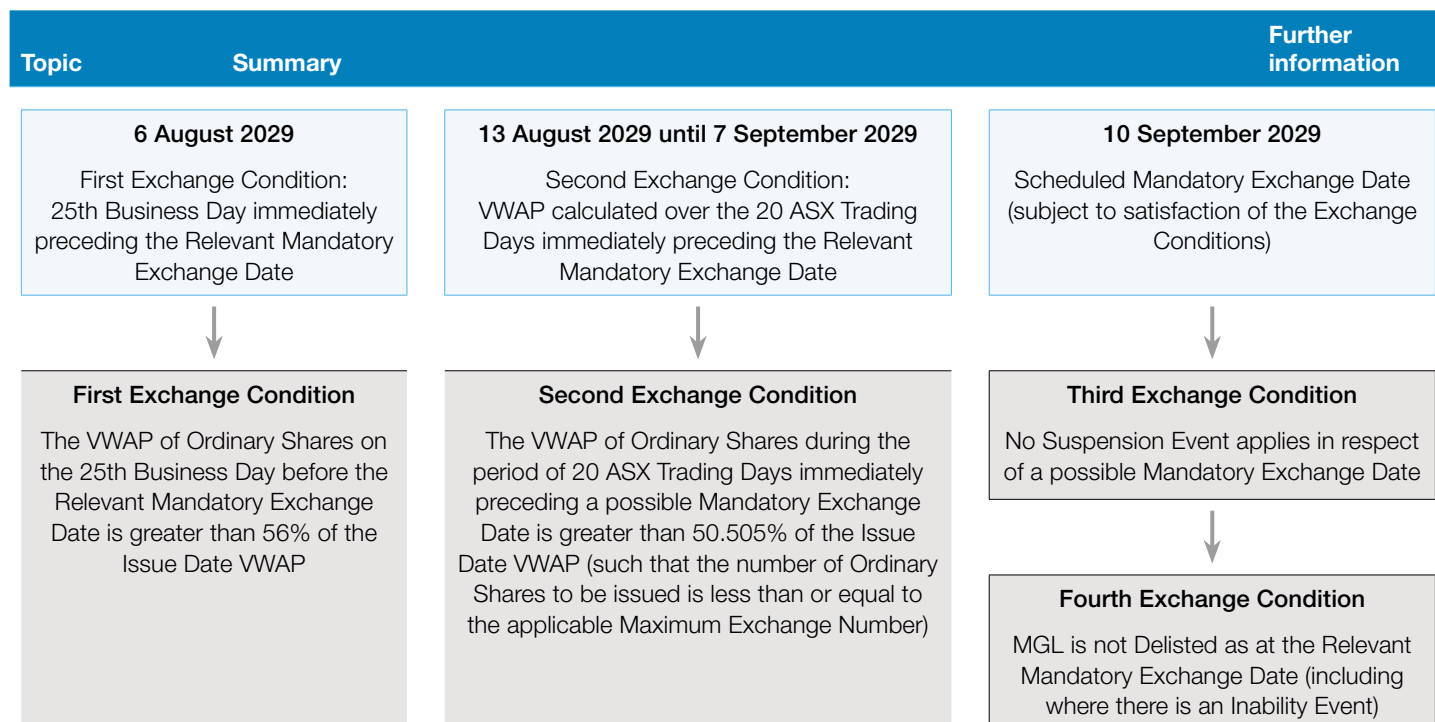

The conditions to Mandatory Exchange and the associated Exchange calculations (described in this section) are designed to ensure that if Exchange occurs MCN4 Holders will receive approximately \$101 worth of Ordinary Shares for each MCN4 held, and that the Ordinary Shares they receive following the Exchange are capable of being sold on ASX.

2.3.1. What happens on Scheduled Mandatory Exchange?	<p>If MCN4 have not already been Redeemed, Resold, Exchanged or Written-Off, MCN4 Holders will receive Ordinary Shares on Exchange of MCN4 on 10 September 2029, the "Scheduled Mandatory Exchange Date", unless the Exchange Conditions are not satisfied.</p> <p>Upon Exchange on the Mandatory Exchange Date, MCN4 Holders will receive approximately \$101 worth of Ordinary Shares per MCN4 based on VWAP calculated over the 20 ASX Trading Days immediately preceding the Exchange Date and a 1% discount on Exchange. This VWAP will most likely differ from the Ordinary Share price on or after the Scheduled Mandatory Exchange Date. This means that the value of Ordinary Shares received may be more or less than \$101 when they are issued, or at any time after that.</p> <p>As a result of any Exchange of MCN4 for Ordinary Shares, MCN4 Holders will become holders of Ordinary Shares, which will rank equally with existing Ordinary Shares from the date of issue. 3. As with other types of Exchange (other than Exchange on account of a Non-Viability Event), there are conditions to Exchange on an Acquisition Event which ensure that an MCN4 Holder will receive approximately \$101 worth of Ordinary Shares for each MCN4 they hold and the Ordinary Shares received are capable of being sold on the ASX. However, these conditions do not apply if the Directors determine that the Exchange is in any event in the best interests of MCN4 Holders as a whole.

2.3.2. What happens if the Exchange Conditions are not met on the Scheduled Mandatory Exchange Date (10 September 2029)?	<ul style="list-style-type: none"> • If still on issue, the MCN4 will be Exchanged on the Scheduled Mandatory Exchange Date, provided that the Exchange Conditions are satisfied on this date. • If any of the Exchange Conditions are not satisfied on this date, then the Exchange will be deferred until the next quarterly Distribution Payment Date, each a “Deferred Mandatory Exchange Date”, where all of the Exchange Conditions are satisfied. This means that if the Exchange Conditions are never satisfied MCN4 may never be Exchanged. • The Scheduled Mandatory Exchange Date and each Deferred Mandatory Exchange Date are referred to as “Relevant Mandatory Exchange Dates”. • Distributions will continue to be paid (subject to the Payment Conditions) until Exchange occurs. 	Clause 3.2 of the MCN4 Terms and section 2.3.3
2.3.3. What are the Exchange Conditions?	<ul style="list-style-type: none"> • In summary, the Exchange Conditions are as follows: <ul style="list-style-type: none"> • First Exchange Condition: the Daily VWAP on the 25th Business Day immediately preceding the Relevant Mandatory Exchange Date is greater than 56% of the Issue Date VWAP; • Second Exchange Condition: the VWAP during the 20 ASX Trading Days immediately preceding the Relevant Mandatory Exchange Date is such that the number of Ordinary Shares to be issued would be less than or equal to the applicable Maximum Exchange Number; • Third Exchange Condition: no Suspension Event applies in respect of the Relevant Mandatory Exchange Date (broadly, a Suspension Event occurs where Ordinary Shares have been suspended from trading for the 5 preceding Business Days); and • Fourth Exchange Condition: MGL is not Delisted as at the Relevant Mandatory Exchange Date (broadly, MGL will be Delisted where Ordinary Shares cease to be listed on ASX or where an Inability Event (as described in section 2.7.6) subsists). • Exchange on a Mandatory Exchange Date cannot occur unless all four Exchange Conditions are satisfied. • The First Exchange Condition and Second Exchange Condition are intended to ensure MCN4 Holders will not receive less than \$101 worth of Ordinary Shares per MCN4 on Exchange (based on the VWAP during the 20 ASX Trading Days before the Mandatory Exchange Date). • The Third Exchange Condition and Fourth Exchange Condition are intended to provide protection to MCN4 Holders by making Exchange conditional on MCN4 Holders receiving Ordinary Shares which are capable of being sold on ASX. • The following diagram sets out the timeframes that are relevant for testing whether Exchange will occur, using the Scheduled Mandatory Exchange Date (10 September 2029). These dates are indicative only and may change. 	Clause 3.3 of the MCN4 Terms

2. About MCN4

Note: The dates in the diagram above assume that trading of Ordinary Shares takes place on **6 August 2029** and each of the Business Days between **6 August 2029** and **7 September 2029**, which may not be the case due to public holidays or if trading in Ordinary Shares is suspended during the period leading up to the possible Mandatory Exchange Date.

2.3.4. How many Ordinary Shares will an MCN4 Holder receive on a Relevant Mandatory Exchange Date?

- An MCN4 Holder will receive on a Relevant Mandatory Exchange Date a number of Ordinary Shares per MCN4 ("**Exchange Number**") calculated in accordance with the following formula:

$$\frac{\$100}{99\% \times \text{Exchange Date VWAP}}$$

where **Exchange Date VWAP** is the volume weighted average price of Ordinary Shares during the VWAP Period (being the period of 20 ASX Trading Days immediately preceding the Relevant Mandatory Exchange Date).

- The Exchange Number can never be greater than the Maximum Exchange Number (see section 2.3.5). The Exchange Conditions prevent Exchange from occurring on a Relevant Mandatory Exchange Date where the Exchange Number would be limited by the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date.
- The Exchange Date VWAP will be adjusted to reflect:
 - dividends or other distributions that are reflected in the Ordinary Share price that will not be payable to MCN4 Holders after Exchange and vice versa (e.g. where the price is quoted cum dividend but the dividend is paid before the Exchange); and
 - any division, consolidation or reclassification of MGL's share capital (not involving any cash payment or other distribution or compensation to or by holders of Ordinary Shares or to or by any entity in the Macquarie Group) occurring during the calculation period.
- The number of Ordinary Shares to be received by an MCN4 Holder will also be rounded down so that only a whole number of Ordinary Shares is issued in connection with the MCN4 Holder's aggregate holding of MCN4 (with entitlements of the MCN4 Holder to a part only of an Ordinary Share disregarded).

2.3.5. What is the Maximum Exchange Number?	<p>• The Maximum Exchange Number is calculated as:</p> $\frac{\$100}{\text{Issue Date VWAP} \times \text{Relevant Percentage}}$ <p>where:</p> <ul style="list-style-type: none"> • the Issue Date VWAP is the VWAP during the 20 ASX Trading Days immediately preceding, but not including, the Issue Date; and • the Relevant Percentage, for Exchange on a Relevant Mandatory Exchange Date, is 50%. <p>• Under no circumstances will MCN4 be Exchanged for more than the Maximum Exchange Number of Ordinary Shares.</p> <p>• Other than for an Exchange on account of a Non-Viability Event (see section 2.7.4) or an Acquisition Event (see section 2.8), the Exchange Conditions prevent an Exchange from occurring where the Ordinary Shares which MCN4 Holders would receive are worth less than approximately \$101 based on the Exchange Date VWAP.</p> <p>• The Issue Date VWAP (and consequently the Maximum Exchange Number) will be adjusted where:</p> <ul style="list-style-type: none"> • dividends or other distributions are reflected in the Ordinary Share price in the Issue Date VWAP calculation period that will not be payable to MCN4 Holders (e.g. where the price is quoted cum dividend); • a pro-rata bonus issue of Ordinary Shares (other than a bonus share plan, employee or executive share plan, executive option plan, share top-up plan, share purchase plan or dividend reinvestment plan) occurs while MCN4 are on issue; or • any division, consolidation or reclassification of MGL's share capital (not involving any cash payment or other distribution or compensation to or by holders of Ordinary Shares or to or by any entity in the Macquarie Group) occurs while the MCN4 are on issue. <p>The adjustment to Issue Date VWAP will not be made for any other capital activity including a rights issue or other essentially pro rata issue. The MCN4 Terms do not restrict MGL from undertaking any activity of this kind.</p> <p>Where the adjustment to Issue Date VWAP would be less than 1%, no adjustment will be made (although the adjustment balance will be carried forward for any subsequent adjustments).</p>	Clauses 9.1 and 9.3 to 9.9 of the MCN4 Terms
2.3.6. Example of the Exchange calculations	<p>Illustrative example of Exchange</p> <p>This example is for illustrative purposes only. The figures in it are not forward looking statements and do not indicate or guarantee the Issue Date VWAP or future VWAP or other price of Ordinary Shares.</p> <p>For the example of the Mandatory Exchange on 10 September 2029, assume the Issue Date VWAP was \$121.95. The Exchange Conditions are tested and the number of Ordinary Shares to be received on Exchange would be determined as follows:</p> <p>Step 1: passing the Exchange Conditions</p> <p>First Exchange Condition</p> <p>This condition requires that the VWAP on the 25th Business Day immediately preceding 10 September 2029 (assuming there is trading of Ordinary Shares on that day) is greater than 56% of the Issue Date VWAP, which would be \$68.29 (being 56% of \$121.95).</p> <ul style="list-style-type: none"> • Assume the VWAP on 6 August 2029 (expected to be the 25th Business Day immediately preceding, but not including, 10 September 2029) is \$111.95. <p>Since the VWAP on 6 August 2029 is greater than \$68.29, the First Exchange Condition is satisfied.</p>

2.3.6. Example of the Exchange calculations (continued)	<p>Second Exchange Condition</p> <p>The Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date is calculated on the basis that the Relevant Percentage is 50%. The effect of this is that the Second Exchange Condition applicable to a Relevant Mandatory Exchange Date will be met if the VWAP during the 20 ASX Trading Days immediately preceding 10 September 2029 is greater than 50.505% of the Issue Date VWAP, which would be \$61.59 (being 50.505% of \$121.95).</p> <ul style="list-style-type: none"> Assume the VWAP during the period from 13 August 2029 to 7 September 2029 (expected to be the 20 ASX Trading Days immediately preceding, but not including, 10 September 2029) is \$111.95. <p>Since the VWAP during the period from 13 August 2029 to 7 September 2029 is greater than \$61.59, the Second Exchange Condition is satisfied.</p> <p>Third Exchange Condition</p> <p>This condition requires that no Suspension Event applies on 10 September 2029.</p> <ul style="list-style-type: none"> Assume on 10 September 2029, trading in Ordinary Shares is not suspended on that date and has not been suspended during the five preceding Business Days. <p>In these circumstances, the Third Exchange Condition is satisfied.</p> <p>Fourth Exchange Condition</p> <p>This condition requires that MGL is not Delisted on 10 September 2029.</p> <ul style="list-style-type: none"> Assume on 10 September 2029, MGL is listed on ASX and no Inability Event subsists. <p>In these circumstances, the Fourth Exchange Condition is satisfied.</p>	
	<p>Step 2: calculating the number of shares received on Exchange</p> <p>On 10 September 2029, MCN4 Holders would be entitled to receive in respect of MCN4, the Exchange Number of Ordinary Shares determined as follows:</p>	
	<p style="text-align: center;"><u>\$100</u></p>	
	<p>99% x Exchange Date VWAP</p>	
	<ul style="list-style-type: none"> Assume the Exchange Date VWAP, being the VWAP during the period from 13 August 2029 to 7 September 2029 (being the 20 ASX Trading Days immediately preceding 10 September 2029) is \$111.95. 	
	<p>The Exchange Number would be 0.9023 (being \$100 divided by (99% x \$111.95)).</p>	
	<p>Assuming an MCN4 Holder has 100 MCN4 the total number of Ordinary Shares to which they would be entitled would be 90 (i.e. 100 x 0.9023, which number is rounded down to disregard the fraction of the Ordinary Share).</p>	
	<p>Maximum Exchange Number</p>	
	<p>In this example, the Exchange Number will not be impacted by the Maximum Exchange Number:</p>	
	<p>If the Issue Date VWAP is \$121.95, the Maximum Exchange Number would be 1.6400 (being \$100 divided by (50% x \$121.95)).</p>	
	<p>As the Exchange Number (0.9023) is less than the Maximum Exchange Number (1.6400), there will be no restriction on the number of Ordinary Shares an MCN4 Holder receives.</p>

<h2>2.4. Exchange at option of MGL</h2>	<p>On any of the Scheduled Optional Exchange Dates, being 10 September 2026, 10 March 2027 and 10 September 2027, MGL may elect to Exchange MCN4 into Ordinary Shares. MGL may also elect to Exchange MCN4 into Ordinary Shares following the occurrence of a Tax Event or Regulatory Event.</p> <p>There are certain conditions and restrictions that apply to an Optional Exchange. <h3>2.4.3. What is a Regulatory Event?</h3>	<p>A Regulatory Event will, broadly, occur if as a result of a change of law or regulation, or a statement, order or directive from APRA, on or after the Issue Date, the Issuer determines that:</p> <ul style="list-style-type: none"> • any of the MCN4 are not eligible for inclusion as Eligible Capital; • additional requirements in connection with the MCN4 would be imposed on MGL or the Macquarie Group which the Issuer determines, in its absolute discretion, might have a material adverse effect on MGL; or • to have any of the MCN4 outstanding would be unlawful or impractical or that the Macquarie Group would be exposed to a more than de minimis increase in its costs in connection with those MCN4. 	<p>Clause 18.2 of the MCN4 Terms</p>

2.4.4. What are the requirements for Exchange to be elected?	<ul style="list-style-type: none"> MGL may not elect to Exchange MCN4 if an Optional Exchange Restriction applies. Further, if MGL has elected to Exchange MCN4, MGL may not proceed to Exchange if, on the Optional Exchange Date, certain further Exchange Conditions are not satisfied. The Optional Exchange Restrictions are: <ul style="list-style-type: none"> First Optional Exchange Restriction: the Daily VWAP on the second Business Day before the date on which an Optional Exchange Notice is to be sent by MGL (or, if that Business Day is not an ASX Trading Day, the last ASX Trading Day prior to that day) ("Non-Exchange Test Date") is less than or equal to 25% of the Issue Date VWAP; or Second Optional Exchange Restriction: MGL is Delisted as at the Non-Exchange Test Date. 2.4.5. Further conditions to an Optional Exchange	<ul style="list-style-type: none"> The Second Exchange Condition, Third Exchange Condition and Fourth Exchange Condition (as described in section 2.3.3) apply to an Optional Exchange as if the date on which the Optional Exchange is to occur were a Mandatory Exchange Date, except that the Second Exchange Condition is tested on the basis of the Maximum Exchange Number applicable to an Optional Exchange Date. The Maximum Exchange Number applicable to an Optional Exchange Date is calculated on the basis that the Relevant Percentage is 20%. As a result, the Maximum Exchange Number in the event of an Optional Exchange is higher than the Maximum Exchange Number applicable on a Relevant Mandatory Exchange Date. The effect of this is that the Second Exchange Condition applicable to an Optional Exchange will be met if the VWAP during the 20 ASX Trading Days immediately preceding the Optional Exchange Date is greater than 20.202% of the Issue Date VWAP. 	Clauses 5.5 and 9.1 of the MCN4 Terms

Importantly, MGL may only elect to Redeem MCN4 with APRA's prior written approval. MCN4 Holders should not expect that APRA's approval, if requested, will be given for any Redemption.</p>

2.7. Non-Viability Event Exchange	<p>MGL is required to immediately Exchange MCN4 into Ordinary Shares if a Non-Viability Event occurs. Broadly, a Non-Viability Event occurs if APRA has notified the Issuer in writing that (1) Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable or (2) APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable.</p> <p>The Exchange Conditions do not apply to an Exchange following a Non-Viability Event. The number of Ordinary Shares that MCN4 Holders will receive on an Exchange in these circumstances will not be greater than the Maximum Exchange Number applicable to a Non-Viability Exchange Date.</p> <p>As an Exchange in these circumstances would most likely occur during a time of financial difficulty for MGL, depending on the market price of Ordinary Shares at the relevant time, MCN4 Holders may receive less, or significantly less, than \$101 worth of Ordinary Shares per MCN4 and an MCN4 Holder may suffer loss as a consequence.</p> <p>If, for any reason, MCN4 that are required to be Exchanged on account of a Non-Viability Event are not Exchanged within 5 Business Days of the Non-Viability Event, they will be Written-Off. If a Write-Off occurs, the MCN4 Holder's rights under that MCN4 are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date and MCN4 Holders will suffer a total loss of their investment.</p>	
2.7.1. Why do the MCN4 Terms include a Non-Viability Event?	<ul style="list-style-type: none"> The global bank Basel III capital framework includes requirements for conversion or write-off of capital instruments if the issuer becomes non-viable. APRA has implemented this framework for Australian banks with effect from 1 January 2013. In order to gain treatment as Eligible Capital under the NOHC Authority, it is also required that MCN4 be Exchanged or Written-Off on the occurrence of a Non-Viability Event. 	
2.7.2. What is a Non-Viability Event?	<ul style="list-style-type: none"> A Non-Viability Event means APRA has notified the Issuer in writing that: <ul style="list-style-type: none"> Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable; or APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable. If a Non-Viability Event occurs which involves determination by APRA that a public sector injection of capital would be required, all MCN4 must be Exchanged. If a Non-Viability Event occurs which does not involve a determination by APRA that a public sector injection of capital would be required, MGL must immediately Exchange some or all MCN4. In determining the number of MCN4 which must be Exchanged, the following applies: <ul style="list-style-type: none"> the aggregate face value of all Relevant Securities subject to Loss Absorption must equal the amount APRA has notified the Issuer (or if APRA has not notified the Issuer of that amount, the amount determined by the Issuer) to be necessary to satisfy APRA that the Issuer will not become non-viable; Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption before other Relevant Securities are subject to Loss Absorption (unless the terms of such other Relevant Securities otherwise provide); and MCN4 and other Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption on a proportionate basis (unless the terms of any such other security provide for that security to be subject to Loss Absorption other than on a proportionate basis with MCN4 and other such securities), or such other basis as the Issuer considers fair and reasonable (subject to such adjustment as the Issuer may determine to take into account the effect on marketable parcels and whole numbers of Ordinary Shares and any MCN4 or other Relevant Securities that are Equal Ranking Obligations). 	Clauses 4 and 18.2 of the MCN4 Terms

Topic	Summary	Further information
2.7.2. What is a Non-Viability Event? (continued)	<ul style="list-style-type: none"> • Nothing in the making of the determination or the adjustments is to delay or impede the immediate Exchange of the MCN4 on the Non-Viability Exchange Date. • There is no requirement that MGL's Ordinary Shares are cancelled or Written-Off before APRA determines a Non-Viability Event, or before MCN4 are required to be Exchanged or Written-Off on account of a Non-Viability Event. • As at the date of this Prospectus, MGL has two other outstanding issue of Relevant Securities that are Equal Ranking Obligations (MCN2 and MCN3). If a Non-Viability Event were to occur and MGL is required to Exchange only some of the Relevant Securities then on issue, the proportion of MCN4 to be Exchanged (which may be all of the MCN4) may be lower if other Relevant Securities are on issue. There is no obligation on any member of the Macquarie Group to issue any Relevant Securities. There is no obligation on MGL to maintain on issue MCN2, MCN3 or any other Relevant Securities that it has issued or may decide to issue in the future. • If some (but not all) MCN4 are to be Exchanged on account of a Non-Viability Event: <ul style="list-style-type: none"> • MGL will endeavour to treat MCN4 Holders on an approximately proportionate basis, but may discriminate to take account of the effect on marketable parcels of MCN4 and other similar considerations and the need to effect Exchange immediately; and • where Relevant Securities that are Equal Ranking Obligations are not all in the same currency, MGL may treat them as if converted into a single currency of MGL's choice at the rate of exchange that is specified in the terms of such securities or at such other rate as MGL in good faith considers reasonable. 	Clauses 4 and 18.2 of the MCN4 Terms
2.7.3 What does non-viable mean?	<ul style="list-style-type: none"> • APRA has not provided guidance as to how it would determine non-viability. • Non-viability could be expected to include serious impairment of MGL's financial position and insolvency. However, it is possible that APRA's definition of non-viable may not necessarily be confined to solvency measures or capital levels and may also include other matters such as liquidity. • APRA has indicated that at this time it will not publish guidance on the parameters used to determine non-viability. 	
2.7.4. How many Ordinary Shares will MCN4 Holders receive on the Non-Viability Exchange Date?	<ul style="list-style-type: none"> • The number of Ordinary Shares an MCN4 Holder will receive per MCN4 on account of an Exchange following a Non-Viability Event is the Exchange Number (calculated as described below) but cannot be more than the Maximum Exchange Number applicable to a Non-Viability Exchange Date. • The Exchange Number on account of a Non-Viability Event Exchange is calculated in the same manner as for a Relevant Mandatory Exchange Date (see section 2.3.4). However, the Exchange Date VWAP in this case is the volume weighted average price of Ordinary Shares during the period of 5 ASX Trading Days immediately preceding the Non-Viability Exchange Date. • The Maximum Exchange Number applicable to a Non-Viability Exchange Date is calculated on the basis that the Relevant Percentage is 20%. As a result, the Maximum Exchange Number on account of a Non-Viability Event Exchange is higher than the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date. • Since Exchange Conditions do not apply to a Non-Viability Event, the Exchange Number of Ordinary Shares may be limited to the Maximum Exchange Number applicable to a Non-Viability Exchange Date. Accordingly, the Ordinary Shares an MCN4 Holder may receive in these circumstances may be worth significantly less than the Issue Price of MCN4 and an MCN4 Holder may suffer a loss as a consequence. 	Clause 9.1 of the MCN4 Terms

Topic	Summary	Further information
2.7.5. Are there any conditions to Exchange if a Non-Viability Event occurs?	<ul style="list-style-type: none"> • If a Non-Viability Event occurs, MGL must immediately Exchange some or all MCN4 into Ordinary Shares. • Exchange on the occurrence of a Non-Viability Event is not subject to the Exchange Conditions being satisfied and is required to occur immediately on the date the Non-Viability Event occurs. • MGL expects any ASX trades in MCN4 that have not been settled on the date a Non-Viability Event occurs will continue to settle in accordance with the normal ASX settlement, although MGL expects the seller will be treated as having delivered, and the buyer will be treated as having acquired, the Exchange Number of Ordinary Shares into which MCN4 have been Exchanged as a result of the Non-Viability Event. • MGL must give MCN4 Holders notice as soon as practicable that a Non-Viability Event has occurred, including details of the number of MCN4 Exchanged. 	Clauses 4.2, 4.5, 4.6 and 4.7 of the MCN4 Terms
2.7.6. What happens if MCN4 are not Exchanged following a Non-Viability Event?	<ul style="list-style-type: none"> • If, following a Non-Viability Event, for any reason (including, without limitation, an Inability Event), Exchange of MCN4 as required on account of a Non-Viability Event does not occur within 5 Business Days of the Non-Viability Exchange Date, then Exchange will not occur and each relevant MCN4 will be Written-Off. • An Inability Event will arise if MGL or any of its Related Bodies Corporate is prevented, for any reason, from observing or performing their obligations in respect of an Exchange (including in connection with the issue of Ordinary Shares). For example, an Inability Event will arise, if MGL were prevented by an applicable law or order of any court, or action of any government authority, from issuing Ordinary Shares. As at the date of this Prospectus, such laws could include Shareholding Laws (broadly, laws that relate to financial sector shareholdings, foreign acquisitions and takeovers and company takeovers). Other such laws may in future be specified by regulations made under the Banking Act. • However, Write-Off will also occur if the Exchange has not occurred for reasons other than an Inability Event. • If an MCN4 is Written-Off, the MCN4 Holder's rights under that MCN4 are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date, and MCN4 Holders will suffer a total loss of their investment. 	Clauses 4.5, 9.17 and 18.2 of the MCN4

2.8. Exchange on an Acquisition Event

MGL is required to Exchange MCN4 into Ordinary Shares where a person acquires control of MGL (except in certain circumstances).

There are conditions to Exchange on an Acquisition Event which ensure that an MCN4 Holder will receive approximately \$101 worth of Ordinary Shares for each MCN4 they hold and the Ordinary Shares received are capable of being sold on ASX. However, these conditions do not apply if the Directors determine that the Exchange is in any event in the best interests of MCN4 Holders as a whole.

2.8.1. What is an Acquisition Event?	<ul style="list-style-type: none"> • An Acquisition Event broadly means either: <ul style="list-style-type: none"> • a takeover bid is made to acquire all or some Ordinary Shares and the offer is, or becomes, unconditional and as a result the bidder has a relevant interest in more than 50% of the Ordinary Shares on issue; • a court approves a scheme of arrangement which, when implemented will result in a person having a relevant interest in more than 50% of the Ordinary Shares on issue; or • a person acquires, or enters into an agreement (which is or becomes unconditional) to beneficially acquire more than 50% of the voting shares in the capital of MGL. • However, an Acquisition Event will not occur where that event occurs as part of a solvent reorganisation of MGL which, is initiated by the Directors or, in the reasonable opinion of the Directors, is not materially adverse to the interests of MCN4 Holders as a whole, and the acquiring entity assumes corresponding obligations to issue ordinary shares to MCN4 Holders where MGL would be required to issue Ordinary Shares. Such an entity is referred to as an Approved Acquirer. 	Clause 18.2 of the MCN4 Terms

2.8.2 What are the consequences of an Acquisition Event for MCN4 Holders?	<ul style="list-style-type: none"> • If an Acquisition Event occurs, all MCN4 will be Exchanged for the Exchange Number of Ordinary Shares (subject to the Exchange Number being no greater than the Maximum Exchange Number applicable to an Acquisition Exchange Date) unless the Directors determine that: <ul style="list-style-type: none"> • as at the Acquisition Exchange Date, MGL will be, or is likely to be, Delisted; or • the Exchange Number of Ordinary Shares to be issued in exchange for an MCN4 would exceed the Maximum Exchange Number applicable to that Acquisition Exchange Date (except in limited circumstances). • The Maximum Exchange Number applicable to an Acquisition Exchange Date is calculated on the basis that the Relevant Percentage is 20%. As a result, the Maximum Exchange Number in the event of an Exchange on an Acquisition Event is higher than the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date. The effect of this is that the second of the Exchange Conditions referred to in the paragraph above will be met if the VWAP during the 20 ASX Trading Days immediately preceding the Acquisition Exchange Date is greater than 20.202% of the Issue Date VWAP. • If either of the conditions in the first paragraph above applies, Exchange will still occur if the Directors determine that the Exchange would be in the best interests of the MCN4 Holders as a whole, notwithstanding that MGL will be, or is likely to be, Delisted or the number of Ordinary Shares is limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date. In this situation MCN4 Holders would receive less than \$101 worth of Ordinary Shares and/or may be unable to trade the Ordinary Shares received. 	Clauses 6.1 and 9.1 of the MCN4 Terms
2.8.3. How many Ordinary Shares will MCN4 Holders receive on the Acquisition Exchange Date?	<p>In the ordinary course, Exchange of MCN4 following an Acquisition Event will be for approximately \$101 worth of Ordinary Shares per MCN4, based on the VWAP calculated over a period of up to 20 ASX Trading Days immediately preceding the Acquisition Exchange Date (calculated in the same manner as for a Relevant Mandatory Exchange Date as described in section 2.3.4 with the Acquisition Exchange Date substituted for the Relevant Mandatory Exchange Date).</p> <p>The VWAP during this period may differ from the Ordinary Share price on or after the Acquisition Exchange Date. This means that the value of Ordinary Shares received may be more or less than approximately \$101 when they are issued or at any time after that.</p> <p>If MGL will be, or will be likely to be, Delisted on the Acquisition Exchange Date, Exchange will only occur if the Directors determine that it would be in the best interests of the MCN4 Holders, taken as a whole. This means that upon Exchange, MCN4 Holders may be issued with the Exchange Number (subject to the Maximum Exchange Number applicable to an Acquisition Exchange Date) of Ordinary Shares, based on the VWAP for a VWAP Period when MGL was listed. At the time of Exchange, the value of Ordinary Shares may be uncertain and MCN4 Holders may be unable to trade those Ordinary Shares.</p> <p>If the Exchange Number (calculated as if it were not limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date) is greater than the Maximum Exchange Number applicable to an Acquisition Exchange Date then Exchange will not occur unless the Directors determine that the Exchange would be in the best interests of the MCN4 Holders taken as a whole. If, in this situation, Exchange proceeds, MCN4 Holders will receive the Maximum Exchange Number applicable to an Acquisition Exchange Date of Ordinary Shares. The Maximum Exchange Number of Ordinary Shares may be worth significantly less than \$101 and an MCN4 Holder may suffer a loss as a consequence.</p>	Clauses 6.1 and 9.1 of the MCN4 Terms
2.8.4 If Exchange does not occur following an Acquisition Event, will MCN4 Holders continue to hold MCN4?	Where Exchange does not occur following an Acquisition Event, MCN4 Holders will continue to hold MCN4 in accordance with the MCN4 Terms.	Clause 9.13 of the MCN4 Terms

2.9. Regulatory treatment of MCN4		
2.9.1. What are MGL's prudential capital requirements?	MGL is an authorised non-operating holding company (" NOHC "), regulated by APRA. MGL is required by APRA to hold sufficient capital to meet the requirements of the Bank Group (based on APRA's ADI prudential standards) and the Non-Bank Group (calculated using the Macquarie Group's Economic Capital Adequacy Model (" ECAM ")).	Section 3.7.3
2.9.2. Who is the Australian Prudential Regulation Authority (APRA)?	<ul style="list-style-type: none"> • APRA is the prudential regulator of the Australian financial services industry. APRA oversees banks, credit unions, building societies, general insurance and reinsurance companies, life insurance companies, friendly societies and most members of the superannuation industry. • APRA's website at www.apra.gov.au includes further details of its functions and prudential standards. 	
2.9.3. What is Regulatory capital?	<ul style="list-style-type: none"> • APRA's regulatory capital prudential standards aim to ensure that banks and financial groups, like MGL, maintain adequate capital to support the risks associated with their activities and can withstand unexpected losses. • APRA has detailed guidance and restrictions on the types of capital instruments that are permitted to be included in a bank or financial conglomerate's regulatory capital base. Under Macquarie's NOHC authorisation, this capital is referred to as "Eligible Capital". • APRA has published draft capital-related prudential standards applicable to conglomerate groups that include APRA regulated entities but has deferred their implementation until a number of domestic and international policy initiatives are further progressed. 	
2.9.4. What is the regulatory treatment of MCN4?	<ul style="list-style-type: none"> • APRA has assessed that MCN4 will be Eligible Capital under Macquarie's NOHC Authority. • If APRA's treatment of the MCN4 changes, a Regulatory Event may occur. See further section 2.4.3 on "Regulatory Event". 	
2.10. Ranking of MCN4		
2.10.1. How will MCN4 rank in a Winding Up of MGL?	<ul style="list-style-type: none"> • If a Winding Up occurs in relation to MGL, MCN4 will rank ahead of Ordinary Shares, equally with Equal Ranking Obligations (which currently includes obligations in respect of MCN2 and MCN3), but behind all Senior Creditors. • Any return in a Winding Up of MGL may be adversely affected if a Non-Viability Event occurs (see section 2.7). If this happens some or all MCN4 will be required to be Exchanged, or, if Exchange has not occurred within 5 Business Days, Written-Off. If an MCN4 is Exchanged, the MCN4 Holder would become a holder of Ordinary Shares and those shares may be worth significantly less than the Issue Price of the MCN4. If an MCN4 is Written-Off the MCN4 Holder will suffer a total loss of their investment in MCN4. In this case as Ordinary Shares will still be on issue, an MCN4 Holder is likely to be worse off than a holder of Ordinary Shares. 	Clauses 1.5 and 16.1 of the MCN4 Terms and section 2.7

2.11.1. Can Ordinary Shares on Exchange be issued to a Sale Agent?	<ul style="list-style-type: none"> • In certain limited circumstances, Ordinary Shares may be issued to a Sale Agent instead of the relevant MCN4 Holder on Exchange. Clauses 9.14 and 9.15 of the MCN4 Terms and section 4.1.17
2.11.2. Is set-off applicable?	An MCN4 Holder has no right to set-off any amounts owing by it to a member of the Macquarie Group against any claims owing by MGL or another member of the Macquarie Group to such MCN4 Holder. Equally, MGL has no right to set-off any amounts owing by it to an MCN4 Holder in respect of the MCN4 against any claims owing by the MCN4 Holder to it or any member of the Macquarie Group.	Clause 11.5 of the MCN4 Terms

2.11.7. What is the power of attorney? About MGL and the
Macquarie Group

3.1. Introduction

MGL is listed in Australia and is regulated by APRA, the Australian banking regulator, as a non-operating holding company of MBL, an ADI. The Macquarie Group's activities are also subject to supervision by various other regulatory agencies around the world.

The Macquarie Group's breadth of expertise covers asset management and finance, banking, advisory and risk and capital solutions across debt, equity and commodities. The diversity of its operations, combined with a strong capital position and robust risk management framework, has contributed to Macquarie's 49-year record of unbroken profitability.

The Macquarie Group acts primarily as an investment intermediary for institutional, corporate, government and retail clients and counterparties around the world, generating income by providing a diversified range of products and services to its clients. It has established leading market positions as a global specialist in a wide range of sectors, including resources and commodities, green energy, conventional energy, financial institutions, infrastructure and real estate and has a deep knowledge of Asia-Pacific financial markets.

Macquarie's client focused business features alignment of interests, demonstrated by the willingness to both invest alongside clients and closely align the interests of its shareholders and staff.

As at 30 September 2018, the Macquarie Group employed over 14,800 staff globally and had total assets of \$205.6 billion and total equity of \$17.2 billion. It is therefore subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules. These include preparation of yearly and half-yearly financial statements, a report on the operations of the Macquarie Group during the relevant period and an audit or review report by its auditor. Copies of documents lodged with ASIC may be obtained from or inspected at any ASIC office.

3.3. Organisational structure

The Macquarie Group's business operations are conducted through two groups, within which individual businesses operate: the Bank Group and the Non-Bank Group.

The Bank Group includes MBL and has three operating groups:

- the Asset Finance division of Corporate & Asset Finance;
- Banking & Financial Services; and
- Commodities & Global Markets (excluding certain assets of the Credit Markets business, certain activities of the Cash Equities business and some other less financially significant activities).

1. Operating income is classified as "international" with reference to the geographic location from which the operating income is reported from a management perspective. This may not be the same geographic location where the operating income is recognised for reporting purposes. For example, operating income generated by work performed for clients based overseas but recognised in Australia for reporting purposes could be classified as "international" income. Income earned in the Corporate segment is excluded from the analysis of international income.

3. About MGL and the Macquarie Group

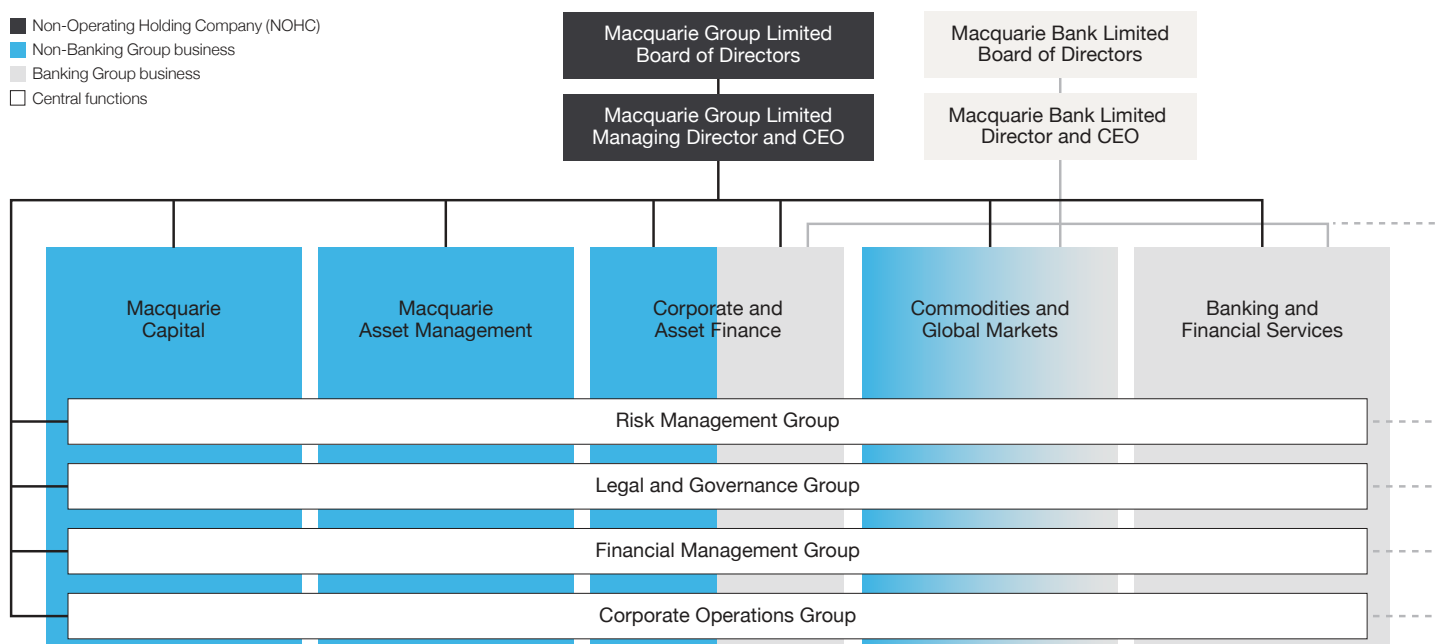

The Non-Bank Group consists of:

- Macquarie Asset Management;
- the Principal Finance division of Corporate & Asset Finance;
- certain assets of the Credit Markets business, certain activities of the Cash Equities business and some other less financially significant activities of Commodities & Global Markets; and
- Macquarie Capital.

It is intended that certain fiduciary businesses, such as the infrastructure debt business will move from Corporate & Asset Finance in the Bank Group to Macquarie Asset Management in the Non-Bank Group on receipt of the required approvals.

Shared services are provided to both the Bank Group and the Non-Bank Group through the Corporate segment. The Corporate segment is not considered an operating group and currently comprises four central functions: Risk Management, Legal and Governance, Financial Management and Corporate Operations. Shared services include: Risk Management, Finance, Information Technology, Group Treasury, Settlements, Equity Markets Operations, Human Resources, Business Services, Company Secretarial, Corporate Governance, Corporate Communications and Investor Relations, Taxation, Business Improvement and Strategy, Central Executive, Other Group-wide Services, Business Shared Services, and other services as may be agreed from time to time.

MBL and MGL have corporate governance and policy frameworks that meet APRA's requirements for ADIs and NOHCs, respectively. The Bank Group and the Non-Bank Group operate as separate sub-groups within MGL with clearly identifiable businesses, separate capital requirements and discrete funding programs. Although the Bank Group and the Non-Bank Group operate as separate sub-groups, both are integral to the Macquarie Group's identity and strategy as they assist the Macquarie Group in continuing to pursue value adding and diversified business opportunities while meeting its obligations under APRA rules. The following diagram shows the Macquarie Group's current organisational structure and reflects the composition of the Bank and Non-Bank Groups.

Structure as at 10 December 2018. Members of the MGL Board are listed at Section 3.5. The MBL Board comprises the members of the MGL Board and the Managing Director and Chief Executive Officer of MBL, Mary Reemst.

MGL monitors and reviews on an ongoing basis the appropriateness of the Macquarie Group's structure, including the provision of shared services. From time to time, the optimal allocation of businesses between the Bank Group and the Non-Bank Group and within the Bank Group and the Non-Bank Group may be adjusted and we may make changes in light of relevant factors including business growth, regulatory considerations, market developments and counterparty considerations.

3.4. Business strategies

Consistent with the Macquarie Group's **What We Stand For** principles, Macquarie Group's business strategy is focused on the medium-term with the following key aspects:

- **Risk Management Approach.** Adopting a conservative approach to risk management. Macquarie's robust risk management framework is embedded across all Operating and Central Service Groups. This equips the business for unanticipated disruptions with the objective of ensuring that both the relevant business and Macquarie can survive a worst case outcome from any existing or new activity.
- **Strong Balance Sheet.** Maintaining a strong and conservative balance sheet. This is consistent with Macquarie's longstanding policy of holding a level of capital which supports its business and managing its capital base ahead of ordinary business requirements. Macquarie remains well funded, with diversified funding sources. It continues to pursue the strategy of diversifying funding sources by growing its deposit base and accessing different funding markets.
- **Business mix.** Conducting a mix of annuity-style and capital markets facing businesses that deliver solid returns in a range of market conditions. Macquarie has dynamically developed its annuity-style businesses, providing steady returns to the business and Macquarie's shareholders, and stability to clients.
- **Diversification.** Operating a diversified set of businesses across different locations and service offerings: asset management and finance, banking, advisory and risk and capital solutions across debt, equity and commodities. Macquarie offers a range of services to government, institutional, corporate and retail clients. This diversity mitigates concentration risk and provides resilience to Macquarie.
- **Proven Expertise.** Utilising proven deep expertise has allowed Macquarie to establish leading market positions as a global specialist in sectors including renewables, infrastructure, resources and commodities, energy, financial institutions and real estate. This is coupled with a deep knowledge of Asia-Pacific financial markets.
- **Adjacencies.** Expanding progressively by pursuing adjacencies through organic opportunities and selective acquisitions. These include products and geographies adjacent to Macquarie's established areas of expertise. This results in sustainable evolutionary growth.
- **Pursuit of Growth Opportunities.** Targeting continued evolution and growth through innovation. Macquarie starts with knowledge and skill, and encourages ingenuity and entrepreneurial spirit coupled with accountability. Ideas for new businesses are typically generated in the Operating Groups. Additionally, there are no specific businesses, markets or regions in which Macquarie's strategy dictates that it operates. This means it retains operational flexibility and can adapt the portfolio mix to changing market conditions within the boundaries of the Risk Appetite Statement (RAS) approved by the Board.

3. About MGL and the Macquarie Group

3.7.3. Capital position

As an APRA authorised and regulated NOHC, MGL is required to hold adequate regulatory capital to cover the risks for the whole Macquarie Group, comprising the Bank Group and the Non-Bank Group. MGL and APRA have agreed a capital adequacy framework for MGL, based on the MGL's Board-approved ECAM and APRA's capital standards for ADIs.

MGL's capital adequacy framework requires it to maintain minimum regulatory capital requirements calculated as the sum of:

- the Bank Group's minimum Tier 1 Capital requirement, based on a percentage of risk-weighted assets plus Tier 1 deductions (using prevailing APRA ADI prudential standards); and
- the Non-Bank Group's capital requirement, calculated using Macquarie Group's ECAM. Transactions internal to the Macquarie Group are eliminated.

Eligible regulatory capital of MGL consists of ordinary share capital, retained earnings, certain reserves and eligible hybrid instruments. Eligible hybrid instruments currently include MCN2 issued in 2015, MCN3 issued in 2018 as well as Additional Tier 1 Capital of the Bank Group. MCN4 will qualify for inclusion as Eligible Capital.

APRA may require minimum capital levels above the published regulatory minimums and such requirements may increase in the future due to regulatory changes such as APRA's "unquestionably strong" proposal. Macquarie maintains a capital buffer in excess of the current regulatory minimums to meet the expectations of APRA, rating agencies and capital markets. As a result, the capital available for investment is lower than the surplus above the regulatory minimum shown.

Capital disclosures in this section include Harmonised Basel III² and APRA Basel III³. The former is relevant for comparison with banks regulated by regulators other than APRA, whereas the latter reflects Macquarie's regulatory requirements under APRA Basel III rules.

The Macquarie Group regulatory capital surplus calculation as at 30 September 2018 is set out in the table below.

	As at 30 September 2018	
	Harmonised Basel III A\$m	APRA Basel III A\$m
Macquarie Group eligible capital:		
Bank Group Gross Tier 1 capital	14,298	14,298
Non-Bank Group eligible capital	5,524	5,524
Eligible capital	19,822	19,822
Macquarie Group capital requirement:		
Bank Group capital requirement		
Risk-Weighted Assets (RWA) ¹	91,927	95,818
Capital required to cover RWA at 7% ^{2,4}	6,435	6,707
Tier 1 deductions	679	2,665
Total Bank Group capital requirement	7,114	9,372
Total Non-Bank Group capital requirement	5,583	5,583
Total capital requirement	12,697	14,955
Macquarie Group regulatory capital surplus (at 7% ^{2,4} of Bank Group RWA)	7,125	4,867
Additional capital requirement required to maintain 8.5% ^{3,4} of Tier 1 ratio in Bank Group	1,379	1,438
Macquarie Group regulatory capital surplus (at 8.5% ^{3,4} of Bank Group RWA)	5,746	3,429

1. In calculating the Bank Group's contribution to Macquarie's capital requirement, RWA associated with exposures to the Non-Bank Group are eliminated (30 September 2018: \$A182 million).

2. Calculated at the internal minimum Tier 1 ratio of the Bank Group, which is 7%.

3. Calculated at 8.5% of the Bank Group's RWAs. The 8.5% represents the Basel III minimum Tier 1 ratio of 6% plus 2.5% of capital conservation buffer (CCB). The 2.5% CCB is required by APRA from January 2016 and by BIS from January 2019.

4. Based on materiality, the countercyclical capital buffer (CCyB) of ~6bps has not been included. The individual CCyB varies by jurisdiction and Macquarie's CCyB is calculated as the weighted average of Macquarie's Bank Group exposures in different jurisdictions. In June 2018 the CCyB in the United Kingdom increased from 0.0% to 0.5% increasing Macquarie's CCyB to ~6bps.

2. Harmonised Basel III relates to the Basel III rules defined by the Basel Committee on Banking Supervision, documented in the following: "Basel III: a global regulatory framework for more resilient banks and banking systems", published December 2010 (revised June 2011) by the Bank for International Settlements (BIS).

3. APRA Basel III relates to the Prudential Standards released by APRA applying as at the date of this Prospectus.

Investment Risks

This section describes the risks associated with an investment in MCN4 and/or the Macquarie Group.

4. Investment risks

MGL believes that the following investment considerations may affect the investment returns under MCN4 issued under the Offer. These investment considerations are not intended to be exhaustive and are contingencies which may or may not occur and MGL is not in a position to express a view on the likelihood of any such contingency occurring.

Investment considerations which MGL believes may be material for the purpose of assessing the risks associated with an investment in MCN4 and the market for MCN4 generally are also described below.

MGL believes that the investment considerations described below represent the key risks inherent in investing in MCN4 issued under the Offer, but MGL may be unable to pay interest, principal or other amounts on or in connection with any MCN4, and MCN4 may not be able to be Exchanged, Redeemed or Resold for other reasons which may not be considered significant risks by MGL based on information currently available to it or which it may not currently be able to anticipate.

Before applying for MCN4, you should also read the detailed information set out elsewhere in this Prospectus and seek professional guidance from your financial adviser or other independent and qualified professional adviser as to the risks and investment considerations arising from an investment in MCN4, the appropriate tools to analyse such an investment, and the suitability of such an investment in the context of your particular circumstances.

MGL is not an ADI for the purposes of the Banking Act, and the obligations of MGL do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of MGL.

4.1. Risks associated with investing in MCN4

4.1.1. Investments in MCN4 are an investment in MGL

Investments in MCN4 are an investment in MGL and may be affected by the ongoing performance, financial position and solvency of MGL and the Macquarie Group. MCN4 are not deposit liabilities and are not protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act. MCN4 are not guaranteed by any government, government agency or compensation scheme of Australia or by any other person or any other jurisdiction.

4.1.2. Suitability

MCN4 are a complex investment and may be difficult to understand, even for experienced investors. You should ensure that you understand the MCN4 Terms and risks of investing in MCN4 and consider whether it is an appropriate investment for your particular circumstances.

4.1.3. Market price and liquidity of MCN4

MCN4 may trade at a market price below their Issue Price. The market price of MCN4 may fluctuate due to various factors, including poor financial performance by MGL and the Macquarie

Group, a change in Macquarie Group's financial position, investor perceptions, worldwide economic conditions, interest rates, movements in the market price of Ordinary Shares, foreign exchange rates, debt market conditions, the availability of better rates of return on other securities or investments and other factors that may affect the Macquarie Group's financial performance and position.

The market price of MCN4 may be affected by changes in laws relating to the taxation treatment of MCN4, including franking. The Australian Labor Party has announced a proposal that certain individuals and superannuation funds will no longer be entitled to receive a refund of franking credits received to the extent that they exceed their tax payable. The proposal would apply from 1 July 2019. The proposal and the final form this takes remain contingent on the Australian Labor Party being elected into government and the proposal being enacted into law. If the proposal is implemented MCN4 Holders will not be entitled to any adjustment to the amount of any Distributions. The implementation of the proposal will also not give rise to a Tax Event and accordingly will not trigger an entitlement for MGL to Exchange, Resell or Redeem MCN4. Implementation of the proposed changes may adversely affect the returns you receive on your MCN4 and the market price and/or liquidity of MCN4 may also be adversely impacted.

Where MCN4 are to be Exchanged, Redeemed or Resold for any reason, the announcement of these events may have a significant impact on the market price and/or liquidity of MCN4 and the Ordinary Shares.

Financial markets can be volatile, with the potential for significant fluctuations in the price of securities over a short period. This applies to the market price of both MCN4 and Ordinary Shares. You should carefully consider this risk before deciding to invest in MCN4.

Although MCN4 are to be quoted on ASX, there is no guarantee that a liquid market will develop for them. The market for MCN4 may be less liquid than the market for Ordinary Shares or other comparable securities. As a consequence, MCN4 Holders who wish to sell their MCN4 may be unable to do so at an acceptable price, or at all, if insufficient liquidity exists in the market for MCN4.

In addition, there is no guarantee that MCN4 will remain continuously quoted on ASX. Trading of ASX listed securities may be suspended in certain circumstances.

4.1.4. Market Price and liquidity of Ordinary Shares

Any Ordinary Shares issued on Exchange will rank equally with existing and future Ordinary Shares. Accordingly, the ongoing value of the Ordinary Shares received will depend on the market price of Ordinary Shares after an Exchange.

Upon Exchange, MCN4 Holders will generally receive approximately \$101 worth of Ordinary Shares per MCN4, based on the VWAP (which is calculated by reference to the daily volume weighted average sale price of Ordinary Shares) over a period of ASX Trading Days immediately preceding the Exchange Date. At the time they are issued, the market price of the Ordinary Shares will likely vary from that used to determine the Exchange Number and consequently the value of Ordinary Shares received

will be more or less than \$101. The number of Ordinary Shares to be received by an MCN4 Holder in respect of its aggregate holding of MCN4 will be rounded down to a whole number (with entitlements of the MCN4 Holder to a part only of an Ordinary Share disregarded).

Additionally, the market price of Ordinary Shares is used to determine whether Exchange can occur in various conditions through the Exchange Conditions and Optional Exchange Restrictions. Therefore, fluctuations in the market price of Ordinary Shares can impact the timing of Exchange occurring (and may mean that Exchange never occurs).

The market price of Ordinary Shares may fluctuate due to various factors, including poor financial performance by MGL and the Macquarie Group, a change in Macquarie Group's financial position, investor perceptions, worldwide economic conditions, interest rates, foreign exchange rates, debt market conditions, the availability of better rates of return on other securities or investments and other factors that may affect the Macquarie Group's financial performance and position.

Where MCN4 are Exchanged for Ordinary Shares, there may be no liquid market for Ordinary Shares at the time of Exchange, or the market may be less liquid than that for comparable securities issued by other entities at the time of Exchange. As a consequence, MCN4 Holders who wish to sell the Ordinary Shares they may receive may be unable to do so at an acceptable price, or at all, if the market for Ordinary Shares is illiquid.

In addition, there is no guarantee that Ordinary Shares will remain continuously quoted on ASX. Trading of ASX listed securities may be suspended in certain circumstances.

4.1.5. Distributions may not be paid

There is a risk that Distributions may not be paid. The MCN4 Terms do not oblige MGL to pay Distributions, which are only payable at MGL's discretion.

If:

- MGL, in its absolute discretion, determines that the Distribution is not payable to Holders;
- the payment of a Distribution would result in MGL breaching APRA's capital adequacy requirements applicable to it;
- the payment of a Distribution would result in MGL becoming, or being likely to become, insolvent for the purposes of the Corporations Act; or
- APRA otherwise objects to the payment of a Distribution,

then that Distribution will not be paid. Changes in laws and regulations applicable to MGL may impose additional requirements which prevent MGL from paying a Distribution in additional circumstances.

Under the terms of other securities issued by MGL and MBL, MGL may be restricted from paying Distributions if distributions on those other securities are not paid. Reduced capital adequacy levels in MBL or MGL could also restrict MGL's ability to pay Distributions.

Distributions are non-cumulative (that is, if not paid, they do not accrue), so if a Distribution is not paid for any reason, MCN4 Holders will have no right to receive that Distribution in the future. MCN4 Holders have no remedy for any non-payment. However, if a Distribution is not paid when scheduled for any reason and unless MGL subsequently pays the relevant Distribution in full within 10 Business Days of the applicable Distribution Payment Date, a Dividend Restriction will apply to MGL. This Dividend Restriction means that MGL must not, subject to certain exceptions, without the approval of a Special Resolution of MCN4 Holders determine, declare or pay a dividend on any Ordinary Shares, or undertake any Buy-Back or Capital Reduction, until and including the next Distribution Payment Date.

4.1.6. Changes in Distribution Rate

The Distribution Rate is calculated as the sum of the Reference Rate and the Margin (reduced where franking credits are attached) and is calculated for each Distribution Period. The Reference Rate will fluctuate (both increase and decrease) over time and is influenced by a number of factors. The chart in section 2.1.5 shows historical movements in the Reference Rate.

As the Reference Rate varies, there is a risk that the Distribution Rate payable will become less attractive when compared to the rates of return available on comparable securities issued by the Macquarie Group or other entities or other investments.

MGL does not guarantee any particular rate of return on MCN4.

4.1.7. Distributions may or may not be franked

MGL currently franks dividends on Ordinary Shares at 45% and Distributions are expected to be franked at the same rate as Ordinary Shares. However, there is no guarantee that this level of franking will continue to apply for the life of MCN4 and it is possible that at some time in the future Distributions on MCN4 may not be franked, or may be partially franked to a different level, or fully franked.

MGL's ability to frank Distributions on MCN4 is affected by the level of available franking credits and MGL's distributable profits. MGL's level of franking credits may be affected by a wide range of factors, including its business performance, the jurisdictions in which Macquarie Group makes profits and pays tax, the applicable Australian corporate tax rate and the amount of other frankable distributions. MGL's distributable profits may also be impacted by a wide range of factors, including its level of earnings and other distributions it makes.

If any Distribution is franked, the cash amount of that Distribution will be reduced. The payment of any franked Distribution is subject to the Payment Conditions.

4.1.8. Use of franking credits by MCN4 Holders

The value and availability of franking credits to an MCN4 Holder will differ depending on that MCN4 Holder's particular tax circumstances. MCN4 Holders should be aware that the potential value of any franking credits does not accrue at the same time as the receipt of any cash Distribution, and the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund of tax after the end of the income year will depend upon the tax position of the individual MCN4 Holder.

4. Investment risks

The Australian Labor Party has announced a proposal that certain individuals and superannuation funds will no longer be entitled to receive a refund of franking credits received to the extent that they exceed their tax payable. The proposal would apply from 1 July 2019. The proposal and the final form this takes remain contingent on the Australian Labor Party being elected into government and the proposal being enacted into law. If the proposal is implemented MCN4 Holders will not be entitled to any adjustment to the amount of any Distributions. The implementation of the proposal will also not give rise to a Tax Event and accordingly will not trigger an entitlement for MGL to Exchange, Resell or Redeem MCN4. Implementation of the proposed changes may adversely affect the returns you receive on your MCN4 and the market price and/or liquidity of MCN4 may also be adversely impacted. Investors should refer to the taxation summary in section 5 and seek professional advice in relation to their tax position.

4.1.9. Dividend Restriction applies in limited circumstances

If a Distribution is not paid on MCN4, the Dividend Restriction will apply to limit MGL's ability to pay dividends on, buyback, and reduce capital in respect of Ordinary Shares, subject to certain exceptions. Unlike some hybrid securities issued by Macquarie Group entities in the past the Dividend Restriction applying under MCN4 does not apply to restrict distributions on any securities other than Ordinary Shares. In particular, it does not restrict MGL from making distributions on, or buying-back or returning capital on its equal ranking securities. In addition, the Dividend Restriction applies only until the next quarterly Distribution Payment Date. If Distributions are recommenced on MCN4, the Dividend Restriction will be lifted. When compared to the dividend restriction under some other hybrid securities, the consequences for MGL if a Distribution is not paid are less significant than would be the case for an issuer under those other securities.

4.1.10. Risks upon Exchange for Ordinary Shares

Ordinary Shares are a different type of investment from MCN4. For example, dividends on Ordinary Shares are not determined by a formula. Ordinary Shares rank behind the claims of all other securities and debts of MGL in a Winding Up of MGL. Ordinary Shares trade in a manner that is likely to be more volatile than that of MCN4 and the market price is expected to be more sensitive to changes in the performance, prospects and business of the Macquarie Group.

Other events and conditions may affect the ability of MCN4 Holders to trade or dispose of Ordinary Shares issued on Exchange. For example, the willingness or ability of ASX to accept the Ordinary Shares issued on Exchange for quotation or any practical issues which affect that quotation, any disruption to the market for the Ordinary Shares or to capital markets generally, the availability of purchasers for Ordinary Shares and any costs or practicalities associated with trading or disposing of Ordinary Shares at that time.

4.1.11. MCN4 are perpetual and Exchange, Redemption or Resale may not occur

If not Redeemed, Exchanged, Resold or Written-Off beforehand, MCN4 are scheduled to be Exchanged for Ordinary Shares on 10 September 2029, subject to the Exchange Conditions being satisfied. However, there is a risk that the Exchange Conditions will not be satisfied. For example, if there is a large fall in the Ordinary Share price when compared to the Issue Date VWAP, the First Exchange Condition may not be satisfied. The Issue Date VWAP may only be adjusted for divisions, consolidations or reclassifications of MGL's share capital and bonus issues of Ordinary Shares. There are no adjustments for other capital transactions undertaken by MGL (e.g. pro rata issues, share placements) which might reduce the Ordinary Share price. The MCN4 Terms do not limit the ability of MGL to undertake such capital transactions or any similar action that may adversely affect the position of MCN4 Holders.

If Exchange does not occur on the Scheduled Mandatory Exchange Date, Exchange will then occur on the next quarterly Distribution Payment Date where the Exchange Conditions are all satisfied. There is no guarantee the Exchange Conditions will ever be satisfied and the Exchange may never occur. In this case Distributions will continue to be paid on MCN4, subject to MGL's discretion to pay Distributions and the other Payment Conditions. However, where an Exchange has not occurred, the market price and liquidity of MCN4 may be affected and MCN4 Holders who wish to sell their MCN4 may not be able to do so at an acceptable price, or at all. As such, MCN4 are a perpetual instrument and MCN4 Holders may never receive any return of their investment, either as cash or Ordinary Shares.

4.1.12. Exchange, Redemption or Resale at the option of MGL

MGL may elect to Exchange, Redeem or arrange a Resale on a Scheduled Optional Exchange Date, or the occurrence of a Tax Event or Regulatory Event. Whether any action takes place or which action is taken at these times is entirely at the option of MGL (subject to various restrictions and conditions). These choices (and consequently whether MCN4 Holders receive cash or Ordinary Shares) may be disadvantageous to MCN4 Holders and may not coincide with their individual preference or intended investment outcomes. MCN4 Holders have no right to request any of Exchange, Redemption or Resale at any time. Whilst, as at the date of this Prospectus, no Regulatory Events or Tax Events are expected by MGL, these events are beyond the control of MGL and could occur at any future time. Any Exchange, Redemption or Resale at the option of MGL is subject to various restrictions and conditions, including, in the case of Redemption, that the MCN4 to be Redeemed are replaced with securities forming part of Eligible Capital of the same or better quality from APRA's perspective, under conditions that are sustainable for MGL's income capacity or that APRA is satisfied that the capital position of MGL is sufficient after the MCN4 are Redeemed. APRA must give written approval for any Redemption or Resale of MCN4. The granting of this approval is at the complete discretion of APRA.

As a consequence, Exchange, Redemption or Resale may not occur, or could occur at a time not previously contemplated by MCN4 Holders. This may disadvantage MCN4 Holders and not coincide with their individual preferences or intended investment outcomes. The rate of return at which MCN4 Holders may reinvest their funds may be lower than the Distribution Rate on MCN4.

4.1.13. Cash payment only in limited circumstances

MCN4 Holders will only receive a cash payment for their MCN4 where MGL chooses to Redeem or Resell MCN4. This choice of Redeeming or Reselling MCN4 is only available on specific dates or upon the occurrence of specific events and is entirely at the discretion of MGL. Further, these options are subject to conditions and restrictions, including requiring the written approval of APRA. It is not certain whether or not these tests will be met or the relevant events will occur, that APRA would give any approval, or that MGL would choose to Redeem or Resell MCN4 (or instead elect that MCN4 will be Exchanged (if possible at the relevant time)). As a consequence, there is no certainty that MCN4 Holders will receive a cash payment for their MCN4.

4.1.14. Exchange on an Acquisition Event

MGL is an ASX listed company, which may be affected by merger and acquisition activity, including the possibility of being acquired by or merged with another company, which may constitute an Acquisition Event. If an Acquisition Event occurs, an Exchange must occur (unless, the Directors determine that (a) on the Acquisition Exchange Date MGL will be, or will be likely to be, Delisted (except where, despite MGL being Delisted, the Exchange would be in the best interests of Holders as a whole) or (b) the Exchange Number of Ordinary Shares to be issued in exchange for an MCN4 (as if it were not limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date) would exceed the Maximum Exchange Number applicable to an Acquisition Exchange Date and accordingly the MCN4 Holders may receive less than their Issue Price worth of Ordinary Shares (except where, despite the Exchange Number being limited to the Maximum Exchange Number applicable to an Acquisition Exchange Date, the Directors determine that the Exchange would be in the best interest of the MCN4 Holders taken as a whole)).

Such an Exchange could occur at a time not previously contemplated by MCN4 Holders, which may disadvantage MCN4 Holders and not coincide with their individual preferences or intended investment outcomes. Additionally, where the Exchange occurs because the Directors have determined it is in the MCN4 Holders best interests as a whole, that determination may not take into account the position of individual MCN4 Holders and may disadvantage individual MCN4 Holders.

4.1.15. Impact of a Non-Viability Event

If a Non-Viability Event occurs, MGL must immediately Exchange some or all MCN4 for Ordinary Shares. This could occur at any time and accordingly, is not subject to any Exchange Conditions.

A Non-Viability Event will occur if APRA has notified the Issuer in writing that:

- Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable; or

- APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable.

APRA has not provided any guidance as to how it would determine non-viability, or what would constitute equivalent support to a public sector injection of capital. Non-viability could be expected to include serious impairment of MGL's financial position and solvency. However, APRA's definition of non-viability may not be confined to solvency or capital measures and APRA's position on these matters may change over time. As the occurrence of a Non-Viability Event is at the discretion of APRA, there can be no assurance given as to the factors and circumstances that may give rise to this event.

Non-viability may arise as a result of many factors including factors which impact the business, operation and financial condition of MGL. See the discussion of risks associated with MGL and the Macquarie Group, below. As a consequence, if a Non-Viability Event occurs, there are many ways and a greater likelihood that an MCN4 Holder may lose some or all of their investment.

If a Non-Viability Event occurs, some or all MCN4 on issue will be immediately Exchanged into Ordinary Shares. Exchange will occur automatically, without the need for any further action and MGL will treat MCN4 Holders as though the Exchange has occurred. MGL expects that any ASX trades in MCN4 that have not settled on the date of a Non-Viability Event will continue to settle in accordance with the normal ASX settlement, although the seller will be treated as having delivered and the buyer will be treated as having acquired Ordinary Shares into which the MCN4 have been Exchanged. Alternatively, trading in MCN4 and Ordinary Shares may be halted and unsettled transfers of MCN4 may not be registered. This disruption in trading may cause the MCN4 Holder to suffer a loss and be unable to deal in MCN4.

MCN4 Holders may not have prior notice of a Non-Viability Event and Exchange in these circumstances is not subject to the Exchange Conditions being satisfied. The Ordinary Shares that will be issued may not be quoted at the time of issue or at all and may not be tradable.

The number of Ordinary Shares that an MCN4 Holder will receive on an Exchange following a Non-Viability Event is calculated from a five ASX Trading Day VWAP prior to the Non-Viability Exchange Date and subject to the Maximum Exchange Number applicable to a Non-Viability Exchange Date. If a Non-Viability Event occurs the market price of Ordinary Shares may be volatile. Accordingly, an MCN4 Holder may receive significantly less than \$100 worth of Ordinary Shares per MCN4 and may suffer a loss as a result. This is because:

- the number of Ordinary Shares may be limited by the Maximum Exchange Number applicable to a Non-Viability Exchange Date and as a consequence the value of Ordinary Shares received may be reduced; and
- the market price of Ordinary Shares received may differ from the five ASX Trading Days VWAP used to determine the Exchange Number of Ordinary Shares.

There is no obligation on MGL to issue any Relevant Securities, or to maintain on issue any Relevant Securities that it has issued or may decide to issue in the future. As a result, if a

4. Investment risks

Non-Viability Event requiring the Exchange of only some but not all Relevant Securities occurs, the relative impact on MCN4 Holders will depend on the amount of Relevant Securities other than MCN4 (if any) that are on issue at that time. The Maximum Exchange Number applicable to the Exchange of MCN4 may be different from the maximum exchange number applicable to Relevant Securities.

4.1.16. Impact of failure to Exchange leading to Write-Off

If the relevant MCN4 are not Exchanged within 5 Business Days of the Non-Viability Event then the Ordinary Shares will not be issued and the relevant MCN4 will be Written-Off. This may occur for any reason, including if MGL is prevented by applicable law, order of any court, action of any government authority from issuing Ordinary Shares. As at the date of this Prospectus, such laws could include Shareholding Laws (broadly, laws that relate to financial sector shareholdings, foreign acquisitions and takeovers and company takeovers). Other such laws may in future be specified by regulations made under the Banking Act.

In such cases, the MCN4 Holder will not receive any Ordinary Shares in respect of these MCN4, have no further claim on MGL and suffer a loss of their investment. The laws and circumstances under which an Inability Event arises may change and the change may be adverse to the interests of MCN4 Holders and MGL.

Recent changes to the law have given statutory recognition to conversion and write-off provisions in regulatory capital instruments such as MCN4, subject to limited exceptions (such as Shareholding Laws and other such laws that are in future specified by regulations made under the Banking Act).

4.1.17. Ordinary Shares issued to a Sale Agent

If MCN4 are to be Exchanged and:

- the MCN4 Holder has notified MGL that it does not wish to receive Ordinary Shares;
- the MCN4 are held by a person whose registered address is outside of Australia or who MGL believes is not an Australian resident and MGL believes the issue of Ordinary Shares would not be permitted by law or would be permitted only after compliance with conditions which MGL considers, in its absolute discretion, are not acceptable or are unduly onerous;
- MGL does not have the necessary information to issue the Ordinary Shares to a particular MCN4 Holder;
- a FATCA withholding is required to be made in respect of any Ordinary Shares to be delivered as a result of Exchange; or
- MGL believes it is not permitted to issue some or all Ordinary Shares to a particular MCN4 Holder under any Australian or foreign law which limits or restricts the number of shares in MGL which a person may hold; then

MGL will use reasonable endeavours to appoint a Sale Agent and, if a Sale Agent is appointed then, subject to applicable law and provided that MGL, the Trustee and the Sale Agent are satisfied that the Ordinary Shares otherwise to be Exchanged may lawfully be issued and sold by the Sale Agent without having to take steps which either the Trustee or Sale Agent regard as onerous, MGL will instead issue the relevant Ordinary Shares

to the Sale Agent which will at the first reasonable opportunity sell the Ordinary Shares (together with Ordinary Shares of each other MCN4 Holder similarly affected) and pay to the relevant MCN4 Holder its proportionate share of the net proceeds actually received from the sale (after deducting applicable brokerage, stamp duty and other taxes, charges and expenses).

If MGL appoints a Sale Agent to receive the issue of, and sell, Ordinary Shares in relation to an Exchange event, the appointment of the Sale Agent is to the exclusion of the Trustee (unless the Trustee is appointed as Sale Agent). In other words, in such a situation, the Trustee will have no role in connection with the sale of the relevant Ordinary Shares or the distribution of the sale proceeds. Instead, the sale process will be conducted by the Sale Agent. Your personal information (such as your name, contact details, account details and identification information) will be given to the Trustee and Sale Agent for the purposes of the sale. None of MGL, the Trustee, the Sale Agent nor any other person will owe any duties or obligations under the MCN4 Terms or Trust Deed to MCN4 Holders in connection with the Ordinary Shares issued to, and sold by, the Sale Agent.

MGL and the Sale Agent give no assurance as to whether a sale will be achieved or the price at which it may be achieved and each have no liability to MCN4 Holders for any loss suffered as a result of the sale of Ordinary Shares. The issue of the Ordinary Shares to the Sale Agent will satisfy all obligations of MGL in respect to the MCN4.

In these circumstances the sale of Ordinary Shares is beyond the control of the MCN4 Holder and may disadvantage the individual MCN4 Holder and not coincide with their individual preferences or intended investment outcomes. The amount received in respect of this sale may be less than the investment of the MCN4 Holder.

If either or both of MGL and the Sale Agent is of the opinion that Ordinary Shares cannot be issued to the Sale Agent (or issue would require onerous steps to be taken) or otherwise to the MCN4 Holder within 5 Business Days of a Non-Viability Exchange Date, then the relevant MCN4 will be Written-Off.

In the case of an Exchange on any other date, if MGL or the Sale Agent is of the opinion that the issue of Ordinary Shares to the Sale Agent cannot be made in accordance with applicable laws (or would require onerous steps to be taken), the issue of Ordinary Shares is deferred and the relevant MCN4 remain on issue until the Ordinary Shares are issued or the relevant MCN4 Redeemed. However, six months after the Exchange Date the rights of the relevant MCN4 Holder cease, other than the right to receive any net proceeds of the sale of Ordinary Shares issued to the Sale Agent before that time.

4.1.18. Restrictions on rights and ranking in a Winding Up

MCN4 are issued by MGL under the terms of the Trust Deed (including the MCN4 Terms). An MCN4 Holder has no claim on MGL in respect of the MCN4 except as provided in the MCN4 Terms and in the Trust Deed. For further information on the relevant provisions of the Trust Deed see section 6.1.

MCN4 are unsecured and subordinated obligations of MGL. In the event of a Winding Up of MGL and assuming that MCN4 have not

been Exchanged, Redeemed or Resold and are not required to be Written-Off due to a Non-Viability Event, MCN4 Holders will be entitled to claim for the Liquidation Amount of each MCN4 equal to \$100 for each MCN4. The claim for the Liquidation Amount ranks equally with Equal Ranking Obligations but is subordinated to Senior Creditors. If, on a Winding Up of MGL:

- there is a shortfall of funds to pay all amounts ranking senior to MCN4, MCN4 Holders will not receive any of the Liquidation Amount; and
- all amounts ranking senior to MCN4 have been paid but there is a shortfall of funds to pay all amounts ranking equally with MCN4, MCN4 Holders may not receive all (or any) of the Liquidation Amount.

If the MCN4 have been Exchanged (including following the occurrence of a Non-Viability Event), MCN4 Holders will hold Ordinary Shares and rank equally with other holders of Ordinary Shares in a Winding Up.

Where a Non-Viability Event occurs, if for any reason (for example due to applicable laws, order of a court or action of any government authority) Exchange of any MCN4 has not occurred within 5 Business Days following such an event, then those MCN4 are Written-Off (that is, the MCN4 Holder's rights (including to Distributions) in relation to those MCN4 are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date). The MCN4 Holder's investment will lose all of its value and the MCN4 Holder will not receive any Ordinary Shares or other compensation.

MCN4 may pay a higher rate of distribution than comparable securities and instruments which are not subordinated. However there is a greater risk that an MCN4 Holder would lose some or all of their investment in MCN4 should MGL become insolvent or in a Winding Up of MGL. Where MCN4 are Written-Off, as Ordinary Shares will still be on issue, an MCN4 Holder is likely to be worse off than a holder of Ordinary Shares.

4.1.19. Other securities issued by MGL

MCN4 do not in any way restrict MGL from issuing further Ordinary Shares, other securities (including securities that rank equally with or ahead of the MCN4) or from incurring further debt. MGL's obligations under MCN4 are subordinate to Senior Creditors and obligations preferred by law. Accordingly, the obligations of MCN4:

- will not be satisfied unless MGL can satisfy in full all of its other obligations ranking senior to MCN4; and
- may not be satisfied in full unless MGL can also satisfy in full all of its other obligations ranking equally with MCN4,

and future issues of securities or debts by MGL may dilute the claim of MCN4 Holders or reduce the value of their investment or liquidity of MCN4. The future issue of such securities may be on terms such that they would be exchanged, converted or written-off other than on a proportionate basis with the MCN4 and affect the proportions of MCN4 Exchanged or Written-Off due to a Non-Viability Event.

An investment in MCN4 carries no right to participate in any future issue of securities issued by MGL.

No prediction can be made as to the effect, if any, which future issues of securities by MGL may have on the market price or liquidity of MCN4 or the likelihood of payments being made on MCN4.

An investment in MCN4 carries no right to be Redeemed or otherwise be repaid at the same time as MGL redeems or otherwise repays other securities.

4.1.20. Credit rating risk relating to securities

MGL's cost of funds, margins, access to capital markets and competitive position and other aspects of its performance may be affected by its credit ratings, including any long-term credit ratings (see section 4.2.14 for more information) or the ratings assigned to any class of its securities. Credit rating agencies may withdraw, revise or suspend credit ratings or change the methodology by which securities are rated. Even though MCN4 will not be rated, such changes could adversely affect the market price, liquidity and performance of MCN4 or Ordinary Shares received on Exchange.

4.1.21. Regulatory treatment

MCN4 are Eligible Capital of MGL, which currently qualify as regulatory capital of MGL for APRA purposes.

A Regulatory Event may occur if the Issuer determines that, as a result a change in law or regulation or determination of APRA:

- any of the MCN4 are not eligible for inclusion as Eligible Capital;
- additional requirements in connection with the MCN4 would be imposed on MGL or the Macquarie Group which the Issuer determines in its absolute discretion might have a material adverse effect on MGL or otherwise be unacceptable; or
- to have any of the MCN4 outstanding would be unlawful or impractical or that MGL or the Macquarie Group would be exposed to a more than *de minimis* increase in its costs in connection with those MCN4.

If a Regulatory Event occurs, MGL may be entitled to Exchange or, with the written approval of APRA, Resell or Redeem MCN4.

As a consequence, Exchange, Redemption or Resale may occur at any time and at a time not previously contemplated by MCN4 Holders, which may disadvantage MCN4 Holders and not coincide with their individual preferences or intended investment outcomes. The rate of return at which MCN4 Holders may reinvest their funds or receive in connection with any Ordinary Shares, may be lower than the Distribution Rate on MCN4.

The choice of Exchange, Redemption or Resale when they are available, is entirely at the option of MGL. The choice of these actions (and consequently whether MCN4 Holders receive cash or Ordinary Shares) may be disadvantageous to MCN4 Holders and may not coincide with their individual preference or intended investment outcomes.

4.1.22. Tax consequences

A general outline of the tax consequences of investing in MCN4 for certain potential investors who are Australian residents for tax purposes is set out in the taxation summary in section 5.1. This summary is in general terms and is not intended to provide specific advice addressing the circumstances of any particular

4. Investment risks

potential investor. Accordingly, potential investors should seek independent advice concerning their own individual tax position.

If a change is made or announced in a law or regulation, or a judicial decision, or an administrative pronouncement, ruling or challenge from a government authority which was not expected at the time of issue of MCN4, which has an adverse effect on MGL in the amount of taxes, assessments or other governmental charges in connection with MCN4, or affects the withholding treatment of MCN4 or whether any Distribution would be frankable, then a Tax Event may occur.

If a Tax Event occurs, MGL may be entitled to Exchange or, with the written approval of APRA, Resell or Redeem MCN4.

As a consequence, Exchange, Redemption or Resale may occur at any time and at a time not previously contemplated by MCN4 Holders, which may disadvantage MCN4 Holders and not coincide with their individual preferences or intended investment outcomes. The rate of return at which MCN4 Holders may reinvest their funds may be lower than the Distribution Rate on MCN4.

The choice of Exchange, Redemption or Resale when they are available, is entirely at the option of MGL. The choice of these actions (and consequently whether MCN4 Holders receive cash or Ordinary Shares) may be disadvantageous to MCN4 Holders and may not coincide with their individual preferences or intended investment outcomes.

If the corporate tax rate in Australia changes, the cash amount of Distributions and any associated franking credits may change.

4.1.23. Powers of APRA

Under the Banking Act, APRA has power to issue directions to MGL. These powers of APRA are broad and may be exercised to intervene in the performance of obligations and the exercise of rights under the MCN4 (see further section 4.2.4).

The Banking Act has recently been amended to enhance APRA's powers to facilitate the resolution of the entities that it regulates (and their subsidiaries) in times of distress. Additional powers given to APRA include greater oversight, management and directions powers in relation to MGL, MBL and other Macquarie Group members (including entities which were not previously regulated by APRA). APRA's statutory management powers have also been enhanced. The Banking Act also gives statutory recognition to provisions for the conversion or write-off of an instrument such as the MCN4.

In addition, APRA has powers to require the compulsory transfer of all or part of the business of MGL pursuant to the Financial Sector (Transfer and Restructure) Act 1999 (Cth) ("**FSTR Act**"). This power arises in circumstances where APRA has decided to make a compulsory transfer of the business of, or shares in, MBL. A transfer under the FSTR Act overrides anything in any contract or agreement to which MGL is a party, including the MCN4 Terms.

These powers of APRA may be exercised in a way which adversely affects the ability of MGL to comply with its obligations in respect of the MCN4 (including in connection with the Exchange of MCN4), and this may adversely affect the position of MCN4 Holders.

4.1.24. Accounting standards

New, or amendments to existing, accounting standards issued by either the International Accounting Standards Board or Australian Accounting Standards Board may affect the reported earnings and financial position of MGL in future financial periods. This may adversely affect the ability of MGL to pay Distributions.

4.1.25. Shareholding limits

Various laws, including Chapter 6 of the Corporations Act, the Foreign Acquisition and Takeovers Act 1975, the Financial Sector (Shareholdings) Act 1998 ("**FSSA**") and Part IV of the Competition and Consumer Act 2010 may restrict the number of Ordinary Shares that any person may hold. Mergers, acquisitions and divestments of Australian public companies listed on ASX (such as MGL) are regulated by detailed and comprehensive legislation and the rules and regulations of ASX.

The FSSA restricts ownership of MGL by people (together with their associates) to a 20% stake. A shareholder may apply to the Australian Federal Treasurer to extend their ownership beyond 20%, but approval will not be granted unless the Treasurer is satisfied that the holding is in the national interest.

MCN4 Holders should take care to ensure that their holding of MCN4 (and any Ordinary Shares that they could be Exchanged for) do not breach any applicable restrictions on ownership.

Where, on an Exchange, the issue of any Ordinary Shares to any particular MCN4 Holder (either directly or indirectly) is prevented by law, MGL may be unable to Exchange those MCN4 and they will be Written-Off.

4.1.26. FATCA withholding and information reporting

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") impose a reporting regime and potentially a 30% withholding tax with respect to certain payments. The Australian Government and the US Government signed an intergovernmental agreement ("**IGA**") in respect of FATCA on 28 April 2014, providing an alternative means for Australian financial institutions to comply with FATCA. Under the IGA, Australian financial institutions that may be involved in the MCN4 payment processes, such as custodians or nominees, may be required to provide the Australian Taxation Office ("**ATO**") with information about investors. As such, certain information may be requested from MCN4 Holders or beneficial owners of MCN4 which may be provided to the ATO. MGL does not anticipate being obliged to deduct any withholding for or on account of FATCA, but there can be no assurance that MGL will not be required to deduct or withhold amounts on payments it makes to MCN4 Holders as a result of FATCA in the future.

If an amount was to be deducted or withheld in respect of FATCA from payments on MCN4 or deliveries of Ordinary Shares made in respect of MCN4, neither MGL nor any paying agent nor any other person would, pursuant to the conditions of MCN4, be required to pay additional amounts as a result of the deduction or withholding. As a result, MCN4 Holders may receive less Distributions, principal or Ordinary Shares than expected.

FATCA is particularly complex. Investors should consult their own tax advisers to determine how these rules may apply to payments

they will receive under MCN4, particularly if they are a U.S. person or have financial dealings with a U.S. person.

4.1.27. Common Reporting Standard

The OECD Common Reporting Standard for Automatic Exchange of Financial Account Information in Tax Matters (“CRS”) may require financial institutions involved in the MCN4 payment processes, such as custodians or nominees, to report information regarding MCN4 to their local tax authority and follow related due diligence procedures. MCN4 Holders may be requested to provide certain information and certifications to ensure compliance with the CRS. The Australian Government has enacted legislation amending, among other things, the Taxation Administration Act 1953 (Cth) to give effect to the CRS. The CRS applies to Australian financial institutions with effect from July 1, 2017.

4.1.28. Amendment of MCN4 Terms or Trust Deed

In certain circumstances, MGL may, with APRA’s prior written approval where required, amend the MCN4 Terms or Trust Deed without the approval of MCN4 Holders or the Trustee. These circumstances include where MGL is of the opinion that the amendments do not materially adversely affect the interests of the MCN4 Holders as a whole.

MGL may also, with APRA’s prior written approval where required, amend the MCN4 Terms or Trust Deed if the amendment has been approved by a Special Resolution of MCN4 Holders and the Trustee. Amendments under these arrangements are binding on all MCN4 Holders, despite the fact that an individual MCN4 Holder may not agree with the amendment, has voted against making the amendment or may be disadvantaged by the amendment.

MGL may also, with APRA’s prior written approval, amend the MCN4 Terms in circumstances where the Reference Rate ceases to be available and replace the Reference Rate with an alternative rate that MGL considers appropriate, and make certain other amendments to the MCN4 Terms. Such amendments could adversely affect the interests of MCN4 Holders.

APRA’s prior written approval of an amendment is required where the amendment may cause the MCN4 to cease to be Eligible Capital.

4.2. Risks associated with MGL and the Macquarie Group

The factors described below relate to an investment in MGL and the Macquarie Group.

Risks associated with MGL and the Macquarie Group are relevant to an investment in MCN4 because they may affect MGL’s ability to fulfil its obligations under the MCN4 Terms, the market value of MCN4 and the market value of, and any dividends paid on, Ordinary Shares issued on an Exchange of MCN4.

Risks may affect one or more of Macquarie Group’s businesses at any one time. If more than one of the Macquarie Group’s businesses were affected by adverse circumstances at or about the same time, the cumulative effect of these may also have an adverse impact on Macquarie Group.

4.2.1. Global credit and market conditions

The Macquarie Group’s businesses operate in and depend on the operation of global markets, including through exposures in securities, loans, derivatives and other activities. In particular, uncertainty and volatility in global credit markets, liquidity constraints, funding costs, constrained access to funding and a decline in equity and capital market activity may affect transaction flow for the Macquarie Group in a range of industry sectors.

The Macquarie Group’s trading income may be adversely affected during times of subdued market conditions and client activity, and increased market risk can lead to trading losses or cause the Macquarie Group to reduce the size of its trading businesses in order to limit the Macquarie Group’s risk exposure. Market conditions may cause clients to transfer their assets out of the Macquarie Group’s funds, products or brokerage accounts and result in reduced net revenues.

The Macquarie Group’s funds management fee income may be adversely affected by volatility in asset values and the returns from Macquarie Group’s managed funds. The value and performance of the Macquarie Group’s loan portfolio and the value of its proprietary investments, including investments in managed funds, may also be adversely affected by deteriorating economic conditions, leading to impairments, write-downs and/or reduced returns from asset sales.

Sudden declines and significant volatility in the prices of assets may substantially curtail or eliminate the trading markets for certain assets, which may make it very difficult to sell, hedge or value such assets. The inability to sell or effectively hedge assets reduces the Macquarie Group’s ability to limit losses in such positions and difficulty in valuing assets may negatively affect the Macquarie Group’s capital, liquidity or leverage ratios, increase funding costs and generally require the Macquarie Group to maintain additional capital.

Increases in volatility may also increase Macquarie Group’s capital requirements. Increased capital requirements may require the Macquarie Group to raise additional capital at a time, and on terms, which may be less favourable than it would otherwise achieve during stable market conditions.

The commercial soundness of many financial institutions may be closely interrelated as a result of credit, trading, clearing or other relationships among financial institutions. Concerns about, or a default by, one or more institutions or by sovereigns could lead to market-wide liquidity problems, losses or defaults by other institutions globally that may further affect the Macquarie Group. This is sometimes referred to as “systemic risk” and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms, hedge funds and exchanges that the Macquarie Group interacts with on a daily basis. If any of the Macquarie Group’s counterpart financial institutions fail, the Macquarie Group’s financial exposures to that institution may lose some or all of their value. The failure of one financial institution may also affect the soundness of other financial institutions with which the Macquarie Group transacts, resulting in additional failures, financial instruments losing their value and liquidity, and interruptions to capital markets. Any of these events would have a serious adverse effect on the Macquarie Group’s liquidity, profitability and value.

4. Investment risks

4.2.2. Other general economic and geopolitical risks

The Macquarie Group may face new costs and challenges as a result of general economic and geopolitical events and conditions. For instance, a sovereign default, slowdown in the US or Chinese economies, slowing growth in emerging economies, the departure of any member country from the European Union or the market anticipation of such events, could disrupt global funding markets and the global financial system more generally. The United Kingdom's departure from the European Union ("**Brexit**") is currently subject to a deadline of 29 March 2019 under applicable UK and EU laws, however, significant uncertainty remains in relation to both the terms (e.g. the final form of any Brexit event) and timing. Such uncertainty, particularly the market's response, may adversely affect economic conditions and disrupt the markets in which Macquarie Group operates.

Potential risks of default on sovereign debt in some jurisdictions could expose the Macquarie Group to substantial losses. The Macquarie Group may also be impacted indirectly through its counterparties that may have direct exposure to sovereigns and financial institutions.

Jurisdictions in which the Macquarie Group does business may be negatively impacted by slow growth rates or recessionary conditions, market volatility and/or political unrest. In conducting its businesses and maintaining and supporting its global operations, the Macquarie Group is subject to risks of possible nationalisation and/or confiscation of assets, expropriation, price controls, capital controls, redenomination risk, exchange controls, protectionist trade policies, economic sanctions and other restrictive governmental actions, unfavourable political and diplomatic developments and changes in legislation. These risks are particularly elevated in emerging markets.

Market and economic disruptions of all types may affect consumer confidence levels and spending, corporate investment and job creation, bankruptcy rates, levels of incurrence and default on consumer and corporate debt, economic growth rates and asset values, among other factors. Any such unfavourable conditions or developments could have an adverse impact on the Macquarie Group's business. For example, these developments can adversely affect investor and client confidence, resulting in declines in the size and number of underwritings, financial advisory transactions and increased market risk as a result of increased volatility.

Geopolitical instability, such as threats of, potential for, or actual conflict, occurring around the world, may also adversely affect global financial markets, general economic and business conditions and the Macquarie Group's ability to continue operating or trading in a country. Risks in one country can limit the Macquarie Group's opportunities for portfolio growth and negatively affect its operations in other countries.

4.2.3. Liquidity risks

The Macquarie Group is exposed to the risk that it may become unable to meet its financial commitments when they fall due, which could arise due to mismatches in cashflows. Liquidity is essential to the operation of Macquarie Group's businesses. Liquidity may be impaired by an inability to access debt and capital markets, or sell assets or if the Macquarie Group experiences unforeseen outflows of cash or collateral. Liquidity

may also be impaired due to circumstances that MGL may be unable to control, such as general market disruptions, which may occur suddenly and dramatically, an operational problem that affects the Macquarie Group or its trading clients, or changes in credit spreads, which are market-driven, and subject at times to unpredictable and highly volatile movements.

If economic conditions deteriorate or remain uncertain for a prolonged period, the Macquarie Group's funding costs may increase and this may limit its ability to replace maturing liabilities which could adversely affect the group's ability to fund and grow its business.

In the event that the Macquarie Group's current sources of funding prove to be insufficient, MGL or other group members may be forced to seek alternative financing, which could include selling assets, including illiquid assets. The availability of alternative financing will depend on a variety of factors, including prevailing market conditions, the availability of credit, Macquarie Group entities' credit ratings and credit capacity. The cost of these alternatives may be higher than current sources of funding or include other unfavourable terms, or the Macquarie Group may be unable to raise as much funding as it needs to support its business activities. This could slow the growth rate of the Macquarie Group's businesses, cause it to reduce its term assets or increase its cost of funding, any of which could adversely affect the Macquarie Group.

4.2.4. Legal, regulatory and compliance risk

Many of the Macquarie Group's businesses are highly regulated and it could be adversely affected by changes in regulations, regulatory policy, unintended consequences from such changes and increased compliance requirements.

The Macquarie Group operates various kinds of businesses across multiple jurisdictions, and some of its businesses operate across more than one jurisdiction or sector and are regulated by more than one regulator. Additionally, some members of the Macquarie Group own or manage assets and businesses that are regulated.

The Macquarie Group's businesses include a bank in Australia (regulated by APRA) and other prudentially regulated activities, bank branches in the United Kingdom, Germany, the Dubai International Finance Centre, Singapore, Hong Kong and South Korea and representative offices in the United States, New Zealand and Switzerland. Prudential regulations vary from country to country but generally are designed to protect depositors and the banking system as a whole, not holders of MGL's securities or creditors. As a diversified financial institution, many of the Macquarie Group's businesses are also subject to financial services regulation other than prudential banking regulation. Regulatory agencies and governments frequently review and revise banking and financial services laws, security and competition laws, fiscal laws and other laws, regulations and policies which may impact the financial sector in which the Macquarie Group operates.

In some countries in which the Macquarie Group operates or may in the future operate, in particular in emerging markets, the laws and regulations applicable to the financial services industry are uncertain and evolving, and it may be difficult to determine

the requirements of local laws in every market. The Macquarie Group's inability to remain in compliance with local laws in a particular market could have a significant and negative effect on its businesses in that market and on its reputation generally.

Regulation is becoming increasingly extensive and complex and some areas of regulatory change involve multiple jurisdictions seeking to adopt a coordinated approach or certain jurisdictions seeking to expand the territorial reach of their regulation. The nature and impact of future changes are unpredictable, beyond MGL's control and may result in potentially conflicting requirements resulting in additional legal and compliance expenses and changes to business practices that could adversely affect the Macquarie Group.

MGL is regulated by APRA as a NOHC. APRA may introduce new prudential regulations or modify existing regulations, including those that apply to MGL as a NOHC. Any such event could result in changes to the organisational structure of the Macquarie Group and adversely affect the Macquarie Group.

The Macquarie Group is also subject in its operations worldwide to rules and regulations relating to corrupt and illegal payments and money laundering, as well as laws, sanctions and economic trade restrictions relating to doing business with certain individuals, groups and countries. The geographical diversity of the Macquarie Group's operations, employees, clients and customers, as well as the vendors and other third parties that it deals with, increases the risk that a member of the Macquarie Group may be found in violation of such rules or regulations. Any such violation could subject the Macquarie Group to significant penalties, revocation, suspension, restriction or variation of conditions of operating licenses, adverse reputational consequences, litigation (including potentially class actions) or limitations on the Macquarie Group's ability to do business. Emerging technologies, such as cryptocurrencies, could limit the Macquarie Group's ability to track the movement of funds. The Macquarie Group's ability to comply with these laws is dependent on its ability to improve detection and reporting capabilities and reduce variation in control processes and oversight accountability.

MGL is a holding company and many of its subsidiaries, including its broker-dealer and bank subsidiaries, such as MBL, are subject to laws that authorize regulatory bodies to block or reduce the flow of funds from those subsidiaries to MGL. Restrictions or regulatory action of that kind could impede access to funds that MGL needs to make payments on its obligations, including debt obligations, or dividend payments. In particular, the availability of MBL's funding to meet the obligations of MGL or the Non-Banking Group is subject to regulatory restrictions.

4.2.5. Increased governmental and regulatory scrutiny

Global economic conditions and increased scrutiny of the culture in the banking sector have led to increased supervision and regulation, as well as changes in regulation in the markets in which the Macquarie Group operates and may lead to further significant changes of this kind. Governmental scrutiny from regulators, legislative bodies and law enforcement agencies with respect to matters relating to the financial services sector generally, and the Macquarie Group's operations, capital, liquidity

and risk management, compensation and other matters, has increased dramatically over the past several years. The financial crisis and the subsequent political and public sentiment regarding financial institutions has resulted in a significant amount of adverse press coverage, as well as adverse statements or charges by regulators or other government officials, and in some cases, increased regulatory scrutiny, investigations and litigation. Responding to and addressing such matters, regardless of the ultimate outcome, is time-consuming, expensive, can adversely affect investor confidence and can divert the time and effort of the Macquarie Group's staff from other business activities.

Investigations, inquiries, penalties and fines sought by regulatory authorities have increased substantially over the last several years, along with legislation targeted at the financial services industry. If the Macquarie Group is subject to adverse regulatory findings, the financial penalties could have a material adverse effect on the Macquarie Group's results of operations. Adverse publicity, governmental scrutiny and legal and enforcement proceedings can also have a negative impact on the Macquarie Group's reputation with clients and on the morale and performance of its employees.

The Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry was announced in December 2017 concluded on 1 February 2019. The Commission inquired into the causes of, and responses to, misconduct by financial services entities and conduct falling below community standards and expectations, and held rounds of public hearings on a wide range of matters, including consumer and SME lending, financial advice, superannuation, insurance, culture, governance, remuneration, and the remits of regulators.

The Commission's Final Report published on 4 February 2019 ("**Final Report**") contains 76 recommendations, including:

- establishment of a new system for professional discipline for financial advisers and financial services licensees featuring registration, a disciplinary body and conduct reporting requirements;
- introduction of statutory best interest duty on mortgage brokers and a phased prohibition on commissions being paid by lenders to mortgage brokers;
- the removal of grandfathered arrangements which allow for commissions to continue to be paid to financial advisors who sold financial products prior to the Future of Financial Advice reforms and further review of conflicted remuneration exceptions;
- joint administration of the Bank Executive Accountability Regime ("**BEAR**") by APRA and ASIC, extension of BEAR to all APRA regulated entities, and assignment of accountability for end-to-end management of product design, delivery, maintenance and, where necessary, remediation;
- regular ongoing culture reviews by financial services entities into their culture and governance policies and practices, including management of non-financial risks and conduct risks;

4. Investment risks

- new statutory scheme for sharing information between APRA and ASIC; and
- a number of measures to enhance APRA and ASIC's oversight of entities' governance, culture and remuneration frameworks and practices and to improve the effectiveness to deter, investigate and penalise misconduct, including a focus in changing the enforcement culture of regulators, with a presumption of more litigation and pursuit of criminal liabilities.

The Federal Government has agreed to take action on all 76 recommendations contained in the Final Report. On 14 February 2019, the Commonwealth Parliament passed a law significantly increasing penalties for corporate and financial sector misconduct and contravention of various corporations legislation. The Commission's recommendations are likely to result in a range of further legislative, regulatory and industry practice changes. Such changes may adversely impact Macquarie Group's business, operations, compliance costs, financial performance and prospects. Macquarie is closely monitoring the governmental, regulatory and industry responses to these recommendations and will participate in public and industry consultations as appropriate.

No findings were made in the Final Report in relation to the Macquarie Group.

4.2.6. Exchange rate risk

While the Macquarie Group's consolidated financial statements are presented in Australian dollars, a significant portion of the Macquarie Group's operating income is derived, and operating expenses are incurred, from offshore business activities, which are conducted in a broad range of currencies. Changes in currency exchange rates can impact the Macquarie Group's financial statements, its capital position and the economics of its business.

If any member of the Macquarie Group is unable to hedge its exposure to currencies other than the Australian dollar as expected, the Macquarie Group's reported profit, balance sheet or capital position could be affected.

4.2.7. Risks of strategic opportunities and exiting or restructuring existing businesses

The Macquarie Group continually assesses the appropriateness of its business mix and the viability of individual businesses in light of regulatory, market and economic conditions and developments. From time to time, the Macquarie Group may evaluate other strategic opportunities, the outcome of which is dependent upon the quality of its strategic planning process, the implications of the strategy on risk appetite and its ability to evaluate and implement such strategic opportunities.

Future growth of the Macquarie Group, including through acquisitions, mergers and other corporate transactions, as well as planned business initiatives and expansions of existing businesses into new jurisdictions, may place significant demands on its legal, accounting, IT, risk management and operational infrastructure and result in increased expenses.

Such activities are likely to bring the Macquarie Group into contact with individuals and entities that are new clients, new asset classes and other new products or new markets that may expose the Macquarie Group to new and enhanced risks,

including reputational concerns arising from dealing with a range of new counterparties and investors, actual or perceived conflicts of interest, regulatory scrutiny of these activities, potential political pressure, increased credit-related and operational risks, including risks arising from IT systems, and reputational concerns with these businesses being operated or conducted.

The Macquarie Group may over-value an acquisition, not achieve expected synergies from an acquisition, achieve lower than expected cost savings or otherwise incur losses, lose customers and market share, and may face disruptions to its operations resulting from integrating the systems, processes and personnel of the acquired business into the Macquarie Group (including the diversion of management time). The Macquarie Group may also underestimate the costs associated with outsourcing, exiting or restructuring existing businesses. Where the Macquarie Group's acquisitions are in foreign jurisdictions, particularly in emerging or growth economies, it may be exposed to heightened levels of regulatory scrutiny and political, social or economic disruption and sovereign risk.

4.2.8. Reputation risk

The Macquarie Group's reputation in the financial services markets and the recognition of the Macquarie brand by its customers are important contributors to its business.

Many companies in the Macquarie Group and many of the funds managed by entities owned, in whole or in part, by the Macquarie Group use the Macquarie name.

The Macquarie Group's business may be adversely affected by negative publicity or poor performance in relation to any of the entities using the Macquarie name or otherwise associated with Macquarie, including any Macquarie-managed fund or funds that Macquarie has promoted or is associated with, as investors and lenders may associate such entities and funds with the name, brand and reputation of the Macquarie Group and other Macquarie-managed funds.

4.2.9. Competitive risks

The Macquarie Group faces significant competition from local and international competitors, which compete vigorously for participation in the various markets and sectors across which the Macquarie Group operates. The Macquarie Group competes, both in Australia and internationally, with asset managers, retail and commercial banks, private banking firms, investment banking firms, brokerage firms, internet based firms, commodity trading firms and other investment and service firms as well as businesses in adjacent industries in connection with the various funds and assets the Macquarie Group manages and services it provides. This includes specialist competitors that may not be subject to the same capital and regulatory requirements and therefore may be able to operate more efficiently. Furthermore, digital technologies and business models are changing consumer behaviour and the competitive environment. The use of digital channels by customers to conduct their banking continues to rise and emerging competitors are increasingly utilising new technologies and seeking to disrupt existing business models, including in relation to digital payment services and open data banking, that could potentially disrupt traditional financial services and adversely affect the Macquarie Group's operations.

Any consolidation in the global financial services industry may create stronger competitors with broader ranges of product and service offerings, increased access to capital, and greater efficiency and pricing power which may enhance the competitive position of Macquarie's competitors and result in the loss of Macquarie Group customers to those competitors.

4.2.10. Staff recruitment and retention

Employees are the Macquarie Group's most important resource, and its performance largely depends on the talents and efforts of highly skilled individuals. The Macquarie Group's continued ability to compete effectively in its businesses and to expand into new business areas and geographic regions depends on its ability to retain and motivate existing employees and attract new employees. Competition from within the financial services industry and from businesses outside the financial services industry for qualified employees has historically been intense and is expected to increase during periods of economic growth.

In order to attract and retain qualified employees, the Macquarie Group must compensate such employees at or above market levels. Recent market events have resulted in increased regulatory and public scrutiny of corporate remuneration policies and the establishment of criteria against which industry remuneration policies may be assessed. As a regulated entity, MGL may be subject to limitations on remuneration practices. These limitations may require MGL to further alter its remuneration practices in ways that could adversely affect the Macquarie Group's ability to attract and retain qualified and talented employees.

Current and future laws (including laws relating to immigration and outsourcing) may restrict the Macquarie Group's ability to move responsibilities or personnel from one jurisdiction to another. This may impact its ability to take advantage of business and growth opportunities or potential efficiencies, which could adversely affect the Macquarie Group's profitability.

4.2.11. Market, asset and interest rate risk

The Macquarie Group is exposed to changes in the value of financial instruments and other financial assets that are carried at fair market value, as well as changes to the level of advisory and other fees, due to changes in interest rates, exchange rates, equity and commodity prices and credit spreads and other market risks. These changes may result from changes in economic conditions, monetary and fiscal policies, market liquidity, availability and cost of capital, international and regional political events, acts of war or terrorism, corporate, political or other scandals that reduce investor confidence in capital markets, natural disasters or pandemics or a combination of these or other factors.

The Macquarie Group's businesses trade in foreign exchange, interest rate, commodity, energy, securities and other markets and are an active price maker in the derivatives market. Certain financial instruments that members of the Macquarie Group hold and contracts to which members of the Macquarie Group are a party are complex and these complex structured products often do not have readily available markets to access in times of liquidity stress. The Macquarie Group may incur losses as a result of decreased market prices for products it trades, which decreases the valuation of its trading and investment positions, including interest rate and credit products, currency, commodity and

equity positions. In addition, reductions in equity market prices or increases in interest rates may reduce the value of the Macquarie Group's clients' portfolios, which in turn may reduce the fees it earns for managing assets in certain parts of its business. Increases in interest rates or attractive prices for other investments could cause the Macquarie Group's clients to transfer their assets out of its funds or other products.

Interest rate benchmarks around the world (for example, London Interbank Offered Rate or LIBOR) have been subject to regulatory scrutiny and are subject to change. Changes to such benchmarks can result in market disruption and volatility impacting the value of securities, financial returns and potentially impact the Macquarie Group's ability to effectively hedge market risk.

Interest rate risk arises from a variety of sources including mismatches between the repricing periods of assets and liabilities. As a result of these mismatches, movements in interest rates can affect earnings or the value of the Macquarie Group.

4.2.12. Capital adequacy risk

The Macquarie Group seeks to maintain capital levels to ensure it can achieve strategic plans and objectives, manage the risks to which it is exposed, absorb unexpected losses and meet market expectations of capital levels. The Macquarie Group is required to maintain minimum levels determined by the risk profile of its operations and within the frameworks by which it is regulated.

If the Macquarie Group fails to hold sufficient capital, including as a result of unexpected events affecting its business, operations and financial condition, there may be an increased risk of regulatory intervention in the operation of the business, and ultimately a greater risk of non-viability and insolvency. Reduced capital adequacy levels in MBL or MGL could also restrict those entities' ability to pay dividends or distributions.

Many of the capital frameworks that the Macquarie Group operates under have been recently reviewed or are currently under review. The Basel Committee on Banking Supervision continues to undertake further work as part of its regulatory reform agenda that may result in additional capital requirements. Additional capital requirements may arise from APRA's proposals for "unquestionably strong" capital levels and/or loss absorbing capital requirements which are currently under consideration. APRA has also proposed prudential rules to apply to financial conglomerates such as the Macquarie Group, but the implementation date for these rules is currently unknown. Changes to these frameworks can require the Macquarie Group to hold more capital and have an adverse impact on the Macquarie Group.

4.2.13. Credit and counterparty risk

The Macquarie Group is exposed to the risk of financial loss as a result of failure by a client or other counterparty to meet its contractual obligations. The Macquarie Group assumes counterparty risk in connection with its lending, leasing, trading, derivatives and other businesses where it relies on the ability of a third party to satisfy their financial obligations to the Macquarie Group on a timely basis. The Macquarie Group is also exposed to potential concentration risk arising from large individual exposures or groups of exposures. The resultant credit exposure will depend on a number of factors, including the financial condition of the

4. Investment risks

counterparty, the value of assets the Macquarie Group holds as collateral and the market value of the counterparty instruments and obligations the Macquarie Group holds, as well as the extent to which the Macquarie Group hedges such credit exposures. The Macquarie Group is also subject to the risk that its rights against third parties may not be enforceable in all circumstances, which may result in losses.

4.2.14. Credit ratings risk

The credit ratings assigned to MGL and certain of its subsidiaries by rating agencies are based on an evaluation of a number of factors, including such entities' ability to maintain a stable and diverse earnings stream, strong capital ratios, strong credit quality and risk management controls, funding stability and security, disciplined liquidity management and the Macquarie Group's key operating environments, including the availability of systemic support in Australia. A credit rating downgrade could be driven by the occurrence of one or more of the other risks identified in this section or by other events that are not directly related to the Macquarie Group.

If MGL or its subsidiaries fail to maintain current credit ratings, this could adversely affect the Macquarie Group's cost of funds and related margins, liquidity, competitive position, the willingness of counterparties to transact with the Macquarie Group and its ability to access capital markets. This may also trigger obligations under certain bilateral provisions in some of the Macquarie Group's trading and collateralised financing contracts which may result in the termination of contracts with the Macquarie Group or require members of the Macquarie Group to post additional collateral resulting in losses to the Macquarie Group and an impairment of its liquidity.

4.2.15. Tax risk

The Macquarie Group is exposed to risks arising from the manner in which the Australian and international tax regimes are applied and enforced, both in terms of the Macquarie Group's own tax compliance and the tax aspects of transactions on which members of the Macquarie Group work with clients and other third parties. The Macquarie Group's international, multi-jurisdictional platform increases its tax risks. Any actual or alleged failure to comply with or any change in the interpretation, application or enforcement of applicable tax laws and regulations could adversely affect the Macquarie Group's reputation, businesses, significantly increase its own tax liability and expose it to legal, regulatory and other actions.

4.2.16. Operational system risks and risk management processes

The Macquarie Group's businesses depend on their ability to process and monitor, on a daily basis, a very large number of transactions, many of which are highly complex, across numerous and diverse markets in many currencies.

The Macquarie Group is exposed to the risk of loss resulting from human error, the failure of internal or external processes and systems, such as from the disruption or failure of IT systems, or from external suppliers and service providers, including cloud-based outsourced technology platforms, or external events.

The Macquarie Group is also exposed to the risk that employee, contractor and external service provider misconduct could occur. Such operational risks may include theft and fraud, employment practices and workplace safety, improper business practices, mishandling of client monies or assets, client suitability and servicing risks, product complexity and pricing, and valuation risk or improper recording, evaluating or accounting for transactions or breaches of internal policies and regulations. There is increasing regulatory and public scrutiny concerning conduct risk (including activities that fall below community standards and expectations) and concerning outsourced and off-shore activities and their associated risks, including, for example, the appropriate management and control of confidential data. If the Macquarie Group fails to appropriately manage these risks, it may incur financial losses and/or regulatory intervention and penalties, and its reputation and ability to retain and attract clients may be adversely affected.

While the Macquarie Group employs a broad and diversified set of risk monitoring and risk mitigation techniques, those techniques and the judgments that accompany their application cannot anticipate every economic and financial outcome or the specifics and timing of such outcomes. There can be no assurance that the risk management processes and strategies that the Macquarie Group has developed will adequately anticipate or be effective in addressing market stress or unforeseen circumstances.

4.2.17. Information security system risks including cyber attack

The Macquarie Group's businesses are dependent on the security and efficacy of its information technology systems, as well as those of third parties with whom it interacts or on whom it relies. The Macquarie Group's businesses rely on the secure processing, transmission, storage and retrieval of confidential, proprietary and other information in its computer and data management systems and networks, and in those of third parties.

The Macquarie Group, its customers, regulators and other third parties have been subject to, and are likely to continue to be the target of, cyber attacks. The Macquarie Group's computer systems, software and networks may be vulnerable to unauthorised access, misuse, denial-of-service or information attacks, phishing attacks, computer viruses or other malicious code and other events that could result in the unauthorised release, gathering, monitoring, misuse, loss or destruction of confidential, proprietary and other information of the Macquarie Group, its employees, its customers or of third parties, damages to systems, or otherwise material disruption to its or its customers' or other third parties' network access or business operations.

Information security risks for financial institutions have increased in recent years, in part because of the proliferation of new technologies, the use of internet and telecommunications technology and the increased sophistication and activities of attackers. The techniques used by hackers change frequently, and may not be recognised until launched or until after a breach has occurred. Additionally, the existence of cyber attacks or security breaches at third parties with access to the Macquarie Group's data, such as vendors, may not be disclosed to the Macquarie Group in a timely manner.

As cyber threats continue to evolve, the Macquarie Group may have to significantly increase the resources it allocates to enhance its protective measures or to investigate and remediate any information security vulnerabilities or incidents.

As a result of increasing consolidation, interdependence and complexity of financial entities and technology systems, a technology failure, cyber attack or other information or security breach that significantly degrades, deletes or compromises the systems or data of one or more financial entities could have a material impact on counterparties or other market participants, including the Macquarie Group.

4.2.18. Insurance risk

The Macquarie Group maintains insurance that it considers to be prudent for the scope and scale of its activities. If the Macquarie Group's third party insurance providers fail to perform their obligations and/or its third party insurance cover is insufficient for a particular matter or group of related matters, the net loss to the Macquarie Group could adversely impact its results and operations.

4.2.19. Risk of unforeseen, hostile or potential catastrophic events and climate change social risks

The Macquarie Group and its customers operate businesses and hold assets in a diverse range of geographic locations.

The Macquarie Group's businesses are subject to the risk of unforeseen, hostile or catastrophic events, many of which are outside of its control, including natural disasters, extreme weather events, leaks, spills, explosions, release of toxic substances, fires, accidents on land or at sea, terrorist attacks or other hostile or catastrophic events.

The occurrence of any such events may prevent the Macquarie Group from performing under its agreements with clients, may impair its operations or financial results, and may result in litigation, regulatory action, negative publicity or other reputational harm. In addition, the Macquarie Group relies on third party suppliers or service providers to perform their contractual obligations. If they are affected by such events, they may be unable to perform their obligations and any failure on their part could adversely affect the Macquarie Group's business.

Macquarie and its customers, suppliers and service providers may also be adversely affected by climate change, including rising temperatures and sea levels and changes in the frequency and severity of catastrophic events. This could adversely impact Macquarie Group's financial performance and lead to business disruption. Regulatory changes and initiatives to respond to climate change, as well as failure to adequately anticipate and address transitions risks may also adversely impact on Macquarie Group by increasing operating costs and/or reducing the profitability of Macquarie's investments.

The Macquarie Group may also not be able to obtain insurance to cover some of these risks or the insurance that it has may be inadequate to cover its losses.

4.2.20. Conflicts of Interest

As the Macquarie Group expands its businesses and its client base, it increasingly has to address potential or perceived conflicts of interest, including situations where its services to a particular client conflict with, or are perceived to conflict with, its own proprietary investments or other interests or with the interests of another client. The Macquarie Group may also face situations where one or more of its businesses have access to material non-public information that may not be shared with other businesses within the Macquarie Group. While the Macquarie Group believes it has adequate procedures and controls in place to address conflicts of interest, including those designed to prevent the improper sharing of information among its businesses, appropriately dealing with conflicts of interest is complex and difficult. A failure to comply with these procedures or controls may result in damage to the Macquarie Group's reputation, and the willingness of clients or counterparties to enter into transactions may be adversely affected if the Macquarie Group fails, or appears to fail, to deal appropriately with conflicts of interest. In addition, potential or perceived conflicts could give rise to claims by and liabilities to clients, litigation or enforcement actions.

4.2.21. Macquarie Group may be adversely affected by litigation and regulatory actions

The Macquarie Group may, from time to time, be subject to material litigation and regulatory actions, for example, as a result of inappropriate documentation of contractual relationships, class actions or regulatory violations, which, if they crystallise, may adversely impact upon Macquarie Group's operations and financial condition in future periods or its reputation. The Macquarie Group regularly obtains legal advice and make provisions, as deemed necessary. There is a risk that any losses may be larger than anticipated or provided for or that additional litigation, regulatory actions or other contingent liabilities may arise. Even where monetary damages may be relatively small, an adverse finding in a regulatory or litigation matter could harm Macquarie Group's reputation or brand, thereby adversely affecting its business.

The description of risks in this section 4 is not exhaustive and you should read this prospectus in its entirety and consult your financial adviser or other professional adviser before deciding whether to invest in MCN4.

Taxation summary

5.1. Summary of Australian tax consequences for MCN4 Holders

The following is a summary of the Australian tax consequences for certain Australian resident MCN4 Holders who subscribe for MCN4 under the Offer.

This summary is not intended to be exhaustive and you should seek advice from your own financial or tax adviser or other professional adviser before deciding to invest in MCN4. In particular, this summary does not consider the consequences for MCN4 Holders who:

- are not Australian residents for tax purposes;
- are Australian residents but acquire and/or hold the MCN4 through a permanent establishment outside Australia;
- acquire MCN4 otherwise than under the Offer;
- hold MCN4 in their business of share trading or dealing in securities, or who otherwise hold their MCN4 on revenue account or as trading stock; or
- are subject to the “taxation of financial arrangements” provisions in Division 230 of the Tax Act in relation to their holding of MCN4.

This summary is not intended to be, nor should it be constituted as being, investment, legal or tax advice to any particular MCN4 Holder.

This summary is based on Australian tax laws and regulations, interpretations of such laws and regulations, and administrative practices as at the date of this Prospectus.

5.1.1. Class ruling sought on MCN4

MGL has applied to the ATO for a Class Ruling to confirm certain Australian tax consequences for Australian resident MCN4 Holders. The ATO will only issue a Class Ruling after the issue of MCN4. When issued, copies of the Class Ruling will be available from www.macquarie.com and on the ATO website.

5.1.2. Distributions on MCN4

MCN4 should constitute non-share equity interests and Distributions under the MCN4 Terms should constitute non-share dividends that are frankable.

MCN4 Holders should include such Distributions in their assessable income. Generally, provided that an MCN4 Holder is a “qualified person” (see below) and the ATO does not make a determination under certain anti-avoidance rules (see below), an MCN4 Holder should include any franking credits in their assessable income and be entitled to a tax offset equal to the franking credits received.

An MCN4 Holder that is an individual or complying superannuation fund may be able to receive a tax offset refund from the ATO in a particular year if the franking credits attached to the dividend exceed the tax payable on the MCN4 Holder's total taxable income (although see the comments below in relation to the Australian Labor Party's announcement that, if elected as the Federal Government, it would change this position from 1 July 2019).

An MCN4 Holder that is a company should be entitled to a franking credit and a tax offset in respect of any franking credits attached to a Distribution. However, the company will not be entitled to a tax offset refund of the excess franking credits. Rather, the surplus franking credits may be converted to a tax loss which can be carried forward to future years (subject to the corporate MCN4 Holder satisfying certain loss carry forward rules).

MCN4 Holders who are residents of Australia for tax purposes who are neither individuals nor trustees of complying superannuation funds nor companies should consider how they should be treated in relation to the taxation of the Distributions. Such MCN4 Holders include exempt bodies and the trustees of trusts other than complying superannuation funds.

The Australian Labor Party has announced a proposal that certain individuals and superannuation funds will no longer be entitled to receive a refund of franking credits received to the extent that they exceed their tax payable. The proposal would apply from 1 July 2019. The proposal and the final form this takes remain contingent on the Australian Labor Party being elected into government and the proposal being enacted into law. If the proposal is implemented MCN4 Holders will not be entitled to any adjustment to the amount of any Distributions. The implementation of the proposal will also not give rise to a Tax Event and accordingly will not trigger an entitlement for MGL to Exchange, Resell or Redeem MCN4. Implementation of the proposed changes may adversely affect the returns you receive on your MCN4 and the market price and/or liquidity of MCN4 may also be adversely impacted.

Holding period rule

Under the “holding period rule”, in order to qualify for a franking offset MCN4 Holders are required to hold their MCN4 “at risk” for a continuous period of at least 90 days (excluding the days of acquisition and disposal) during the period beginning on the day after the MCN4 is acquired and ending on the 90th day after the day that the MCN4 becomes ex-distribution (commonly referred to as the “primary qualification period”).

If an MCN4 Holder, or an associate, is obliged to make a “related payment” which has the effect of passing on the benefit of the Distribution to other entities, the MCN4 Holder will also be required to hold their MCN4 “at risk” for at least 90 days during the period from 90 days before to 90 days after MCN4 become ex-distribution.

To be held “at risk”, an MCN4 Holder must effectively retain 30% or more of the risks and benefits associated with holding MCN4. This may be affected by any risk management strategies undertaken by an MCN4 Holder in relation to their MCN4 (for example, by the use of limited recourse loans, options or other derivatives).

An MCN4 Holder that holds their MCN4 at risk for at least the primary qualification period and does not make a related payment or undertake any risk management strategies should satisfy the “holding period rule” in relation to the franking credits included in the Distribution.

5. Taxation summary

The “holding period rule” does not apply to MCN4 Holders that are individuals if the total amount of the tax offsets in respect of franked distributions to which the MCN4 Holder is entitled to, in a particular income year, is \$5,000 or less, provided they are not under an obligation to make a “related payment” as described above. In this instance, the MCN4 Holder should be entitled to the benefit of franking credits whether or not their MCN4 are held at risk for the requisite period of time.

Anti-avoidance rules

There are anti-avoidance rules that may apply in certain circumstances to deny the benefit of franking credits to MCN4 Holders. One of these rules is in section 177EA of the Tax Act which is intended to apply to prevent schemes that are entered into for the purpose of obtaining a franking benefit and this purpose is more than an incidental purpose of entering into the scheme. Under this rule, the ATO may make a determination based on a number of objective factors as to whether a scheme has such a purpose.

The application of this rule was reviewed by the Australian High Court in *Mills v Commissioner of Taxation* [2012] HCA 51 (“the Mills case”) where it was concluded that the instruments issued in that case, that were classified as Tier 1 capital, were not subject to section 177EA.

Having regard to the objective factors which the ATO may consider under section 177EA and in light of the High Court’s decision in the Mills case, MGL does not expect section 177EA to apply to Distributions on MCN4.

MGL also does not expect any other anti-avoidance provisions to apply to Distributions on MCN4, subject to the particular circumstances of an MCN4 Holder.

5.1.3. CGT cost base and acquisition date for MCN4

The cost base (or reduced cost base) of each MCN4 acquired by an MCN4 Holder should include \$100 (being the Issue Price of each MCN4) and any non-deductible incidental costs (e.g. broker fees, adviser fees) associated with the acquisition and disposal of MCN4. This will be relevant in determining the capital gain or capital loss resulting on a disposal of MCN4 (discussed further below).

Each MCN4 will be taken to have been acquired by an MCN4 Holder on the Issue Date.

5.1.4. Exchange of MCN4 into Ordinary Shares

Specific capital gains tax provisions under the Tax Act should apply to disregard any gain or loss that may arise on Exchange of MCN4 into Ordinary Shares such that the gain or loss is effectively deferred.

As a consequence, the MCN4 Holder’s cost base in the Ordinary Shares acquired on Exchange should be equal to their cost base in MCN4. The Ordinary Shares are taken to be acquired at the date of the relevant exchange event for capital gains tax purposes (including for the purposes of determining the 12 month ownership period for the “CGT Discount Concession” discussed below).

5.1.5. Sale of MCN4 on ASX

Any gain or loss on the sale of MCN4 on ASX by an MCN4 Holder should be included in the calculation of the MCN4 Holder’s taxable income.

The Class Ruling application has requested that the ATO confirm that MCN4 should not constitute “traditional securities” and MGL expects that the Class Ruling will conclude that MCN4 are not “traditional securities”. On this basis, any gains or losses made by MCN4 Holders on the sale of MCN4 should be taxed under the CGT rules.

CGT Discount Concession

Where an MCN4 Holder realises a capital gain on disposal of MCN4, certain MCN4 Holders who have held their MCN4 for at least 12 months prior to disposal (excluding the days of acquisition and disposal) should be eligible for the 50% CGT discount (for individuals and trusts) or 33 $\frac{1}{3}$ % CGT discount (for complying superannuation funds) on any capital gain made on disposal.

The Federal Government announced in the Federal Budget delivered on 8 May 2018 that from 1 July 2019 “managed investment trusts” (MITs) and “attribution MITs” (AMITs) will not be entitled to the CGT discount at the trust level. Under the proposal, MITs and AMITs that derive capital gains will continue to be able to distribute those amounts as capital gains that may be subject to the CGT discount in the hands of those beneficiaries who are entitled to the CGT discount. Investors should monitor any potential changes on an ongoing basis.

The Australian Labor Party has announced a proposal to halve the CGT discount for all assets purchased after a yet-to-be-determined date after the next Federal election. If the Australian Labor Party is elected and the proposal becomes law, it should not impact the availability of the CGT discount for qualifying MCN4 Holders (individuals, trusts and qualifying superannuation funds) that acquired the MCN4 as part of the Offer. MCN4 Holders who acquire the MCN4 after the date on which any such change applies may be affected by the proposal.

Where a capital loss is realised on the sale of MCN4, the capital loss is generally only deductible against capital gains, but can be carried forward for use in a later year.

5.1.6. Resale of MCN4

MGL may elect to Resell MCN4 in certain circumstances. For each MCN4 subject to a Resale, an MCN4 Holder will be entitled to receive the Resale Price (which is equal to the Issue Price) from the Nominated Party. A Resale will constitute a disposal of MCN4 by the MCN4 Holder for CGT purposes. Accordingly, an MCN4 Holder may realise a capital gain or capital loss on such disposal to the extent that the Resale proceeds are greater or less than the MCN4 Holder’s cost base or reduced cost base for the MCN4.

If MCN4 have been held for at least 12 months prior to the Resale (excluding the days of acquisition and disposal), a qualifying MCN4 Holder (an individual, qualifying trust or complying superannuation fund) may be entitled to the CGT discount concession in respect of any capital gain arising on disposal, in the manner discussed in section 5.1.5 above.

5.1.7. Redemption of MCN4

MGL may also elect to Redeem MCN4 in certain circumstances, in which case MGL must pay a cash amount equal to the Redemption Price in respect of each MCN4.

Redemption of MCN4 will be a CGT event and give rise to a capital gain if the proceeds exceed the MCN4 Holder's CGT cost base of the MCN4. Conversely, a capital loss will result if the proceeds are less than the MCN4 Holder's reduced cost base.

The Redemption proceeds will be an amount equal to the Issue Price of each MCN4, unless the market value of an MCN4 on the Redemption Date (determined as if Redemption of the MCN4 had not occurred or been proposed to occur) is greater or less than the Issue Price. In that case, the greater or lesser market value amount will be deemed to be the capital proceeds of the Redemption, instead of the Issue Price actually received. The Redemption proceeds should not be treated as a dividend on the basis that they will be debited against an amount standing to the credit of MGL's non-share capital account. A qualifying MCN4 Holder (an individual, qualifying trust or complying superannuation fund) may be entitled to the CGT discount concession for any capital gain, in the manner discussed in section 5.1.5 above.

5.1.8. Ordinary Shares following Exchange

The dividends received on Ordinary Shares should give rise to similar tax consequences outlined in section 5.1.2 in relation to Distributions on MCN4.

Any gain or loss realised on the sale of Ordinary Shares should be taxable under the CGT rules. As outlined above, the Ordinary Shares acquired on Exchange will be taken to have been acquired on the date of Exchange. This means that the Ordinary Shares would need to be held for at least 12 months after the date of Exchange in order for eligible MCN4 Holders (individuals, qualifying trusts and complying superannuation funds) to qualify for the CGT discount concession on the disposal of Ordinary Shares.

5.1.9. Write-Off of MCN4

If Exchange has not occurred, for any reason, within 5 Business Days of a Non-Viability Event, an MCN4 Holder's rights under the MCN4 will be Written-Off and they will terminate for no consideration.

A CGT event will happen for MCN4 Holders if and when MCN4 are Written-Off. As no consideration will be received by MCN4 Holders for their Written-Off MCN4 and, where the MCN4 have no market value for tax purposes, MCN4 Holders should make a capital loss equal to the reduced cost base of their Written-Off MCN4.

5.1.10. Provision of TFN and/or ABN

MCN4 Holders may choose to provide their tax file number, Australian Business Number or a relevant exemption to MGL.

In the event that MGL is not notified, the Taxation Administration Act 1953 (Cth) imposes withholding tax on the payment of distributions on certain types of investments such as the unfranked part (if any) of Distributions. The rate of withholding is currently 47%.

5.1.11. GST

GST should not be payable on the issue, receipt, disposal, Exchange, Redemption or Resale of MCN4.

5.1.12. Stamp duty

Under current law, no stamp duty should be payable by an MCN4 Holder on the issue, transfer, Redemption, Exchange or Resale of MCN4 as long as MGL is listed, its shares are quoted on ASX and no MCN4 Holder (alone or with associates) will acquire or hold a 90% or more interest in MGL. The stamp duty legislation generally requires the interests of associates to be included in working out whether the threshold is reached. In some circumstances, the interests of unrelated entities can also be aggregated together in working out whether the threshold is reached.

Additional
information

6.1. Trust Deed

MGL has entered into the Trust Deed with the Trustee. The MCN4 Terms are set out as a schedule to the Trust Deed. A copy of the Trust Deed can be obtained from www.MCN4Offer.com.au.

In accordance with the requirements in Chapter 2L of the Corporations Act, the Trustee will act as note trustee for the MCN4 Holders under the Trust Deed. All MCN4 Holders are bound by the terms of the Trust Deed.

All payment, Exchange and other obligations under the MCN4 are the direct obligations of MGL. Neither the Trustee nor any of its directors, employees, officers, affiliates, agents, advisers, intermediaries, or Related Bodies Corporate guarantee, or are otherwise responsible for, the payment, Exchange or any other obligation of MGL under the MCN4.

The Trustee is not responsible for monitoring any breach of the Trust Deed, the MCN4 Terms, the occurrence of any event which may trigger an Exchange or the activities, financial position, business or status of MGL except as required by law. In this regard, the Trustee is subject to certain statutory duties imposed on it under Chapter 2L of the Corporations Act including to:

- exercise reasonable diligence to ascertain whether:
 - the property of MGL that is or should be available will be sufficient to repay the amounts lent by MCN4 Holders in respect of MCN4 when such amounts become due; and
 - MGL has breached the MCN4 Terms, the Trust Deed or the provisions of Chapter 2L of the Corporations Act; and
- unless the Trustee is satisfied a breach of the MCN4 Terms, the Trust Deed or the provisions of Chapter 2L of the Corporations Act is not materially prejudicial to the MCN4 Holders' interests, do everything in its power to ensure MGL remedies any breach which is known to the Trustee.

Investors should be aware that the Trustee's role (as noted above) is broadly limited to monitoring MGL's compliance with the MCN4 Terms, the Trust Deed and Chapter 2L of the Corporations Act and, to the extent permitted by the MCN4 Terms, the Trust Deed and the law, doing everything within its power to ensure that MGL remedies any breach which is known to the Trustee (unless the Trustee is satisfied that the breach is not materially prejudicial to the MCN4 Holders' interests).

The following is a summary only of the principal provisions of the Trust Deed.

6.1.1. Appointment of Trustee and declaration

The Trustee has been appointed under the Trust Deed and holds on trust for itself and the MCN4 Holders:

- a trust settlement sum of \$10;
- the right to enforce, on behalf of MCN4 Holders, MGL's obligations to pay amounts payable under the MCN4 Terms and under the Trust Deed;
- the right to enforce, on behalf of MCN4 Holders, all other duties and obligations of MGL under the MCN4 Terms, the provisions of the Trust Deed and Chapter 2L of the Corporations Act; and
- any other property and benefits which the Trustee from time to time receives or holds on such trust (including, without limitation, the benefit of any covenants,

undertakings, representations, warranties, rights, powers, benefits or remedies in favour of the Trustee under the Transaction Documents).

6.1.2. MGL undertakings

MGL has undertaken to the Trustee (on behalf of each MCN4 Holder) that it will, amongst other things:

- pay any amounts due and payable in respect of MCN4 (subject to any obligation of MGL to Exchange or Write-Off any MCN4);
- comply with its obligations under the MCN4 Terms, and comply with all laws applicable to it (including Chapter 2L of the Corporations Act) where failure to do so would have or be likely to have a material adverse effect in relation to the MCN4; and
- comply with any conditions imposed by ASX in connection with the MCN4 except to the extent those conditions may cause the MCN4 to cease to be Relevant Securities forming part of Eligible Capital.

6.1.3. Trustee limitation of liability

The Trustee is not liable to MGL, MCN4 Holders or any other person in any capacity other than as Trustee of the Trust. A liability of the Trustee is limited to and can be enforced against the Trustee only to the extent to which the Trustee is actually indemnified out of the assets of the Trust in respect of that liability.

However, this limitation only applies to a liability of the Trustee to the maximum extent permitted by section 283DB of the Corporations Act and does not apply to a liability of the Trustee:

- to the extent that there is a reduction in the extent of the Trustee's indemnification from the assets of the Trust in respect of the liability as a result of the Trustee's fraud, negligence, wilful default or breach of section 283DA(a), (b) or (c) of the Corporations Act ("**Trustee Default**"); or
- in respect of which the Trustee is not entitled to be indemnified, out of the assets of the Trust, as a result of a Trustee Default.

The Trustee is not obliged to do or refrain from doing anything under the Trust Deed or MCN4 Terms unless the Trustee's liability is limited in the same manner as set out in the Trust Deed (which is summarised in this section 6.1.3).

6.1.4. Action by Trustee

The Trustee is required, at all times, to act in accordance with its obligations under the MCN4 Terms, the Trust Deed, the Corporations Act and applicable law. Subject to the MCN4 Terms and to section 283DA(h) of the Corporations Act, the Trustee must take action to enforce its rights and the rights of MCN4 Holders under the Trust Deed and the MCN4 Terms in accordance with their terms where all the following conditions are met and is not required to act in accordance with any direction from the MCN4 Holders or any of them unless:

- the Trustee is requested in writing to take action by MCN4 Holders who hold between them at least 25% of the outstanding principal amount of MCN4 then outstanding or it has been so directed by a Special Resolution of the MCN4 Holders;

6. Additional information

- the Trustee is indemnified to its reasonable satisfaction against all actions to which it may render itself liable by taking such action and costs which it may incur and all management time spent by employees or officers of the Trustee in relation to such action; and
- the action is permitted under the Transaction Documents.

The Trustee may not take any enforcement action which is contrary to the Transaction Documents.

6.1.5. Direct action by MCN4 Holder

No MCN4 Holder is entitled to proceed directly against MGL to enforce the performance of any of the provisions of the Trust Deed or the MCN4 Terms (including any rights, powers or remedies in connection with the MCN4, whether arising under the Trust Deed or any other Transaction Document), unless the Trustee, having become bound to proceed, fails to do so within 14 days and such failure is continuing, in which case any MCN4 Holder may itself institute proceedings against MGL for the relevant remedy to the same extent (but not further or otherwise) that the Trustee would have been entitled to do so. Any such proceeding must be brought in the name of the MCN4 Holder and not the Trustee.

MCN4 Holders should be aware that, even if action is taken by the Trustee in accordance with the MCN4 Terms, the Trust Deed, the Corporations Act or applicable law, there can be no guarantee that such action will ensure the performance of all (or any) of MGL's obligations under the MCN4 Terms. Further, MCN4 Holders should be aware that the Trustee may not take any action to enforce any obligation of MGL in connection with the MCN4 unless the enforcement of that obligation is in accordance with the MCN4 Terms, the Trust Deed and applicable law. Neither the Trustee nor any MCN4 Holder may exercise any powers in a manner inconsistent with the Trust Deed and the MCN4 Terms.

6.1.6. Fees and expenses

Under the Trust Deed, MGL will pay the Trustee by way of a fee for its services such amounts as may be agreed between MGL and the Trustee from time to time. The Trustee may also be entitled to additional remuneration from MGL where it is required to undertake duties of an exceptional nature that are outside its normal duties. MGL will also pay to the Trustee:

- its reasonable costs, charges and expenses incurred in connection with the negotiation, preparation and execution of the Trust Deed, this Prospectus and the MCN4 Terms and any subsequent consent, agreement, approval, waiver or amendment relating to the Transaction Documents;
- all costs, charges, expenses, losses and other liabilities it incurs in connection with exercising, enforcing or preserving, or attempting to exercise, enforce or preserve, rights under the Trust Deed and the MCN4 Terms; and
- all losses, costs, charges and expenses and other liabilities it suffers or properly incurs which arise out of, or in the course of, acting as the trustee of the Trust, except where such expenses are incurred by the Trustee as a direct result of a Trustee Default.

6.1.7. Retirement and removal

The Trustee may retire by giving written notice to MGL, which will not be effective until at least 60 days after the date of the notice has passed (or such other period as the Trustee and MGL may agree) and provided that the appointment of a new trustee is effective and in compliance with all applicable statutory requirements. The Trustee may be removed by MGL by MGL giving not less than 60 days' notice (or such other period as the Trustee and MGL may agree) to the Trustee if, amongst other things:

- the Trustee is in material breach of its obligations under the Trust Deed or the MCN4 Terms and has not rectified the breach within 7 Business Days of receiving a notice from MGL specifying the breach and requesting that it be remedied;
- a Trustee Default has occurred and is continuing;
- the Trustee ceases to carry on business or becomes subject to an insolvency event (such as being placed in liquidation, being wound-up or dissolved) or a receiver or similar official is appointed to it;
- the Trustee is no longer permitted to act as trustee under the Corporations Act;
- any licence, consent, authorisation or similar thing the Trustee is required to hold to carry out its obligations under the Trust Deed is revoked or not renewed;
- MGL is authorised or requested to do so by a Special Resolution of the MCN4 Holders; or
- MGL becomes aware that the Trustee has ceased to exist, has not been validly appointed, cannot be a trustee under section 283AC of the Corporations Act or has failed or refused to act as trustee.

When the Trustee retires or is removed, the Trustee is, to the extent permitted by law, discharged and released from its obligations, covenants and liabilities under the Trust Deed arising after the date it retires or is removed.

Notwithstanding the retirement or removal of the Trustee, the outgoing Trustee:

- is entitled to its remuneration up to the date of its retirement or removal;
- will continue to be entitled to the rights of reimbursement and indemnities contained in the Trust Deed in relation to all acts and omissions occurring up to the date of its retirement, removal or replacement;
- may retain copies of any documents and records required by it and which it reasonably considers to be relevant; and
- will be given reasonable access to any other documents and records by the incoming Trustee.

6.1.8. Meetings

A meeting of MCN4 Holders has the power to:

- by Ordinary Resolution, give directions to the Trustee as to, or authorise, ratify or confirm anything the Trustee has done or omitted to do in respect of, the performance or exercise of any of its duties, rights, powers and remedies under the Trust Deed or MCN4; and

- by Special Resolution:
 - approve the release of the Trustee from liability for anything done or omitted to be done by the Trustee or any other person before the release is given; and
 - approve alterations to the Trust Deed or amendments to the MCN4 Terms (subject to the other conditions described in section 4.1.28 being complied with).

To the extent any matter arising from a meeting of MCN4 Holders may cause the MCN4 to cease to be Relevant Securities forming part of Eligible Capital, such matter requires the prior written approval of APRA.

Each MCN4 Holder is entitled to one vote on a show of hands. On a poll, each MCN4 Holder is entitled to one vote for each MCN4 with respect to which it is the registered holder.

To the extent permitted by law, the Trustee is not liable to an MCN4 Holder, MGL or any other person for acting on directions, authorisations, resolutions or confirmations given by the MCN4 Holders.

An MCN4 Holder has no entitlement to attend or vote at a general meeting of MGL or to receive a copy of the MGL annual report or other financial information sent to holders of Ordinary Shares.

6.2. Offer Management Agreement (“OMA”)

MGL has entered into an OMA with the Joint Lead Managers. Macquarie Capital (Australia) Limited is sole Arranger and a Joint Lead Manager. Under the OMA, the Joint Lead Managers have agreed to conduct a Bookbuild for the purpose of establishing the Margin.

In addition, a Joint Lead Manager may terminate its obligations under the OMA after the happening of any one or more of the following events (among others) where in the reasonable opinion of the Joint Lead Manager this event has or is likely to have a material adverse effect on the success or settlement of the Offer or could give rise to a material liability that Joint Lead Manager under the Corporations Act or any other applicable law:

- an adverse change in the assets, liabilities, financial position or performance, profits, losses, or prospects of the Macquarie Group (in so far as the position of the entity in the Macquarie Group affects the overall position of MGL);
- a change in senior management as described in this Prospectus or the Board of Directors of MGL other than the appointment of an additional Director to the MGL Board, or a change in the constitution of MGL;

- after the successful completion of the Bookbuild:
 - there is an outbreak of hostilities or major escalation of existing hostilities involving any one or more of Australia, the United States, the United Kingdom, Hong Kong, China, any member of the European Union, Japan or Singapore or the declaration by any of these countries of a national emergency or war, or a major terrorist attack is perpetrated on any of those countries;
 - the occurrence of any major calamity or crisis or any change in financial, political or economic conditions or currency exchange rates or controls in Australia, the United States or the United Kingdom; or

6. Additional information

6.2.4. Indemnity

MGL indemnifies the Joint Lead Managers and their affiliates (including their related bodies corporate) and each of their officers, directors, employees, agents and advisers against all liabilities arising in connection with or as a result of their appointment, the Offer or this Prospectus except to the extent that those liabilities arise from the fraud, recklessness, wilful misconduct or negligence of those parties, or their breach of the settlement support obligations under the OMA.

6.3. Summary of rights attaching to Ordinary Shares

Ordinary Shares will be issued to MCN4 Holders on certain events – see sections 2.3, 2.4, 2.7 and 2.8 for further details of Exchange and when it may occur.

The rights and liabilities attaching to Ordinary Shares are set out in the MGL Constitution and are also regulated by the Corporations Act, the ASX Listing Rules and the general law.

This section briefly summarises the key rights attaching to Ordinary Shares. It is not intended to be an exhaustive summary of the rights and obligations of holders of Ordinary Shares.

Applicants who are not allotted any MCN4, or are allotted fewer MCN4 than the number applied and paid for as a result of a scale back, will have all or some of their Application Payments (as applicable) refunded (without interest) as soon as practicable after the Issue Date.

Any refunded Application Payments will be refunded by bank transfer (where possible) or alternatively by cheque despatched to the Applicant's address specified on the Application Form.

Any amount of \$5 or less in aggregate will not be refunded to an Applicant, but instead paid to the Macquarie Group Foundation as a donation, within a reasonable time after the Offer Period. More information on the Macquarie Group Foundation is available at www.macquarie.com.

7.4.6. Minimum Application

The amount you have to pay for each MCN4 is \$100. You must apply for a minimum of 50 MCN4, which is a minimum investment of \$5,000.

7.5. Bookbuild and allocation policy

7.5.1. Bookbuild

The Bookbuild was a process conducted by the Joint Lead Managers before the Opening Date. In this process, the Bookbuild participants were invited to lodge bids for a number of MCN4. On the basis of those bids, MGL and the Joint Lead Managers determined the Margin and the allocations to Bookbuild participants (being Syndicate Brokers and Institutional Investors).

7.5.2. What is the allocation policy?

Broker Firm Offer and Institutional Offer

- Allocations to Syndicate Brokers and Institutional Investors were agreed by MGL and the Joint Lead Managers following completion of the Bookbuild.
- Allocations to individual Broker Firm Applicants will be determined by their Syndicate Broker.

Securityholder Offer

- Allocations for the Securityholder Offer will be determined by MGL. Allocations under the Securityholder Offer may be scaled.
- MGL has absolute discretion to determine the method and extent of the allocations.
- MGL reserves the right to scale back Applications from Securityholder Applicants. Any scale back will be announced on ASX on the Issue Date – expected to be Wednesday, 27 March 2019.
- MGL reserves the right to:
 - allocate to any Securityholder Applicant all MCN4 for which they have applied;
 - reject any Application by a Securityholder Applicant; or
 - allocate to any Securityholder Applicant a lesser number of MCN4 than that applied for, including less than the minimum Application of MCN4, or none at all.
- No assurance is given that any Securityholder Applicant will receive an allocation of MCN4.
- If the Securityholder Offer is scaled back, Applications will have all or some of their Application Payments (as applicable) refunded (without interest) as soon as practicable after the Issue Date.

7.5.3. How will the final allocation policy be announced?

Broker Firm Offer and Institutional Offer

- Allocations to Syndicate Brokers and Institutional Investors were advised to those investors under the Bookbuild.
- Applicants under the Broker Firm Offer will also be able to confirm their firm allocation through the Syndicate Broker from whom they received their allocation.

7. How to apply

You are responsible for confirming your holding before trading in MCN4. If you are a successful Applicant and sell your MCN4 before receiving your Holding Statement, you do so at your own risk.

7.6.6. Provision of TFN and/or ABN

When your Holding Statement is mailed to you, you will also be mailed a form on which to provide your TFN and/or ABN should you wish to do so (see section 5).

The collection and quotation of TFNs and ABNs are authorised, and their use and disclosure is strictly regulated, by tax laws and the Privacy Act 1988 (Cth).

7.6.7. Provision of bank account details for payments

MGL will only pay Distributions to Australian investors directly into an Australian dollar account of an Australian financial institution nominated by you at any time before close of business on the record date in respect of that payment. MGL will not pay Distributions on the MCN4 to Australian investors by cheque. Investors who are not Australian residents will be able to receive Distributions via cheques.

When your Holding Statement is mailed to you, you will also be sent instructions on how to provide your account details. This nominated account will be used for the direct crediting of payments of Distributions, repayment of principal and payments of other amounts. You should complete and return this Account Nomination Form as soon as possible.

If you are an Australian resident and have not notified MGL of an appropriate account by the close of business on the record date in respect of that payment or the credit of any money to your account does not complete for any reason, then MGL will send a notice to the postal address or email address most recently notified by you advising of the uncompleted payment. In that case, the amount of the uncompleted payment will be held as a deposit in a non-interest bearing account until the first to occur of the following:

- (i) You nominate a suitable Australian dollar account maintained in Australia with a financial institution to which the payment may be credited. Such payments will only be made periodically, likely monthly;
- (ii) MGL determines that it is permitted to refuse any claim in respect of the payment on account of the expiry of the time limit for claims specified in the MCN4 Terms; or
- (iii) MGL is entitled or obliged to deal with the amount in accordance with the law relating to unclaimed moneys.

No interest is payable in respect of any delay in payment.

7.6.8. Discretion regarding the Offer

Any refunded Application Payments will be refunded by bank transfer (where possible) or alternatively by cheque despatched to the Applicant's address specified on the Application Form.

MGL and the Joint Lead Managers also reserve the right to close the Offer (or any part of it) early, extend the Offer (or any part of it), accept late Applications or bids either generally or in particular cases, reject any Application or bid, or allocate to any Applicant or bidder fewer MCN4 than applied or bid for. This is at MGL's discretion and MGL is under no obligation to exercise that discretion in any particular way.

Investors should also note that no cooling off rights (whether by law or otherwise) apply to an Application for MCN4. This means that, in most circumstances, Applicants may not withdraw their Applications once submitted.

1.7 No other rights

Nothing in these Terms limits the ability of any member of the Macquarie Group, in its absolute discretion from time to time, from issuing shares or other securities of any kind.

2 Distributions

2.1 Distributions

Subject to these Terms, each MCN4 entitles the Holder as at a Record Date to receive on each Distribution Payment Date a cash distribution for the Distribution Period ending on that Distribution Payment Date (“**Distribution**”) calculated according to the following formula:

$$\text{Distribution} = \frac{\text{A\$100} \times \text{Distribution Rate} \times \text{N}}{365}$$

where:

“**Distribution Payment Date**” means, in respect of an MCN4:

- (a) each 10 March, 10 June, 10 September and 10 December commencing on 11 June 2019 until (but not including) the date on which that MCN4 has been Redeemed or Exchanged in accordance with these Terms; and

Terms and Conditions of the MCN4

“**Distribution Rate**” means the rate (expressed as a percentage) equal to:

(Reference Rate + Margin) × Franking Adjustment Factor

where:

(a) “**Reference Rate**” means:

- (i) subject to paragraph (ii), for a Distribution Period, the rate (expressed as a percentage per annum) designated “BBSW” in respect of prime bank eligible securities having a tenor closest to the Distribution Period which rate ASX (or its successor as administrator of that rate) publishes through information vendors at approximately 10:30am (Sydney time) (or such other time at which such rate is accustomed to be so published) on the Determination Date; and
- (ii) if the Issuer determines that a Reference Rate Disruption Event has occurred, then, subject to APRA’s prior written approval, the Issuer:
 - (A) shall use as the Reference Rate such Alternative Reference Rate as it may determine;
 - (B) shall make such adjustments to the Terms as it determines are reasonably necessary to calculate Distributions in accordance with such Alternative Reference Rate; and
 - (C) in making the determinations under paragraphs (A) and (B) above:
 - (aa) shall act in good faith and in a commercially reasonable manner;
 - (ab) may consult with such sources of market practice as it considers appropriate; and
 - (ac) may otherwise make such determination in its discretion.

For the purposes of the foregoing:

- (iii) “**Determination Date**” means:
 - (A) subject to paragraph (B) below, the first day of the Distribution Period; and
 - (B) where an MCN4 is Resold on a day which is not a scheduled quarterly Distribution Payment Date, the first day of the Distribution Period preceding the Resale Date.
- (iv) “**Reference Rate Disruption Event**” means that, in the Issuer’s opinion, the rate described in paragraph (i) above:
 - (A) is not published by midday (or such other time that the Issuer considers appropriate on that day);
 - (B) is published, but is affected by an obvious error;
 - (C) has been discontinued or otherwise ceased to be calculated or administered; or
 - (D) is no longer generally accepted in the Australian market as a reference rate appropriate to floating rate debt securities of a tenor and interest period comparable to that of MCN4; and

(v) “**Alternative Reference Rate**” means a rate other than the rate described in paragraph (i) above that is generally accepted in the Australian market as the successor to the Reference Rate, or if there is no such rate:

- (A) a reference rate that is, in the Issuer’s opinion, appropriate to floating rate debt securities of a tenor and interest period most comparable to that of MCN4; or
- (B) such other reference rate as the Issuer considers appropriate having regard to available comparable indices.

(b) “**Franking Adjustment Factor**” means:

$$\frac{(1 - T)}{1 - [T \times (1 - F)]}$$

where:

- (i) **F** means the Franking Rate; and
 - (ii) **T** means the Tax Rate;
- (c) “**Margin**” means the rate (expressed as a percentage per annum) determined under the Bookbuild; and
- “**N**” means, for a Distribution Period, the number of days in that Distribution Period; and
- “**Record Date**” means, for any payment of Distributions:
- (a) the date which is 8 calendar days before the relevant Distribution Payment Date;
 - (b) such other date as is determined by the Issuer, in its absolute discretion, and announced to the Holders on ASX and which is before the Record Date which would have been determined under paragraph (a) above; or
 - (c) such other date as may be required by, or agreed by the Issuer with, ASX.

2.2 Business Days

If a Distribution Payment Date is a day which is not a Business Day, then the Distribution Payment Date becomes the next day which is a Business Day.

2.3 Distribution payment conditions

The payment of any Distribution will be made unless:

- (a) the Issuer, in its absolute discretion, determines that the Distribution is not payable to Holders;
- (b) payment of the Distribution would result in the Issuer breaching APRA’s capital adequacy requirements applicable to it;
- (c) payment of the Distribution would result in the Issuer becoming, or being likely to become, insolvent for the purposes of the Corporations Act; or
- (d) APRA objects to the payment of the Distribution.

In determining not to pay a Distribution, the Issuer shall consider payment of Distributions as if it were payment of a dividend on a preference share which is an Equal Ranking Obligation.

2.4 Non-payment of Distributions

- (a) Distributions are non-cumulative. If all or any part of any Distribution is not paid because of clause 2.3, the Issuer has no liability to pay the unpaid amount of the Distribution and Holders have no claim or entitlement in respect of any person in respect of such non-payment and such non-payment does not constitute an event of default however described, determined or defined.
- (b) No interest accrues on any unpaid Distributions and the Holders have no claim or entitlement in respect of interest on any unpaid Distributions.
- (c) If all or any part of a Distribution will not be paid in whole or part because of clause 2.3, the Issuer must give notice to the Trustee, Registrar and ASX promptly after determining or becoming aware that payment will not be made.

2.5 Dividend Restriction

- (a) If, for any reason, an amount of any Distribution has not been paid in full on the relevant Distribution Payment Date, a Dividend Restriction shall apply from that date until the next Distribution Payment Date unless the Distribution is paid in full within 10 Business Days of the relevant Distribution Payment Date.

“**Dividend Restriction**” means that the Issuer must not, without prior approval of a Special Resolution of Holders:

- (i) determine, declare or pay any Ordinary Share Dividend; or
 - (ii) undertake any Buy-Back or Capital Reduction.
- (b) The Dividend Restriction does not apply:
 - (i) in connection with any employment contract, employee equity plan, other benefit plan or other similar arrangement with or for the benefit of any one or more employees, officers, directors or consultants of a member of the Macquarie Group;
 - (ii) in connection with the Issuer or a member of the Macquarie Group purchasing Ordinary Shares:
 - (A) in connection with transactions for the account of customers of a member of the Macquarie Group; or
 - (B) with the prior written approval of APRA, in connection with the distribution or trading of any securities of the Issuer or any other shares in the capital of the Issuer in the ordinary course of business; or
 - (iii) to the extent that at the time a Distribution has not been paid on the relevant Distribution Payment Date, the Issuer is legally obliged to pay on or after that date an Ordinary Share Dividend or is legally obliged to complete on or after that date a Buy-Back or Capital Reduction.

3 Scheduled mandatory Exchange

3.1 Scheduled mandatory Exchange

Subject to this clause 3 and clauses 4.8 and 16, the Issuer must Exchange all (but not some) of the MCN4 for Ordinary Shares in accordance with clause 9 on the Mandatory Exchange Date.

3.2 Mandatory Exchange Date

The “**Mandatory Exchange Date**” is the first to occur of the following dates:

- (a) 10 September 2029 (the “**Scheduled Mandatory Exchange Date**”) (a “**Scheduled Mandatory Exchange**”); or
- (b) any Distribution Payment Date (within the meaning of paragraph (a) of the definition of that term) after the Scheduled Mandatory Exchange Date (a “**Deferred Mandatory Exchange Date**”),

(each a “**Relevant Mandatory Exchange Date**”) on which the Exchange Conditions relevant to those dates as described in clause 3.3 are satisfied, unless the MCN4 have been or will be Redeemed or Exchanged before that date.

3.3 Exchange Conditions

The Exchange Conditions in respect of a Relevant Mandatory Exchange Date are:

- (a) the Daily VWAP on the 25th Business Day immediately preceding (but not including) the Relevant Mandatory Exchange Date (or, if that day is not an ASX Trading Day, the last ASX Trading Day prior to that day) is greater than 56% of the Issue Date VWAP (“**First Exchange Condition**”);
 - (b) the VWAP during the 20 ASX Trading Days immediately preceding (but not including) the Relevant Mandatory Exchange Date is such that the number of Ordinary Shares to be issued (calculated in accordance with clause 9.1 as if it were not limited by the Maximum Exchange Number applicable to the Relevant Mandatory Exchange Date) is less than or equal to the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date (“**Second Exchange Condition**”);
 - (c) no Suspension Event applies in respect of the Relevant Mandatory Exchange Date (“**Third Exchange Condition**”); and
 - (d) the Issuer is not Delisted as at the Relevant Mandatory Exchange Date (“**Fourth Exchange Condition**”),
- together, the “Exchange Conditions”.

3.4 Mandatory Exchange Notices

- (a) Between the 25th and 21st Business Day (inclusive) before a Relevant Mandatory Exchange Date, the Issuer will notify Holders as to whether or not the First Exchange Condition is satisfied in relation to that Relevant Mandatory Exchange Date and, if it is not, that Exchange will not occur.
- (b) If the First Exchange Condition is satisfied in relation to that Relevant Mandatory Exchange Date, and any of the other Exchange Conditions are not satisfied in relation to a Relevant Mandatory Exchange Date, the Exchange will not occur and the Issuer will notify Holders on or as soon as

Terms and Conditions of the MCN4

practicable after the Relevant Mandatory Exchange Date that Exchange did not occur.

Failure to give a notice when required by this clause 3.4 (including where in accordance with clause 13 such notice takes effect only after the last date for the giving of that notice) does not affect the obligations of the Issuer and the Holders to Exchange each MCN4 for Ordinary Shares when required in accordance with these Terms.

4 Non-Viability Event Exchange

4.1 Non-Viability Event

A “Non-Viability Event” will occur if APRA has notified the Issuer in writing that:

- (a) Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable; or
- (b) it has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable.

4.2 Exchange on account of a Non-Viability Event

Subject to this clause 4, if a Non-Viability Event occurs, the Issuer must immediately, in accordance with this clause 4 and clause 9, Exchange:

- (a) in the case of a Non-Viability Event described in clause 4.1(a), some or all MCN4 in the amount determined in accordance with clause 4.3; or
- (b) in the case of a Non-Viability Event described in clause 4.1(b), all MCN4.

4.3 Determination of number of MCN4 to be Exchanged

In determining the number of MCN4 which must be Exchanged in accordance with this clause 4 the following applies:

- (a) the aggregate face value of all Relevant Securities subject to Loss Absorption must equal the amount APRA has notified the Issuer (or if APRA has not notified the Issuer of that amount, the amount determined by the Issuer) to be necessary to satisfy APRA that the Issuer will not become non-viable;
- (b) Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption before other Relevant Securities are subject to Loss Absorption (unless the terms of such other Relevant Securities otherwise provide); and
- (c) MCN4 and other Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption on a proportionate basis (unless the terms of any such other security provide for that security to be subject to Loss Absorption other than on a proportionate basis with MCN4 and other such securities), or such other basis as the Issuer considers fair and reasonable (subject to such adjustment as the Issuer may determine to take into account the effect on marketable parcels and whole numbers of Ordinary Shares and any MCN4 or other Relevant Securities that are Equal Ranking Obligations),

provided always that nothing in the making of the determination or the adjustments is to delay or impede the immediate Exchange of the MCN4 on the Non-Viability Exchange Date.

4.4 Treatment of Holders

- (a) If, in accordance with clauses 4.2 and 4.3, only some MCN4 are to be Exchanged:
 - (i) the Issuer will endeavour to treat Holders on an approximately proportionate basis, but may discriminate to take account of the effect of marketable parcels and other similar considerations and the need to effect the Exchange immediately; and
 - (ii) where the specified currency of Relevant Securities that are Equal Ranking Obligations is not the same for all such Relevant Securities, the Issuer may treat them as if converted into a single currency of the Issuer's choice at the rate of exchange that is specified in the terms of such securities or at such other rate as the Issuer in good faith considers reasonable.
- (b) In determining the identity of the Holder at the time that the Exchange is to take effect on the Non-Viability Exchange Date the Issuer may make any decision as may be necessary or desirable to ensure Exchange occurs in an orderly manner, including disregarding any transfers of MCN4 that have not been settled or registered at that time.

4.5 Exchange is automatic and irrevocable

If a Non-Viability Event has occurred and all or some of the MCN4 are required to be Exchanged in accordance with clause 4.2, then, subject to clause 4.6:

- (a) Exchange of the relevant MCN4 will be taken to have occurred in accordance with clause 9 immediately upon the date of occurrence of the Non-Viability Event;
- (b) none of the following shall prevent, impede or delay the Exchange of the MCN4 as required by clause 4.2:
 - (i) any failure to or delay in the conversion or write-off of other securities issued as Relevant Securities;
 - (ii) any failure to or delay in giving a Non-Viability Exchange Notice;
 - (iii) any failure or delay in quotation of the Ordinary Shares to be issued on or arising from the Exchange;
 - (iv) any requirement to select or adjust the amount of the MCN4 to be Exchanged in accordance with clause 4.3; or
 - (v) any obligation to treat Holders proportionately or any right to make determinations or adjustments in accordance with clause 4.4; and
- (c) from the Non-Viability Exchange Date the Issuer shall, subject to clause 15.2(b), treat the Holder in respect of its MCN4 as the holder of the Exchange Number of Ordinary Shares and will take all such steps, including updating any register, required to record the Exchange.

4.6 Conditions to Exchange on account of a Non-Viability Event

An Exchange on account of a Non-Viability Event is not subject to the Exchange Conditions or any other condition except as provided in this clause 4 and clause 9.17.

4.7 Non-Viability Exchange Notices

As soon as practicable after the occurrence of a Non-Viability Event, the Issuer must give notice that the Exchange has occurred ("**Non-Viability Exchange Notice**") to the Holders, the Trustee, the Registrar and ASX.

A Non-Viability Exchange Notice must specify:

- (a) the details of the Non-Viability Event to which the Non-Viability Exchange Notice relates;
- (b) the date on which the Exchange occurred; and
- (c) the number of MCN4 Exchanged and the number of other Relevant Securities and other Relevant Securities that are Equal Ranking Obligations that are subject to Loss Absorption.

Failure to give a Non-Viability Exchange Notice when required by this clause 4.7 (including where in accordance with clause 13 such notice takes effect only after the Non-Viability Exchange Date) does not affect the obligations of the Issuer and the Holders to Exchange each MCN4 for Ordinary Shares when required in accordance with these Terms or affect or impede the Exchange in any way.

4.8 Priority of Exchange obligations

An Exchange on account of a Non-Viability Event takes place on the relevant date, and in the manner required by clause 9 notwithstanding anything in clauses 3, 5, 6, 7, 8 or 16 (and any Optional Exchange Notice, Acquisition Exchange Notice, Redemption Notice or Resale Notice in respect of the MCN4 given before the Non-Viability Exchange Date but in respect of which the Exchange, Redemption or Resale has not completed will be taken to be revoked and of no force or effect).

5 Optional Exchange

5.1 Optional Exchange

Subject to this clause 5 and to clause 16, by notice (an "**Optional Exchange Notice**") to Holders the Issuer may, in its sole discretion, elect to:

- (a) Exchange all or some of the MCN4 on any Scheduled Optional Exchange Date; and
- (b) Exchange all or some of the MCN4 following the occurrence of a Tax Event or a Regulatory Event.

An Optional Exchange Notice is irrevocable and takes effect despite anything in clause 3, except as provided in clauses 4.8 and 16.

5.2 Scheduled Optional Exchange Dates

The Scheduled Optional Exchange Dates are the Distribution Payment Dates falling on or about:

- (a) 10 September 2026 (the "**First Scheduled Optional Exchange Date**");
 - (b) 10 March 2027 (the "**Second Scheduled Optional Exchange Date**"); and
 - (c) 10 September 2027 (the "**Third Scheduled Optional Exchange Date**"),
- (each a "**Scheduled Optional Exchange Date**").

5.3 Contents of the Optional Exchange Notice

An Optional Exchange Notice must specify:

- (a) in the case of an Optional Exchange Notice given following the occurrence of a Tax Event or Regulatory Event, the details of the Tax Event or Regulatory Event to which the Optional Exchange Notice relates; and
- (b) the date on which the Exchange is to occur (an "**Optional Exchange Date**"), which:
 - (i) in the case of Exchange on a Scheduled Optional Exchange Date, is the relevant Scheduled Optional Exchange Date falling no earlier than 25 Business Days after the date of the Optional Exchange Notice;
 - (ii) in the case of a Tax Event or Regulatory Event, will be a day no earlier than 25 Business Days nor more than 60 Business Days after the date of the Optional Exchange Notice; or
 - (iii) in any case, is such other date as APRA may require.

5.4 Optional Exchange Restriction

The Issuer may not elect to Exchange under this clause 5 if:

- (a) on the 2nd Business Day before the date on which an Optional Exchange Notice is to be sent by the Issuer (or, if that Business Day is not an ASX Trading Day, the last ASX Trading Day prior to that day) (the "Non-Exchange Test Date") the Daily VWAP on that date is less than or equal to 25% of the Issue Date VWAP (the "First Optional Exchange Restriction"); or
- (b) the Issuer is Delisted as at the Non-Exchange Test Date (the "Second Optional Exchange Restriction" and together with the First Optional Exchange Restriction, the "Optional Exchange Restrictions").

Terms and Conditions of the MCN4

5.5 Conditions to Exchange occurring once elected by the Issuer

If the Issuer has given an Optional Exchange Notice but, if the Exchange Date were a Relevant Mandatory Exchange Date for the purposes of clause 3, any one or more of the Second Exchange Condition (tested on the basis of the Maximum Exchange Number applicable to an Optional Exchange Date), the Third Exchange Condition or the Fourth Exchange Condition would not be satisfied in respect of that date, then, notwithstanding any other provision of these Terms:

- (a) the Exchange Date will be deferred until the first Distribution Payment Date (within the meaning of paragraph (a) of the definition of that term) on which:
 - (i) the Daily VWAP on the 25th Business Day immediately preceding (but not including) that Distribution Payment Date (or, if that day is not an ASX Trading Day, the last ASX Trading Day prior to that day) is greater than 25% of the Issue Date VWAP; and
 - (ii) each of the Second Exchange Condition (tested on the basis of the Maximum Exchange Number applicable to an Optional Exchange Date), the Third Exchange Condition and the Fourth Exchange Condition would be satisfied if that Distribution Payment Date were a Relevant Mandatory Exchange Date for the purposes of clause 3, (the “Deferred Exchange Date”);
- (b) the Issuer must Exchange the MCN4 on the Deferred Exchange Date (unless the MCN4 are Exchanged or Redeemed earlier in accordance with these Terms); and
- (c) until the Deferred Exchange Date, all rights attaching to the MCN4 will continue as if the Optional Exchange Notice had not been given.

The Issuer will notify Holders on or as soon as practicable after an Exchange Date in respect of which this clause 5.5 applies that Exchange did not occur on that Exchange Date (a “Deferred Exchange Date”).

6 Acquisition Event Exchange

6.1 Exchange on account of an Acquisition Event

If an Acquisition Event occurs, subject to clause 4.8, the Issuer must Exchange all but not some of the MCN4 in accordance with this clause 6, unless the Directors determine that:

- (a) as at the Acquisition Exchange Date the Issuer will be, or will be likely to be, Delisted (except where, despite the Issuer being Delisted, the Exchange would be in the best interests of Holders as a whole); or
- (b) the Exchange Number of Ordinary Shares to be issued in Exchange for an MCN4 (calculated in accordance with clause 9.1 as if it were not limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date) would exceed the Maximum Exchange Number applicable to an Acquisition Exchange Date (except where, despite the Exchange Number being limited to the Maximum Exchange Number applicable to an Acquisition Exchange Date, the Directors determine that the Exchange would be in the best interests of Holders as a whole).

Exchange on account of an Acquisition Event is not subject to any Exchange Conditions or other conditions except as expressly provided in this clause 6.

6.2 Acquisition Exchange Notice

No later than 5:00pm (Sydney time) on the 10th Business Day after the occurrence of the Acquisition Event, the Issuer must give each Holder a notice (an “Acquisition Exchange Notice”) specifying:

- (a) details of the Acquisition Event to which the notice relates; and
- (b) if an Exchange is to occur:
 - (i) the date on which the Exchange is to occur (an “Acquisition Exchange Date”), which is to be:
 - (A) no later than the 2nd Business Day prior to the date reasonably determined by the Issuer to be the last date on which holders of Ordinary Shares can participate in the bid, scheme or arrangement concerned;
 - (B) such other earlier date as the Issuer may reasonably determine having regard to the best interests of Holders as a whole and the timing of the Acquisition Event concerned (provided that the Acquisition Exchange Date must be at least 25 Business Days after the date of the Acquisition Exchange Notice); or
 - (C) such other date as APRA may require; and
 - (ii) whether any Distribution will be paid in respect of the MCN4 on the Acquisition Exchange Date; or
- (c) otherwise, the reason why an Exchange is not to occur.

7 Optional Redemption

7.1 Optional Redemption

Subject to clause 7.2, by notice (a “Redemption Notice”) to Holders, the Issuer may, in its sole discretion, but with APRA's prior written approval of such Redemption, elect to:

- (a) Redeem all or some of the MCN4 on a Scheduled Optional Exchange Date; or
- (b) Redeem all or some of the MCN4 following the occurrence of a Tax Event or a Regulatory Event.

A Redemption Notice, once given, is irrevocable and takes effect despite anything in clause 3, except as provided in clauses 4.8 and 16.

Holders should not expect that APRA's approval will be given for any Redemption of the MCN4.

7.2 Redemption conditions

A Redemption in accordance with clause 7.1 must not occur unless either:

- (a) the MCN4 which are to be Redeemed are replaced, concurrently with the Redemption or beforehand, with securities forming part of Eligible Capital of the same or better quality from APRA's perspective, and the replacement of those MCN4 is done under conditions which are sustainable for the income capacity of the Level 3 Group; or

- (b) APRA is satisfied that the capital position of the Level 3 Group is sufficient after the MCN4 are Redeemed.

7.3 Contents of the Redemption Notice

A Redemption Notice must specify:

- (a) in the case of Redemption following the occurrence of a Tax Event or Regulatory Event, the details of the relevant Tax Event or Regulatory Event;
- (b) the date on which the Redemption is to occur (the “**Redemption Date**”), which:
 - (i) in the case of a Scheduled Optional Exchange Date, will be the next Scheduled Optional Exchange Date falling no earlier than 5 Business Days after the date of the Redemption Notice; and
 - (ii) in the case of a Tax Event or Regulatory Event, will be a day no earlier than 5 Business Days nor more than 60 Business Days after the date of the Redemption Notice; and
- (c) if less than all of the outstanding MCN4 are to be Redeemed, the proportion of each Holder’s holding which is to be Redeemed.

7.4 Redemption Price

On the Redemption Date:

- (a) each MCN4 being Redeemed will be Redeemed by payment of the Issue Price of that MCN4 (the “**Redemption Price**”) to the relevant Holder recorded on the Register at 10:00am on the Redemption Date (or such other time required by the ASX Listing Rules); and
- (b) Distributions from (and including) the immediately preceding Distribution Payment Date and up to (but excluding) the Redemption Date will be paid in respect of the MCN4 being Redeemed on such date, to the extent the conditions of payment of Distributions under clause 2.3 are met.

7.5 No right of Holders to require Redemption

No MCN4 can, or will, be Redeemed at the option of a Holder.

7.6 Effect of Redemption

Upon the Redemption Price being paid (or taken to be paid in accordance with clause 11) and any Distribution payable on the Redemption Date, all other rights conferred, or restrictions imposed, by each MCN4 being Redeemed on that date will no longer have effect and that MCN4 will be cancelled.

7.7 Partial Redemption or Resale

If some but not all of the outstanding MCN4 are Redeemed in accordance with this clause 7 or Resold in accordance with clause 8, the Issuer must select the MCN4 to be Redeemed or Resold:

- (a) in a manner that is, in the opinion of the Issuer, fair and reasonable; and
- (b) in compliance with any applicable law, directive or requirement of ASX.

8 Resale

8.1 Issuer may give Resale Notice

On any date on which it may issue a Redemption Notice, in lieu of such Redemption Notice, the Issuer may, in its sole discretion, but with APRA’s prior written approval of such Resale, issue to each Holder a notice (a “**Resale Notice**”) specifying that all or some of each Holder’s holding of the MCN4 will be Resold.

A Resale Notice to a Holder must specify:

- (a) the date on which the Resale is to occur (the “**Resale Date**”), which:
 - (i) in the case of a Scheduled Optional Exchange Date, will be the next Scheduled Optional Exchange Date falling no earlier than 5 Business Days after the date of the Resale Notice; and
 - (ii) in the case of a Tax Event or Regulatory Event, will be a day no earlier than 5 Business Days nor more than 60 Business Days after the date of the Resale Notice;
- (b) the name of each Nominated Party to whom that Holder’s offer under clause 8.3 is being made and, where there is more than one Nominated Party, the basis for determining the MCN4 to be purchased by each Nominated Party, and any special provisions to be applied if there is a Non-Completing Nominated Party; and
- (c) any conditions that will apply to the Resale,

and, subject to clauses 4.8, 8.2, 8.6 and 16, once given is irrevocable.

Holders should not expect that APRA’s approval will be given for any Resale of the MCN4.

8.2 Appointment of Nominated Party

- (a) The Issuer may not appoint itself or a Related Entity of the Issuer as a Nominated Party.
- (b) The Issuer may appoint one or more Nominated Parties for the Resale on such terms as may be agreed between the Issuer and the Nominated Parties (and, to the extent any such conditions may cause the MCN4 to cease to be Eligible Capital, with the prior written approval of APRA) including:
 - (i) as to the conditions of any Resale, the procedures for settlement of such Resale and the circumstances in which the Resale Notice may be amended, modified, added to or restated;
 - (ii) as to the substitution of another entity (not being the Issuer or a Related Entity of the Issuer) as Nominated Party if, for any reason, the Issuer is not satisfied that the Nominated Party will perform its obligations under this clause 8; and
 - (iii) as to the terms on which any MCN4 acquired by a Nominated Party may be Exchanged or otherwise dealt with.
- (c) If the Issuer appoints more than one Nominated Party in respect of a Resale, all or any of the MCN4 held by a Holder which are being Resold may be purchased for the Resale Price by any one or any combination of the Nominated Parties, as determined by the Issuer.

Terms and Conditions of the MCN4

8.3 Irrevocable offer to sell

- (a) If the Issuer gives a Resale Notice in accordance with this clause 8 each Holder on the Resale Date is taken to irrevocably offer to sell the MCN4 that are the subject of the Resale Notice to the Nominated Party or Nominated Parties on the Resale Date for a purchase price per MCN4 equal to the Issue Price of that MCN4 (the “**Resale Price**”).
- (b) Subject to payment of the Resale Price on the Resale Date and any other conditions to the Resale specified in the Resale Notice, each MCN4 which is to be Resold will be transferred to the relevant Nominated Party or Nominated Parties free from any Encumbrance.
- (c) Clause 11 applies to the payment of the Resale Price as if references in clause 11 to the Issuer were references to the Nominated Party.

8.4 Effect of transfer

The transfer will convey to the relevant Nominated Party all rights to:

- (a) Distributions payable on the MCN4 in respect of any Distribution Payment Date arising after the Resale Date;
- (b) be issued with Ordinary Shares on Exchange on or after the Resale Date; and
- (c) any Redemption Price payable on or after the Resale Date, but excluding any Distribution payable on the MCN4 in respect of any Distribution Payment Date on or before the Resale Date, which, to the extent the conditions of payment of Distribution under clause 2.3 are met, shall be paid by the Issuer to the Holder of the MCN4 entitled to such amounts as otherwise provided in these Terms.

8.5 Terms after Resale

If any MCN4 are Resold in accordance with these Terms, subject to clause 8.2, these Terms will apply in all respects to the MCN4 held by the Nominated Party on and from the Resale Date.

8.6 Nominated Party not completing

If, for any reason, a Nominated Party does not pay the Resale Price in full on the relevant Resale Date (a “**Non-Completing Nominated Party**”):

- (a) unless the Resale Price is paid in full within 2 Business Days following the Resale Date, the Resale Notice will be void insofar as it relates to MCN4 referable to the Non-Completing Nominated Party and any obligations of the Holder and Non-Completing Nominated Party in respect of the Resale of the MCN4 that is the subject of the Resale Notice will terminate;
- (b) the Holder will continue to hold the MCN4 that are the subject of the Resale Notice which are referable to the Non-Completing Nominated Party; and
- (c) the Issuer has no liability for the Non-Completing Nominated Party not paying the Resale Price and the Resale Date will not be a Distribution Payment Date unless:
 - (i) such date would otherwise have been a Distribution Payment Date; or

- (ii) a Distribution is paid on that date to Holders whose MCN4 have been transferred to a Nominated Party on or within 2 Business Days following that date.

8.7 No right of Holders to require Resale

No MCN4 can, or will, be Resold at the option of a Holder.

9 Exchange Mechanics

9.1 Exchange

On an Exchange Date, subject to clauses 4.8, 9.14 and 9.17, the Issuer will allot and issue the Exchange Number of Ordinary Shares to the Holders (or as they may direct) for each MCN4 held by the Holder.

The “**Exchange Number**” will be calculated by the Issuer in accordance with the following formula:

$$\text{Exchange Number} = \frac{\text{Issue Price}}{0.99 \times \text{Exchange Date VWAP}}$$

subject to the Exchange Number being no greater than the Maximum Exchange Number, where:

- (a) “**Exchange Date VWAP**” (expressed in Australian Dollars) means the VWAP during the VWAP Period;
- (b) “**VWAP**” means, subject to any adjustment under clauses 9.3 or 9.4, for a period or relevant number of days, the average of the Daily VWAPs (such average being rounded to the nearest full cent) of Ordinary Shares sold on ASX during the relevant period or on the relevant days; and
- (c) “**VWAP Period**” means, for the purposes of calculating the Exchange Date VWAP and the Exchange Number:
 - (i) in the case of an Exchange on a Relevant Mandatory Exchange Date or an Optional Exchange Date, the 20 ASX Trading Days immediately preceding, but not including, that Exchange Date;
 - (ii) in the case of an Exchange on account of an Acquisition Event, the lesser of 20 ASX Trading Days and the number of ASX Trading Days that Ordinary Shares are entitled to trade on ASX after the occurrence of the Acquisition Event immediately preceding, but not including, the Acquisition Exchange Date; and
 - (iii) in the case of an Exchange on account of a Non-Viability Event, the 5 ASX Trading Days immediately preceding, but not including, the Non-Viability Exchange Date; and
- (d) the “**Maximum Exchange Number**” will be calculated by the Issuer on the Issue Date in accordance with the following formula for each MCN4 held by the Holder:

$$\text{Maximum Exchange Number} = \frac{\text{Issue Price}}{\text{Exchange Floor Price}}$$

where:

- (i) **Exchange Floor Price** means Issue Date VWAP multiplied by the Relevant Percentage;
- (ii) **Issue Date VWAP** is the VWAP during the 20 ASX Trading Days immediately preceding, but not including, the Issue Date (as such number may be adjusted under clauses 9.5, 9.6 or 9.7); and

- (iii) **Relevant Percentage** is:
 - (A) if the Exchange is occurring on a Relevant Mandatory Exchange Date, 50%; and
 - (B) if the Exchange is occurring on any other Exchange Date, 20%.

Each Holder's rights (including to payment of Distributions other than the Distribution (if any) payable on the Exchange Date) in relation to each MCN4 that is being Exchanged will be immediately and irrevocably terminated for an amount equal to the Issue Price of that MCN4 and the Issuer will apply that Issue Price by way of payment for the subscription for the Ordinary Shares to be allotted and issued under this clause 9.1. Each Holder is taken to have irrevocably directed that any amount payable under this clause 9.1 is to be applied as provided for in this clause 9.1 and no Holder has any right to payment in any other way.

If the total number of Ordinary Shares to be allotted to a Holder in respect of their aggregate holding of MCN4 upon Exchange includes a fraction of an Ordinary Share, that fraction of an Ordinary Share will be disregarded.

9.2 Holder information

Each Holder agrees to provide to the Issuer (and, where clause 9.14 applies, the Sale Agent) any information necessary or desirable to give effect to an Exchange.

9.3 Adjustments to VWAP

For the purposes of calculating VWAP in these Terms:

- (a) where, on some or all of the ASX Trading Days in the relevant VWAP Period, Ordinary Shares have been quoted on ASX as cum dividend or cum any other distribution or entitlement and the MCN4 will be Exchanged for Ordinary Shares after the date those Ordinary Shares no longer carry that dividend or any other distribution or entitlement, then the VWAP on the ASX Trading Days on which those Ordinary Shares have been quoted cum dividend or cum any other distribution or entitlement shall be reduced by an amount ("**Cum Value**") equal to:
 - (i) in case of a dividend or other distribution, the amount of that dividend or other distribution including, if the dividend or other distribution is franked, the amount that would be included in the assessable income of a recipient of the dividend or other distribution who is both a resident of Australia and a natural person under the Tax Act and eligible to receive a franked distribution;
 - (ii) in the case of any other entitlement that is not a dividend or other distribution under clause 9.3(a)(i) and which is traded on ASX on any of those ASX Trading Days, the volume weighted average sale price of all such entitlements sold on ASX during the VWAP Period on the ASX Trading Days on which those entitlements were traded; or

- (iii) in the case of any other entitlement which is not traded on ASX during the VWAP Period, the value of the entitlement as reasonably determined by the Directors; and

- (b) where, on some or all of the ASX Trading Days in the VWAP Period, Ordinary Shares have been quoted on ASX as ex dividend or ex any other distribution or entitlement, and the MCN4 will be Exchanged for Ordinary Shares which would be entitled to receive the relevant dividend or other distribution or entitlement, the VWAP on the ASX Trading Days on which those Ordinary Shares have been quoted ex dividend or ex any other distribution or entitlement shall be increased by the Cum Value.

9.4 Adjustments to VWAP for divisions and similar transactions

- (a) Where during the relevant VWAP Period there is a change in the number of the Ordinary Shares on issue as a result of a Reclassification, in calculating the VWAP for that VWAP Period the Daily VWAP applicable on each day in the relevant VWAP Period which falls before the date on which trading in Ordinary Shares is conducted on a post Reclassification basis shall be adjusted by multiplying the VWAP by the following fraction:

where:

$$\frac{A}{B}$$

- (i) "**A**" means the aggregate number of Ordinary Shares immediately before the Reclassification; and
 - (ii) "**B**" means the aggregate number of Ordinary Shares immediately after the Reclassification.
- (b) Any adjustment made by the Issuer in accordance with clauses 9.3 and 9.4(a) will be effective and binding on Holders under these Terms and these Terms will be construed accordingly. Any such adjustment must be notified to all Holders as soon as reasonably practicable following its determination by the Issuer.

9.5 Adjustments to Issue Date VWAP

For the purposes of determining the Issue Date VWAP, adjustments to VWAP will be made in accordance with clauses 9.3 and 9.4(a) during the VWAP Period for the Issue Date VWAP. On and from the Issue Date, adjustments to the Issue Date VWAP:

- (a) may be made in accordance with clauses 9.6 and 9.7; and
- (b) if so made, will correspondingly cause an adjustment to the Maximum Exchange Number.

Terms and Conditions of the MCN4

9.6 Adjustments to Issue Date VWAP for bonus issues

- (a) Subject to clause 9.6(b) below, if the Issuer makes a pro rata bonus issue of Ordinary Shares to holders of Ordinary Shares generally, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V=V_0 \times \frac{RD}{RD + RN}$$

where:

- (i) “V” means the Issue Date VWAP applying immediately after the application of this formula;
 - (ii) “V₀” means the Issue Date VWAP applying immediately prior to the application of this formula;
 - (iii) “RN” means the number of Ordinary Shares issued pursuant to the bonus issue; and
 - (iv) “RD” means the number of Ordinary Shares on issue immediately prior to the allotment of new Ordinary Shares pursuant to the bonus issue.
- (b) Clause 9.6(a) does not apply to Ordinary Shares issued as part of a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or a dividend reinvestment plan.
- (c) For the purpose of clause 9.6(a), an issue will be regarded as a pro rata issue notwithstanding that the Issuer does not make offers to some or all holders of Ordinary Shares with registered addresses outside Australia, provided that in so doing the Issuer is not in contravention of the ASX Listing Rules.
- (d) No adjustments to the Issue Date VWAP will be made under this clause 9.6 for any offer of Ordinary Shares not covered by clause 9.6(a), including a rights issue or other essentially pro rata issue.
- (e) The fact that no adjustment is made for an issue of Ordinary Shares except as covered by clause 9.6(a) shall not in any way restrict the Issuer from issuing Ordinary Shares at any time on such terms as it sees fit nor be taken to constitute a modification or variation of rights or privileges of Holders or otherwise requiring any consent or concurrence.

9.7 Adjustment to Issue Date VWAP for divisions and similar transactions

- (a) If at any time after the Issue Date there is a change in the number of Ordinary Shares on issue as a result of a Reclassification, the Issuer shall adjust the Issue Date VWAP by multiplying the Issue Date VWAP applicable on the Business Day immediately before the date of any such Reclassification by the following fraction:

$$\frac{A}{B}$$

where:

- (i) “A” means the aggregate number of Ordinary Shares immediately before the Reclassification; and
 - (ii) “B” means the aggregate number of Ordinary Shares immediately after the Reclassification.
- (b) Each Holder acknowledges that the Issuer may consolidate, divide or reclassify securities so that there is a lesser or greater number of Ordinary Shares at any time in its absolute discretion without any such action constituting a modification or variation of rights or privileges of Holders or otherwise requiring any consent or concurrence.

9.8 No adjustment to Issue Date VWAP in certain circumstances

Despite the provisions of clauses 9.6 and 9.7, no adjustment shall be made to the Issue Date VWAP where such cumulative adjustment (rounded if applicable) would be less than 1% of the Issue Date VWAP then in effect. Any adjustment not made in accordance with this clause 9.8 shall be carried forward and taken into account in determining whether any subsequent adjustment shall be made.

9.9 Announcement of adjustment to Issue Date VWAP

If the Issuer determines an adjustment to the Issue Date VWAP under clauses 9.6 and 9.7, such an adjustment will be:

- (a) determined as soon as reasonably practicable following the relevant event; and
- (b) notified to Holders (an “Adjustment Notice”) within 10 Business Days of the Issuer determining the adjustment.

The adjustment set out in the Adjustment Notice will be final and binding on Holders and these Terms will be construed accordingly.

9.10 Listing of Ordinary Shares

The Issuer agrees to use all reasonable endeavours to list the Ordinary Shares issued or arising from an Exchange on ASX.

9.11 Status of Ordinary Shares

The Ordinary Shares issued or arising from an Exchange will rank equally with all other fully paid Ordinary Shares.

9.12 Effect of Exchange

When an Exchange of an MCN4 occurs all other rights conferred or restrictions imposed on that MCN4 under these Terms will no longer have effect (except for rights relating to a Distribution which is payable but has not been paid on or before the Exchange Date) and the MCN4 is cancelled.

9.13 Failure to Exchange

- (a) Subject to clauses 9.14(g) and 9.17, if, in respect of an Exchange of an MCN4, the Issuer fails to issue the Ordinary Shares in respect of an MCN4 to, or in accordance with the instructions of, the relevant Holder on the applicable Exchange Date or to the Sale Agent where clause 9.14 applies, that MCN4 remains on issue (and, without limitation, clause 2 applies) until:
- (i) the Ordinary Shares are issued to, or in accordance with the instructions of, that Holder or, where clause 9.14 applies, to the Sale Agent; or
 - (ii) that MCN4 is Redeemed in accordance with these Terms,
- and the remedies of the Trustee and a Holder in respect of that failure are limited to seeking an order for specific performance of the Issuer's obligations to issue Ordinary Shares.
- (b) This clause 9.13 does not affect the obligation of the Issuer to deliver the Ordinary Shares or of the Holder to transfer MCN4 when required in accordance with these Terms.

9.14 Holders whose Ordinary Shares are to be sold

Subject to clause 9.17 (if any) MCN4 of a Holder are required to be Exchanged and if:

- (a) the Holder has notified the Issuer that it does not wish to receive Ordinary Shares as a result of the Exchange (whether entirely or to the extent specified in the notice), which notice may be given at any time on or after the Issue Date and no less than 15 Business Days prior to the Exchange Date;
- (b) the MCN4 are held by a Foreign Holder;
- (c) for any reason (whether or not due to the fault of a Holder):
 - (i) the Issuer does not receive any information required by it in accordance with these Terms so as to impede the Issuer from issuing the Ordinary Shares to the Holder on the Exchange Date; or
 - (ii) a FATCA Withholding is required to be made in respect of any Ordinary Shares to be delivered as a result of that Exchange; or
- (d) the Issuer is of the opinion that under an Applicable Shareholding Law the Holder is prohibited from acquiring some or all of the Exchange Number of Ordinary Shares on the Exchange Date, (to the extent it is so prohibited, an **"Ineligible Holder"**),

then the Issuer will use reasonable endeavours to appoint a **"Sale Agent"** (which is not the Issuer or any Related Body Corporate of the Issuer) on such terms as the Issuer considers reasonable, who will act in accordance with paragraph (f) where the Issuer, the Trustee and the Sale Agent can be satisfied that the obligation in paragraph (f) may be performed in respect of the relevant Holder and the relevant Ordinary Shares in accordance with all applicable laws and without the Issuer, the Trustee or the Sale Agent having to take steps which any of them regard as onerous.

On the Exchange Date:

- (e) where paragraph (a), (b) or (d) applies, the Issuer will issue the Exchange Number of Ordinary Shares to the Holder only to the extent (if at all) that:
 - (i) where paragraph (a) applies, the Holder's notice referred to in paragraph (a) indicates the Holder wishes to receive them;
 - (ii) where paragraph (b) applies, the Issuer is satisfied that the laws of both Australia and the Foreign Holder's country of residence permit the issue of the Exchange Number of Ordinary Shares to the Foreign Holder as contemplated by this clause 9 (but as to which the Issuer is not bound to enquire), either unconditionally or after compliance with conditions which the Issuer, in its absolute discretion, regards as acceptable and not unduly onerous; and
 - (iii) where paragraph (d) applies, the issue would result in the Holder receiving the maximum number of Ordinary Shares the Holder is permitted to acquire in compliance with an Applicable Shareholding Law as at the Exchange Date;
- (f) otherwise, subject to paragraph (g) and clause 9.17, the Issuer will issue:
 - (i) where paragraph (a), (b) or (d) applies, the balance of the Exchange Number of Ordinary Shares; or
 - (ii) where paragraph (c) applies, the Exchange Number (in full),

in respect of that Holder to the Sale Agent on the terms that, at the first reasonable opportunity to sell the Ordinary Shares, the Sale Agent will arrange for their sale and pay to the relevant Holder on a date determined by the Sale Agent a cash amount equal to the Attributable Proceeds of the relevant Holder or, where paragraph (c)(ii) applies, the Sale Agent will deal with the Ordinary Shares in accordance with FATCA. The issue of Ordinary Shares to the Sale Agent will satisfy all obligations of the Issuer in connection with the Exchange, the MCN4 will be deemed Exchanged and will be dealt with in accordance with clause 9.1 and, on and from the issue of Ordinary Shares, the rights of a Holder the subject of this clause 9.14 are limited to its rights in respect of the Ordinary Shares or the Attributable Proceeds as provided in this clause 9.14; and

- (g) where paragraph (f) applies in respect of a Holder and a Sale Agent is unable to be appointed, or either or both of the Issuer and the Sale Agent is of the opinion that the issue of Ordinary Shares to the Sale Agent and subsequent sale in accordance with paragraph (f) cannot be undertaken in accordance with an Applicable Shareholding Law or other applicable law (or can be undertaken in accordance with an Applicable Shareholding Law or applicable law only after the Issuer or the Sale Agent take steps which either or both the Issuer and the Sale Agent regard as onerous), then:
 - (i) in respect of a Non-Viability Exchange Date, but without in any way limiting clause 9.17, if either or both of the Issuer and the Sale Agent is of the opinion that the issue of Ordinary Shares cannot be undertaken within 5 Business Days of the Non-Viability Exchange Date

Terms and Conditions of the MCN4

to the Sale Agent in accordance with paragraph (f) or otherwise to the relevant Holder in accordance with this clause 9, then the relevant MCN4 will be Written-Off; or

- (ii) in respect of an Exchange Date other than a Non-Viability Exchange Date:
 - (A) the issue of Ordinary Shares to the Sale Agent in accordance with paragraph (f) shall occur as soon as practicable after the Issuer is able to issue the relevant Ordinary Shares to the Sale Agent in accordance with an Applicable Shareholding Law and other applicable laws (and without the Issuer or the Sale Agent taking steps which either or both of the Issuer and the Sale Agent regard as onerous); and

 - (ab) the relevant MCN4 are Redeemed in accordance with these Terms; or
 - (ac) the date which is 6 months after the Exchange Date, upon which date an Exchange will not occur in respect of the balance of the Holder's MCN4 at that date and such MCN4 will be automatically cancelled for no consideration.

Nothing in this clause 9.14 shall affect the Exchange of MCN4 to a Holder which is not a person to which any of paragraphs (a) to (d) (inclusive) applies.

9.15 No duty on sale

For the purpose of clause 9.14, none of the Issuer, the Trustee, the Sale Agent or any other person owes any obligations or duties to the Holders in relation to the price at which Ordinary Shares are sold or has any liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.

No MCN4 can, or will, be Exchanged at the option of a Holder.

9.17 Write-Off on failure to perform Exchange

- (a) Notwithstanding any other provisions of this clause 9, if, for any reason (including, without limitation, an Inability Event) an MCN4 which, but for this clause this clause 9.17 would be required to be Exchanged, has not been Exchanged within 5 Business Days of the Non-Viability Exchange Date, then Exchange of that MCN4 will not occur and that MCN4 will instead be Written-Off.
- (b) The Issuer must give notice to Holders if that Exchange has not occurred by operation of this clause 9.17, but failure to give that notice shall not affect the operation of this clause 9.17.

For the avoidance of doubt, any withholding or deduction required under FATCA is a tax, the withholding or deduction of which is required by applicable law for purposes of this clause 11.

- (b) In addition, where Ordinary Shares are required to be delivered to a Holder upon an Exchange, and the Issuer is required or entitled to make a FATCA Withholding, then the Issuer is entitled to deal with any Ordinary Shares comprising that FATCA Withholding in accordance with clause 9.14.

11.8 Unsuccessful attempts to pay

Subject to applicable law, where the Issuer:

- (a) decides that an amount is to be paid to a Holder by a method of direct credit and the Holder has not given a direction as to where amounts are to be paid by that method;
- (b) attempts to pay an amount to a Holder by direct credit, electronic transfer of funds or any other means and the transfer is unsuccessful; or

12.3 Register conclusive as to ownership

An entry in the Register in relation to an MCN4 constitutes conclusive evidence that the person so entered is the absolute owner of that MCN4, subject to correction for fraud or error.

12.4 Non-recognition of interests

- (a) Except as required by clause 9 and by law, and save as provided below, the Issuer and the Registrar must treat the person entered in the Register in respect of an MCN4 as the absolute owner of that MCN4.

12.7 Transferee takes subject to terms

A transferee of, or any person claiming, an interest in an MCN4 takes subject to these Terms and the MCN4 Trust Deed.

12.8 Other transfers void

A purported transfer otherwise than in accordance with these Terms and the MCN4 Trust Deed or grant of an interest in an MCN4 otherwise than by way of transfer is, to the fullest extent permitted by law, void.

12.10 Issuer must request holding lock or refuse to register transfer

- (b) The Issuer must refuse to register any transfer of any MCN4 if the Corporations Act or the ASX Listing Rules require the Issuer to do so.

12.11 Notice of holding locks and refusal to register transfer

If, in the exercise of its rights under clauses 12.9 and 12.10, the Issuer requests the application of a holding lock to prevent a transfer of MCN4 or refuses to register a transfer of MCN4, it must, within 2 months after the date on which the transfer was lodged with it, give written notice of the request or refusal to the Holder, to the transferee and the broker lodging the transfer (if any). Failure to give such notice does not, however, invalidate the decision of the Issuer.

12.12 Delivery of instrument

If an instrument is used to transfer any MCN4 according to clause 12.6, it must be delivered to the Registrar, together with such evidence (if any) as the Registrar reasonably requires to prove the title of the transferor to, or right of the transferor to transfer, the MCN4.

13.6 Effect of failure to give notice

If the Issuer is required to give a notice in relation to any act, matter or determination, the accidental omission to give that notice to a Holder does not invalidate the notice in relation to Holders generally, or affect the validity of that act, matter or determination.

14 Amendment of Terms

14.1 Amendment without consent

Subject to complying with the Corporations Act and all other applicable laws and directives, the Issuer may amend these Terms and the MCN4 Trust Deed, with the prior written approval of APRA (to the extent any such amendment may cause the MCN4 to cease to be Relevant Securities forming part of Eligible Capital) but without the consent of the Holders or the Trustee:

- (a) if the Issuer is of the opinion that the amendment is:
 - (i) of a formal, minor or technical nature;
 - (ii) made to correct any ambiguity or any manifest or proven error;
 - (iii) expedient for the purpose of enabling the MCN4 to be listed for quotation or to retain a listing on any Stock Exchange, to be cleared or settled through any clearing system or to retain clearance and settlement through any clearing system or to be offered for sale, Resold, or subscribed for, under the laws for the time being in force in any place and, in each case, it is otherwise not considered by the Issuer to be materially adverse to the interests of Holders as a whole;
 - (iv) necessary to comply with the provisions of any statute or the requirements of any statutory authority;
 - (v) in respect of any time or notice period stated, required or permitted in respect of any Exchange, as is necessary or appropriate to give effect to such Exchange; or
 - (vi) made to:
 - (A) alter the terms of any MCN4:

 - (ab) to align them with any other Relevant Security eligible for inclusion as Eligible Capital issued after the issue date of such MCN4; or
 - (B) alter the definition of Relevant Securities on account of the issue (after the date of any MCN4) of any other Relevant Securities forming part of Eligible Capital; or
 - (C) give effect to any agreement with the Nominated Party to which MCN4 have been Resold; and
- (b) if the Issuer is of the opinion that the amendment does not, taken as a whole and in conjunction with all other amendments (if any) made contemporaneously with the amendments, materially adversely affect the interests of Holders as a whole,

provided that, notwithstanding anything else in this clause 14.1, any amendments which may have an adverse effect on the Trustee's personal rights and obligations under the Transaction Documents must first be approved by the Trustee in writing (such approval not to be unreasonably withheld or delayed).

14.2 Amendment without consent where Approved Acquirer

Without limiting clause 14.1, subject to complying with the Corporations Act and all other applicable laws and directives, the Issuer may make amendments to these Terms and the MCN4 Trust Deed, with the prior written approval of APRA (to the extent any such amendments may cause the MCN4 to cease to be Relevant Securities eligible for inclusion as Eligible Capital) but without the consent of the Holders or the Trustee which are, in the Issuer's reasonable opinion, necessary and appropriate to effect the substitution of the Approved Acquirer as the issuer of Ordinary Shares whenever MCN4 are required to be Exchanged in the manner contemplated by these Terms, including without limitation:

- (a) amendments to the definition of "Exchange" such that, unless APRA otherwise agrees, on the Exchange Date:
 - (i) each MCN4 that is to be Exchanged will be automatically transferred by each Holder free from Encumbrance to the Approved Acquirer (or another subsidiary of the Approved Acquirer which is a holding company of the Issuer on the Exchange Date) (the "Transferee");
 - (ii) each Holder will be issued a number of ordinary shares in the capital of the Approved Acquirer equal to the Exchange Number; and
 - (iii) as between the Issuer and the Transferee, the MCN4 held by the Transferee as a result of the transfer will be Exchanged for a number (rounded down to the nearest whole number) of Ordinary Shares the aggregate value of which equals the aggregate Issue Price of the transferred MCN4;
- (b) amendments and additions to the definitions of "Acquisition Event", "Macquarie Group", "Regulatory Event" and "Tax Event"; and
- (c) amendments and additions to any term defining the rights of Holders if the Exchange is not effected which is appropriate for the MCN4 to be or to remain as Relevant Securities eligible for inclusion as Eligible Capital,

provided that, notwithstanding anything else in this clause 14.2, any amendments which may have an adverse effect on the Trustee's personal rights and obligations under the Transaction Documents must first be approved by the Trustee in writing (such approval not to be unreasonably withheld or delayed).

14.3 Amendment with consent

Without limiting clauses 14.1 and 14.2, the Issuer may, with APRA's prior written approval (to the extent any such amendment may cause the MCN4 to cease to be Relevant Securities eligible for inclusion as Eligible Capital), amend these Terms or the MCN4 Trust Deed, if the amendment has been approved by a Special Resolution and by the Trustee in writing.
